TYPE III APPLICATION

Type III procedures are for quasi-judicial permits and actions that predominantly contain discretionary approval criteria. Type III applications are decided by the Hearings Examiner or Planning Commission, depending on the application. The following applications are classified as Type III:

- Conditional Uses per VMC 20.245
- Human Services Facility
- Major Variance that results in the modification of more than 20% of a numerical development standard per VMC 20.290
- Preliminary Subdivisions per VMC Title 20
- Public Facility Master Plans, initial approval
- Shoreline Conditional Use Permit (recommendation to State Department of Ecology)**
- Shoreline Major Substantial Development Permit**
- Shoreline Variance (recommendation to State Department of Ecology)**
- Zone Map amendments of 25 acres or less not involving a Comprehensive Plan amendment

SUBMITTING PLANS FOR REVIEW:

Counter complete status:

An application will be accepted by the City of Vancouver only after the City finds that the application appears to include all the information required. No effort will be made to evaluate the substantive adequacy of the information. If all required information is not submitted, the application will not be accepted.

Fully complete status:

Within 28 days of acceptance of a counter complete application, the City will notify the applicant, in writing, as to the completeness of the application. An application will not be deemed fully complete until all information necessary to evaluate the proposed activity, its impacts, and its compliance with the provisions of the Vancouver Municipal Code and other applicable codes and statutes have been provided.

Decision:

Within 14 calendar days after the date a Type III application is determined fully complete, the Planning Official will issue a Notice of Application to a newspaper of local circulation and parties listed in VMC 20.210.050(F).

Incomplete applications will not be accepted

SHORELINE MANAGEMENT SUBSTANTIAL DEVELOPMENT, CONDITIONAL USE OR VARIANCE PERMIT MINIMUM SUBMITTAL REQUIREMENTS

Please read carefully

- The following information is required to be submitted with a Shoreline Management Substantial Development application per VMC 20.760. Applications without the required information will not be accepted. The Planning Official may require information in addition to that required by VMC 20.760 if it is determined that such information is necessary to properly evaluate the application. The Planning Official may waive information required by VMC 20.760 if it is determined that such information is not necessary to properly evaluate the application.
- Applications submitted without the additional information requested under Section J below will not be deemed fully complete unless the applicant signs a written statement at Section K of this application which states that the applicant chooses not to submit the specified items but realizes that by not submitting such items the application may be DELAYED or DENIED.

A. Required application fee. Refer to VMC 20.180

As per WAC 173-14-110 Shoreline Management applications require that the following information be submitted at the time of application. Provide 1 original and 9 copies of each, folded and collated, unless otherwise noted.

B. Completed application form

C. Narrative demonstrating compliance with applicable shoreline master plan policies

D. Site Plan drawn to scale, with scale indicated on lower right-hand corner, showing the following

1. Accurate representation of the site boundary, containing the size and shape of the parcel(s), including easements of any kind and all dimensions and parcel orientation. Include north arrow.
 2. Ordinary high water mark and setback line.
 3. Typical cross section(s) showing:
 - a. Existing ground elevations
 - b. Proposed ground elevations
 - c. Height of existing structure(s)
 - d. Height of proposed structure(s)
 4. If development involves grading, cutting, filling, or other alteration of land contours, note proposed land contours using 5'-foot intervals in water area and 10'-foot intervals on areas landward of ordinary high water mark.
 5. Show dimensions and locations of existing structures which will be maintained.
 6. Show dimensions and locations of proposed structures.
 7. Identify source, composition, and volume of fill material.
 8. Identify composition and volume of any extracted materials, and identify proposed disposal area.
