

Under Construction

December 17th is the final day of operation for the Marshall Pool before we close it for renovations. For a refresher on the scope of this project and timeline, please visit our [Marshall Pool Project page](#) online.

Please keep in mind that during the closure, Marshall Passholders will have:

- Unlimited access to Firstenburg Community Center (including aquatic facilities)
- Access to a 5:30-7 a.m. lap swim and 6-6:50 a.m. water exercise class on Mondays, Wednesdays and Fridays at the Washington State School for the Blind, **starting Wednesday, January 4**

The school is located just up the road from Marshall Community Center.

A robust dry-land group exercise schedule here at Marshall to supplement for the loss of water exercise.

We want to reiterate to everyone that our campus will be open and operate as normal for the entirety of the renovation project.
