Adequate notice will be given to the public, the owner(s) and the author(s) of the nomination, if different, and lessees, if any, of the subject property prior to the public meeting according to standards for public meetings established in rules and in compliance with RCW 42.30, Open Public Meetings Act.    B. Draft design guidelines for the proposed historic district and submit them to the commission.

3. The commission shall hold a duly advertised public hearing to review the proposal. It shall make findings concerning the proposed district's historic significance; the appropriate boundaries of such a district; land use impacts, consistency and compatibility issues; and appropriate design guidelines. 2. In the event that any property or historic district no longer meets the criteria for designation to the Clark County heritage register, the commission may initiate removal from such designation by the same procedure as provided for in establishing the designation, except that a property or historic district may be removed from the Clark County heritage register without owner consent. The decision to remove a property or district from the Clark County heritage register may be appealed to the city council.

E. Effects of Designation and Listing on the Register.

2. Prior to the commencement of any work associated with the significant features as defined in the designation of the register property or historic district, excluding ordinary repair, maintenance and emergency measures defined in VMC Section 17.39.080, the owner must request and receive a certificate of appropriateness from the commission for the proposed work.

(Ord. 3243 § 2 (part), 1996)(M-4079, Amended, 06/16/2014, Sec 61-Effective 07/01/2014)

Section 17.39.080 Review of changes to Clark County heritage register property(ies)–Design review.

A. Review Required. No person shall construct any new building or structure, or reconstruct, alter, restore, remodel, repair, move, demolish or make any material change affecting significant historic features as listed in the designation application to any existing property on the Clark County heritage register or within a historic district on the Clark County heritage register, whether the property is contributing or noncontributing, without review by the commission and without receipt of a certificate of appropriateness, or in the case of demolition, a waiver of certificate of appropriateness, as a result of the review.

1. For individual or contributing properties, the review shall apply to all features of the property, interior and exterior that contributes to its designation and is listed on the designation.

2. For noncontributing properties, the review shall apply to exterior changes. The purpose of the review in this case is to ensure that the proposed changes do not further detract from the property's compatibility with the historic district, and to encourage changes which would enhance its compatibility with the historic district.

3. For new construction or redevelopment, the review shall apply to the exterior of the structure(s). The purpose of the review is to ensure that the exterior design of the proposed structure enhances the historic district through conformance with the adopted design guidelines.
This requirement shall apply whether or not the proposed alteration also requires a building or other permit, except as noted under subsection (B) of this section. Information required by the commission to review the proposed changes is established in its rules and procedures. A pre-application conference is recommended but must be requested by the applicant.

B. Exemptions. The following activities do not require a certificate of appropriateness or review by the commission:

1. Ordinary repair and maintenance activities, including painting and emergency measures as defined in VMC Section 17.39.030, which do not affect significant historic features.

2. Ordinary repairs and maintenance which do not alter the appearance of a significant feature and do not utilize substitute materials do not require a certificate of appropriateness.

3. If there are no interior features of significance, repairs to or replacement of utility systems do not require a certificate of appropriateness if such work does not alter a significant feature.

C. Review Process.

1. Requests for Review and Issuance of a certificate of appropriateness or waiver. The building or zoning official shall report any application for a permit to work on a designated Clark County heritage register property or in a Clark County heritage historic district to the commission. If the activity is not exempt from review, the commission or staff shall notify the applicant of the review requirements. The building or zoning official shall not issue any such permit until a certificate of appropriateness or a waiver is received from the commission but shall work with the commission in considering building and fire code requirements.

2. There shall be two types of reviews for issuance of a certificate of appropriateness:

   a. An administrative review by commission staff for repairs and replacements-in-kind as listed below, but not limited to the following:

      1. Repairs (other than ordinary repair and maintenance) using the same materials and design as the original;
      2. Re-roofing using the same type and color of material;
      3. Replacement of sidewalks and driveways using the same type and color of materials;
      4. Replacement of foundations or major portions thereof, using the same type and color of materials;
      5. Replacement of utility systems if contributing interior features of significance are present;
      6. Structural or seismic upgrades which do not alter or affect significant features.
b. A public hearing review by the commission for alterations in appearance, replacement of historic materials, new construction or additions, or demolition or removal of a Clark County heritage register building or cultural resource. Demolition of structures or facilities with recognized historical significance is also subject to the State Environmental Policy Act.

