I. Executive Summary

This report contains data through June 30, 2023. The new feature of this Quarterly Report is the addition of the Performance Reports, representing the status of various initiatives and capital projects throughout the City. National economic indicators continue to exhibit mixed signs. Positive factors for the second quarter include growth in GDP, robust job gains, and a low unemployment rate. Negative factors include higher interest rates, cooler real estate market, higher inflation, and lower housing starts. Most recent data suggest economic activity will continue to decelerate in the months ahead indicating that the US economy will likely be in a recession from Q3 2023 to Q1 2024.

The national economy grew by an estimated 2.4% in the second quarter of 2023, after an increase in the first quarter of 2.0%, and an increase in the fourth quarter of 2022 of 2.6%. The increase in real GDP primarily reflected increases in consumer spending and business investment that were partly offset by decreases exports.

City of Vancouver General Fund revenues in the second quarter of 2023 totaled \$123.6 million, or 52% of the forecast for the year. Overall tax revenues were 14.4% higher than those through the second quarter of 2022, driven primarily by the Proposition 2 Levy, which increased property taxes to support fire and emergency services, as well as Clark County's Proposition 11, which voters approved to increase sales tax to support Public Safety. Sales tax collections through the second quarter were 4.7% higher than those in 2022. Recreation fees were also higher than anticipated.

General Fund expenditures at the end of June 2023 were \$112.9 million, or 44% of the budget for the year. The General Fund operating cash balance was \$102 million at the end of June 2023. Following is detailed information on the main revenue sources of the General Fund.

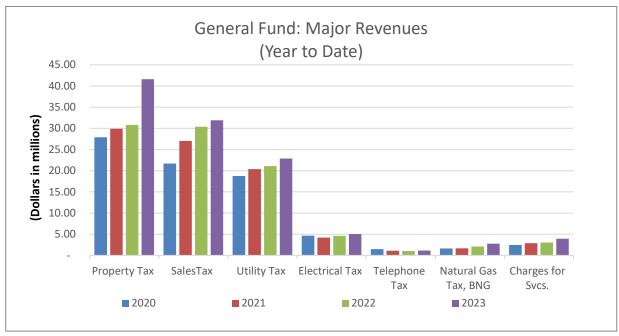

Chart No. 1 – General Fund Major Revenues through June 30, 2023.

II. Economic Report

National economic indicators continue to exhibit mixed signs. The national GDP increased at an annual rate of 2.4% in the second quarter of 2023. The unemployment rate remained low and job gains have been robust over the last few months. The real estate market was cooler in the first quarter; however, home prices still increased in many metro areas. The following is specific information related to some of the major national economic indicators, beginning with Gross Domestic Product.

Real gross domestic product (GDP) increased at an annual rate of 2.4% in the second quarter of 2023, according to the "advance" estimate released by the Bureau of Economic Analysis. In the first quarter, real GDP increased 2.0%. The increase in real GDP primarily reflected increases in consumer spending and business investment that were partly offset by decreases exports.

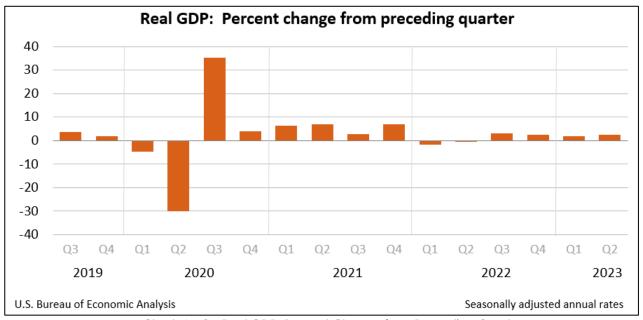

Chart No. 2 – Real GDP: Percent Change from Preceding Quarter (Source: <u>Gross Domestic Product, Second Quarter 2023 (Advance Estimate) | U.S. Bureau of Economic Analysis (BEA)</u>)

The Federal Open Market Committee's statement of the second quarter of 2023 revealed that economic activity has been expanding at a modest pace, job gains were robust, and inflation remained elevated. The U.S. banking system is sound and resilient. Tighter credit conditions for households and businesses are likely to weigh on economic activity, hiring, and inflation. The extent of these effects remains uncertain."²

¹ Gross Domestic Product, Second Quarter 2023 (Advance Estimate) | U.S. Bureau of Economic Analysis (BEA)

 $^{^2}$ Federal Reserve Board - Federal Reserve issues FOMC statement, July, 2023.

