

Neighborhood Traffic Safety Alliance

Safe Neighborhood Streets

The Neighborhood Traffic Safety Alliance is hosting three special 'safe streets' clinics to explore low-cost safety tools for residents to use in calming neighborhood traffic. The public is encouraged to attend and learn about various neighborhood-initiated actions that address local speeding concerns on residential streets. The educational workshops are scheduled for May, June and September. The NTSA will hold regular meetings in May and September, prior to each clinic. The public is welcome to attend!

Educational Clinics

MAY 18, 2010 - Do It Yourself Traffic Calming

NTSA MEETING: 7 - 7:30 p.m., City Hall Council Chambers, 210 East 13th St, 1st floor

SAFE STREETS CLINIC 1: Do It Yourself Traffic Calming

7:30 - 9 p.m.

Learn the philosophy and techniques of neighborhood-initiated traffic calming. Participants will view a video training session produced by renowned 'traffic taming' expert David Engwicht, which builds upon concepts shared during his previous visit to Vancouver.

JUNE 15, 2010 - Neighborhood Placemaking

SAFE STREETS CLINIC 2: Neighborhood Placemaking (City Repair Project)

7 - 9 p.m.

Transportation Office, 4400 NE 77th Ave, 3rd floor

Placemaking is a multi-layered process wherein citizens foster active, engaged relationships to their neighborhoods. This is often accomplished through creative reclamation of public space, including intersection repair. This session will be hosted jointly with the City Repair Project.

SEPTEMBER 21, 2010 - 22 Benefits of Urban Street Trees

NTSA MEETING: 7 - 7:30 p.m., Transportation Office, 4400 NE 77th Ave, 3rd floor

SAFE STREETS CLINIC 3: 22 Benefits of Urban Street Trees

7:30 - 9 p.m.

Building upon the philosophy and research of Walkable Communities founder Dan Burden, this workshop will explain the benefits of street trees and their relationship to traffic calming and community livability. Participants will learn how to implement these ideas on residential streets. This session will be hosted jointly with the Vancouver Urban Forestry Program.