3. When a certificate of appropriateness is required, the following procedures shall govern according to the type of review required.

   a. Applications requiring administrative review for certificates of appropriateness shall be reviewed by the commission staff.

   b. Applications for the certificate shall be submitted to the commission staff on forms provided by the commission and must include a clear photograph or photographs of the building, object, site or structure, a brief description of the intended work, and samples of replacement material for comparison with the existing or the original building or structure.

   c. Decision of the commission staff on the application shall be made within fifteen days from the date on which the commission staff receives a technically complete application.

   d. The commission staff may, on his or her own motion, refer the application to the commission for a decision in accordance with the procedures set forth for a public hearing review. The time for a decision of the commission on the application shall run from the date that the application is referred to the commission by the staff.

   e. Appeals from the decision of the commission staff regarding the issuance of a certificate of appropriateness under administrative review may be appealed to the commission (not the hearing examiner).

4. Public Hearing Review. Alterations in Appearance, Replacement of Historic Material (Other Than In-Kind), New Construction or Additions. Alteration in the appearance of a significant contributing feature, the replacement of historic material (other than in-kind) in a significant feature, additions to a Clark County heritage register (CCHR) or new construction on a CCHR property or in a historic district, or any excavation on an archaeological site requires a public hearing review for a certificate of appropriateness. The owner or his/her agent (architect, contractor, lessee, etc.) shall apply to the commission for a review of proposed changes on a Clark County heritage register property or within a Clark County heritage register historic district and request a certificate of appropriateness or, in the case of demolition, a waiver. Each application for review of proposed changes shall be accompanied by information as required by the commission in its rules and procedures for the review of the proposed project. The commission staff shall meet with the applicant and review the proposed work according to the design review criteria established in rules. Notice of the design review shall be published in a newspaper of general circulation with the agenda for a public hearing and the property posted. The commission shall complete its review and make its recommendations decision within the time lines established in Clark County Code Section 17.600.080, unless an extension of time is necessary. The commission's decision shall be in writing and shall state the findings of fact and reasons relied upon in reaching its decision. If the owner agrees to the commission's decision, a certificate of appropriateness shall be awarded by the commission according to standards established in its rules and procedures. The commission's recommendations and decision, and, if awarded, the certificate of appropriateness shall be transmitted to the building or zoning official. If a certificate of appropriateness is awarded, the building or zoning official may then issue the permit.
5. Demolition. A waiver of certificate of appropriateness is required before a permit may be issued to allow whole or partial demolition of a designated Clark County heritage register property or in a Clark County heritage register historic district. Demolition is subject to review under the State Environmental Policy Act.

a. The owner or his/her agent shall attend a pre-application conference with staff to review demolition or alternative plans.

b. After the pre-application conference, the owner or agent may apply to the commission for review of the proposed demolition and request a waiver of certificate of appropriateness through a public hearing. With the application, the applicant shall provide a bona fide list of alternatives to demolition (which includes, but is not limited to, economic analysis; offers to lease, sell or dedicate site to a private, public or nonprofit entity, and outcome of the offer; relocation of building, etc.)

e. Such review shall last no longer than forty-five days from the date of application, unless the commission finds that an extension of time is necessary. In no case shall the commission extend the review period beyond an additional forty-five days.

d. If no alternative to demolition is agreed upon, the commission shall issue a waiver of certificate of appropriateness. The commission may attach to the waiver, pursuant to the public hearing, conditions mitigating the loss of the Clark County heritage register property. Mitigation measures may include, but are not limited to, an identification plaque, use of an architectural element in new construction, moving the building, and/or buffering of the historic or cultural resource. The waiver and any attached mitigation conditions shall be transmitted to the official in charge of issuing demolition permits. Any attached mitigation conditions shall become conditions of approval should a demolition permit be granted.

e. After demolition of a property, the commission may initiate its removal from the Clark County heritage register.

6. Appeal of Approval or Denial of a Waiver of a Certificate of Appropriateness. The commission's decision regarding a waiver of a certificate of appropriateness may be appealed to the city council. Appeal of the city council's decision regarding a waiver of a certificate of appropriateness may be appealed to superior court.