The unemployment rate continued to hold steady over the second quarter, although still below pre-pandemic levels. The unemployment rates for the last three months are as follows: April 2023 -3.4%; May 2023-3.7%; and June 2023-3.6%. Total nonfarm payroll increased, and employment continued to trend up in government, health care, social assistance, and construction. The unemployment rate for June (3.6%) changed little both over the month and over the year. ³

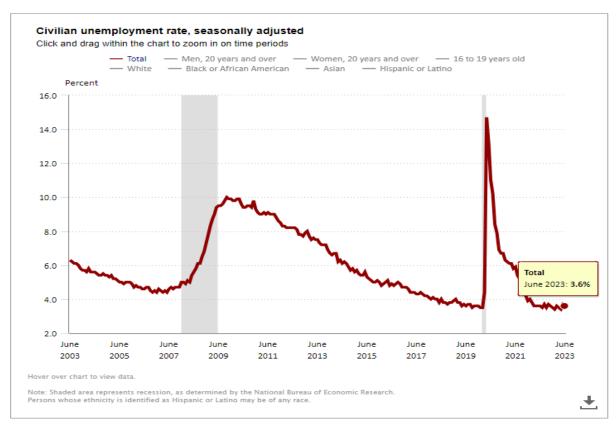

Chart No. 3 – Civilian Unemployment Rate, Seasonally Adjusted (Source: <u>Civilian unemployment rate (bls.gov)</u>)

³ <u>The Employment Situation – June 2023 (bls.gov)</u> Second Quarter FY 2023 Financial Report

Below is additional information on changes in employment by industry over the last month.

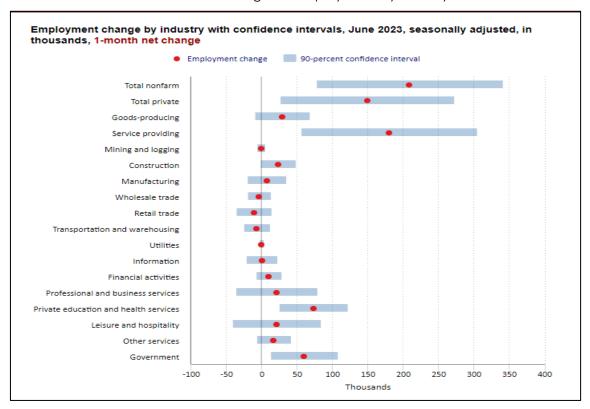

Chart No. 4 – Employment Change by Industry, 1-month (Source: Employment by industry, monthly changes, with confidence intervals (bls.gov))

One of the major measures of consumer assurance is the Conference Board's Compiled Index of Consumer Confidence. Three thousand households across the country are surveyed each month to determine consumer perceptions of current business and employment conditions, as well as their expectations for the upcoming six months. The level of consumer confidence is associated with anticipation about future developments in the economy and is used as an indicator of the likely general direction of consumer spending in the coming months. The Conference Board Consumer Confidence Index® increased in June to 109.7, up from May's 102.3 where it fell from April's 103.7. The Present Situation Index—based on consumers' assessment of current business and labor market conditions—increased in June to 155.3 from 148.9 in May. The Expectations Index—based on consumers' short-term outlook for income, business, and labor market conditions—rose to 79.3 from 71.5 in May. Expectations have remained below 80-the level associated with a recession within the next year-every month since February 2022, except for a brief uptick in December 2022. However, June's index was only slightly below 80 and up sharply from May's statement.

"Consumer confidence improved in June to its highest level since January 2022, reflecting improved current conditions and a pop in expectations. Greater confidence was most evident among consumers under age 35, and consumers earning incomes over \$35,000. Nonetheless, the expectations gauge continued to signal consumers anticipating a recession at some point over the next 6 to 12 months.

