

STATE OF MOBILITY SNAPSHOT

What is Vancouver Moves?

Vancouver Moves is a community-led plan to guide the City's future transportation system. This one-pager summarizes information about the City's transportation system and how people currently travel around Vancouver.

The planning process will start a conversation with the community about how the transportation system can better serve the needs Vancouver residents, employees, and visitors. The planning process will talk with community members to understand:

Travel conditions

For those who walk, bicycle, ride transit, drive, and deliver freight in the City

Community priorities

With a focus on communities that need transportation improvements the most

Building from these conversations, Vancouver Moves will identify recommended policies, programs, and projects to guide the City's transportation future.

Vancouver by the Numbers

Vancouver was home to 183,000 people in 2019. The community is becoming more racially diverse and becoming more educated. Property values have also steadily increased. The transportation system must keep pace with this growth and help maintain the City's vibrant neighborhoods.

14
thousand

More people living in Vancouver in the last 10 years - an increase of 10%.

20%

Vancouver community members who identify as Black, Indigenous, and People of Color. This is an increase from 17% in 2010.

91%

Evergreen Public Schools graduation rate. 85% graduation rate for Vancouver Public Schools - an increase since 2014.

\$238
thousand

Median property value in 2017 - an increase of 9.7%

OUR TRANSPORTATION SYSTEM

17.6

Miles driven per day per resident - down from 21.8 in 2000

90

Miles of bike lanes or wide shoulders in Vancouver.

27

thousand
Ride C-Tran buses every day.

630

Miles of city streets with sidewalks.

6.5%

Crashes grew 6.5% between 2004 - 2018.

4%

Of crashes involved a pedestrian and 3% involved a bicyclist - much higher than the statewide average.

How we get around

86.4%

of workers drove to work in 2018, slightly fewer than in 2010.

23.8 min

Average Vancouver commute - slightly shorter than Washington, Portland, and the U.S. as a whole.

The Vine Bus Rapid Transit (BRT)

Vancouver is home to the region's first Bus Rapid Transit system, making transit faster and more reliable. C-TRAN operates transit services in the Vancouver region. The Fourth Plain corridor opened in 2017 and achieved the following:

Travel time decreased **12%**

Up to **10 minutes** saved per trip

Ridership increased **45%**

Per passenger cost dropped **21%**
