

DRAFT

Proposed items to be addressed in the General Requirements and Standard Details due to ordinance revisions and permit compliance

New sections to be added

-NPDES Permit Appendix 1 (Minimum Technical Requirements for New Development and Redevelopment), which includes:

- Exemptions
- Applicability
- Minimum Requirements
- Adjustments
- Exceptions/Variations
- Basin/Watershed Planning

(Note: Name convention issue “Permittee” & Exclude Erosivity Waiver)

-Low Impact Development (LID) section for public right-of-way BMP's.

-Applicability – addressing the gap between NPDES permit and previous ordinance thresholds and addressing discharges to ground.

-Large waterbody exemption and downstream capacity.

-Basin Plans & associated requirements as completed/approved including forested area analysis.

-Technical details that were in previous ordinances will be incorporated into new or existing sections.

Existing sections to be revised

1-5 Legal Authority

Brief discussion regarding revised ordinances and NPDES permit

4-1 Introduction

4-2 Civil Plan Submittals

Stormwater Site Plan Submittal Requirements
Civil Plan Approval
Hydrology Report

4-6 Water Quantity and Infiltration Systems

Infiltration Testing – White Paper/County Manual & Ecology Approved
Underground Injection Control Regulations
Model Calibration & Isopluvials/Areas

4-7 Water Quality