"Although the Expectations Index remained a hair below the threshold signaling recession ahead, a new measure found considerably fewer consumers now expect a recession in the next 12 months compared to May. Meanwhile, on a six-month moving average basis, plans to purchase autos and homes have slowed, after picking up earlier in 2023. This may reflect rising costs to finance big-ticket items as the Fed continues to raise interest rates. Meanwhile, vacation plans within the next six months continued to lag, led largely by declines in plans to travel domestically. This is an important indicator of desires to spend on services ahead, which may be a signal that post-pandemic 'revenge spending' on travel may have peaked and is likely to slow over the rest of this year."⁴

Consumer Confidence Index®

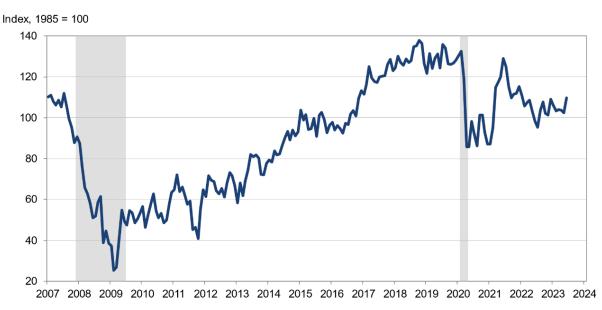

Chart No. 5 Consumer Confidence Index (Source: <u>US Consumer Confidence (conference-board.org)</u>)

A second measure of consumer attitudes from the University of Michigan, known as *The Sentiment Index* rose in June 2023, a consensus improvement across all demographic groups. The <u>University of Michigan Consumer Sentiment Index</u> (MCSI) reported "Consumer sentiment rose 9% this month, a consensus improvement across all demographic groups. The year-ahead economic outlook soared 28% over last month, and long-run expectations rose 11% as well. Overall, this striking upswing reflects a recovery in attitudes generated by the early-month resolution of the debt ceiling crisis, along with more positive feelings over softening inflation. Views of their own personal financial situation were unchanged, however, as persistent high prices and expenses continued to weigh on consumers.

"Year-ahead inflation expectations receded for the second consecutive month, falling to 3.3% in June from 4.2% in May. The current reading is the lowest since March 2021. Declines in short run inflation expectations were visible across age, income, and education groups. These declines reflect consumers' experiences and perceptions of prices across a variety of goods,

⁴ <u>US Consumer Confidence (conference-board.org)</u>, June 30, 2023

including durables, cars, and homes. Long-run inflation expectations were little changed from May at 3.0%, again staying within the narrow 2.9-3.1% range for 22 of the last 23 months. These expectations remained elevated relative to the 2.2-2.6% range seen in the two years prepandemic."⁵

The US Conference Board tracks ten different economic indicators to assess the health of the economy and to evaluate the direction of economic development in the near future. The cumulative product of these indicators is called the US Leading Economic Index (LEI), which increased steadily since early 2009, remaining at its historically highest level until 2020.

The Conference Board Leading Economic Index® (LEI) for the U.S. declined by 0.7% in June 2023 to 106.1 (2016=100), following a decline of 0.6% in May. The LEI is down 4.2% over the six-month period between December 2022 and June 2023, a steeper rate of decline than its 3.8% contraction over the previous six months (June to December 2022).

"The US LEI fell again in June, fueled by gloomier consumer expectations, weaker new orders, an increased number of initial claims for unemployment, and a reduction in housing construction. The Leading Index has been in decline for fifteen months—the longest streak of consecutive decreases since 2007-08, during the runup to the Great Recession. Taken together, June's data suggests economic activity will continue to decelerate in the months ahead. We forecast that the US economy is likely to be in recession from Q3 2023 to Q1 2024. Elevated prices, tighter monetary policy, harder-to-get credit, and reduced government spending are poised to dampen economic growth further." 6

Below market expectations, housing starts in the US decreased to 1434 thousand units in June from 1559 thousand units in May of 2023, which is a decline of 8% month-over-month to a seasonally adjusted annualized rate. "Single-family housing starts, which account for the bulk of homebuilding, dropped by 7% to 935 thousand and starts in buildings with five units or more went down by 11.6% to 482 thousand. Starts fell in the Northeast (-2.1% to 95 thousand), in the Midwest (-33.1% to 162 thousand), in the South (-4.4% to 838 thousand) and in the West (-1.2% to 339 thousand). Data for May 2023 was revised lower to 1.559 million from 1.631 million.⁷

⁷ <u>United States Housing Starts - June 2023 Data</u>Second Quarter FY 2023 Financial Report

The Consumer Price Index for All Urban Consumers (CPI-U) rose 0.2% in June on a seasonally adjusted basis, after increasing 0.1% in May, the U.S. Bureau of Labor Statistics reported. The "all items" index increased 3.0% for 12 months through June; this was the smallest 12-month increase since March 2021.

The index for shelter was the largest contributor to the monthly all items increase, accounting for 70% of the increase, with motor vehicle insurance being a major contributor as well. Food increased by 0.1% in June after increasing 0.2% in May. The index for food at home was unchanged; however, index for food away from home rose 0.4% in June. Over the last year, the food index has increased 5.7%.

The all items less food and energy index rose 0.2% in June, which is the smallest 1-month increase since August 2021. Over the last 12-months, this index has risen 4.8%. The energy index rose 0.6% in June as the major energy component indexes were mixed and decreased 16.7% for 12 months ending in June.⁸

State Economy

The Washington State Economic and Revenue June 2023 Update from the Washington Economic and Revenue Forecast Council had the following highlights:

- The Washington economy continues to recover, although high inflation threatens to slow economic growth.
- Washington employment growth in March, April, and May was more than expected in the March forecast. The Washington unemployment rate declined to 4.1% in May from 4.3% in April and 4.6% in February. The jobless rate remains slightly higher than the 3.9% reached in June 2022.
- Washington housing construction declined throughout 2022 but spiked early in 2023. The
 number of housing units authorized by building permits declined from 58,000 in the first
 quarter to 55,500 in the second quarter. Permits fell in April and May to 40,300 units on
 weaker multi-family activity.
- Seattle-area home prices increased for the first time since last May. According to the S&P/Case-Shiller Home Price Indices, seasonally adjusted Seattle home prices increased 0.6% in April following ten consecutive declines.
- Washington personal income increased from \$599.0 billion in the fourth quarter of 2022 to \$609.1 billion in the first quarter of 2023. The 6.9% increase in Washington personal income was the 18th highest among the states and District of Columbia and higher than the 5.1% rate increase for the U.S. as a whole.
- Seattle consumer price inflation outpaced the national average in the year ending June 2023. From June 2022 to June 2023, the seasonally adjusted Seattle CPI rose 4.6% compared to the 3.1% increase in the U.S. City Average index.

Local Economy

Prices in the Seattle area, as measured by the Consumer Price Index for All Urban Consumers (CPI-U), advanced 1.0% for the two months ending in June 2023. Per the U.S. Bureau of Labor Statistics, the June increase was influenced by higher prices for shelter. Over the last 12 months, the CPI-U advanced 4.6%. Food prices advanced 5.7%. Energy prices decreased 4.8%, largely the result of a decrease in the price of gasoline. The index for all items less food and energy increased 5.3%

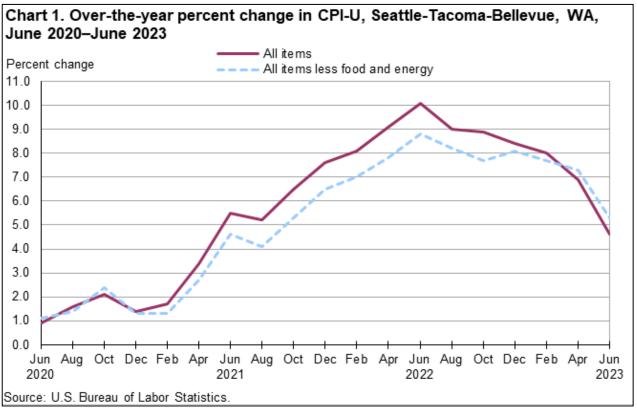

Chart. No 10 – Over-the-Year Percent Change in CPI-U, Seattle-Tacoma-Bellevue WA Source: Consumer Price Index, Seattle area —June 2023: Western Information Office: U.S. Bureau of Labor Statistics (bls.gov)

Second Quarter FY 2023 Financial Report
City of Vancouver

For the second quarter of 2023, Bureau of Labor Statistics estimated unemployment for Portland-Vancouver-Hillsboro MSA at 3.0%, lower than the Clark County rate of 3.2% and lower than the estimated unemployment rate of 3.82% for the state.

Below is a historical chart of the comparative monthly unemployment rate readings between the state of Washington, Clark County and the Portland-Metro area going back to 2019.

Chart No. 11 – Unemployment Rate (includes Clark County WA, Portland-Vancouver-Hillsboro MSA, WA State)
Source: Data provided by the Bureau of Labor Statistics

Home sales are cyclical, typically increasing in the second and third quarters of the year. The rally in U.S. home prices continued in May 2023 according to the S&P's Case- Shiller Home Price Index. "The National Composite rose by 1.2% in May, and now stands only 1.0% below its June 2022 peak. The 10- and 20-City Composites also rose in May each by 1.5%. The ongoing recovery in home prices is broadly based. Before seasonal adjustment, prices rose in all 20 cities in May (as they had also done in March and April). Seasonally adjusted data showed rising prices in 19 cities in May, repeating April's performance. (The outlier is Phoenix, down 0.1% in both months.) On a trailing 12-month basis, the National Composite is 0.5% below its May 2022 level, with the 10- and 20-City Composites also negative on a year-over-year basis.

"Home prices in the U.S. began to fall after June 2022, and May's data bolster the case that the final month of the decline was January 2023. Granted, the last four months' price gains could be truncated by increases in mortgage rates or by general economic weakness. But the breadth and strength of May's report are consistent with an optimistic view of future months." 10

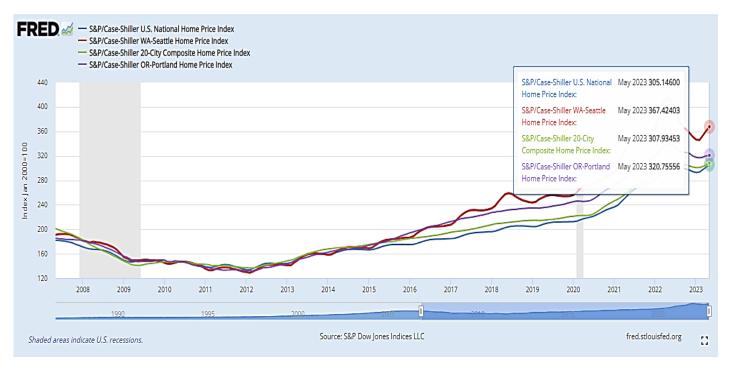

Chart No. 12 S& P Case-Schiller Home Price Index (includes National, WA-Seattle, 20-city composite, OR-Portland Source: <u>S&P/Case-Shiller U.S. National Home Price Index (CSUSHPINSA) | FRED | St. Louis Fed (stlouisfed.org)</u>

The median home value in Vancouver, WA was estimated to be \$494 thousand down 1.7% over the past year, but up from May's \$488 thousand. Vancouver home values have been on a declining trend. Clark County home values came in slightly higher at \$529 thousand with a decline of 1.6% over the last year. 11 Vancouver is currently a seller's market, indicating that there are more potential buyers than available homes. The lack of inventory has been impacted by homeowners who locked into a previously low mortgage rate being content to remain in their current homes. 12.

(Source: <u>Vancouver WA Home Prices & Home Values | Zillow</u>

New residential construction increased in the second quarter of 2023, but the level is still lower when compared to the same quarter over the last five years. There were 34 single family residential projects permitted with valuation of approximately \$8.50 million.

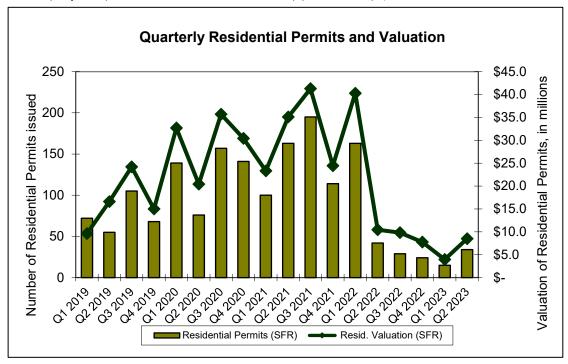

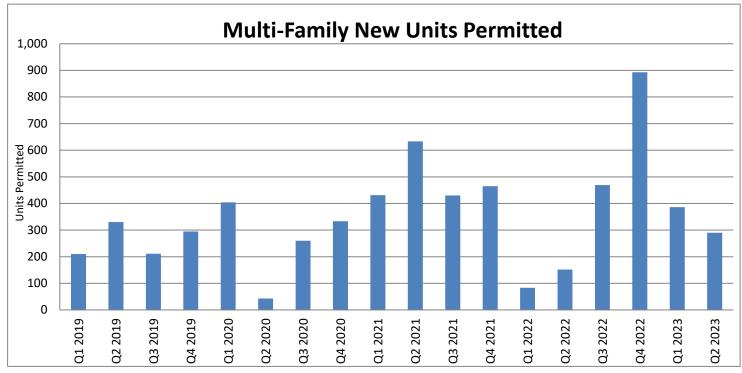

Chart No. 14 – Quarterly Residential Permits and Valuation

The number of multi-family residential units permitted in the city during the second quarter dropped down to 290 from the first quarter's 386, which is just above average since 2019.

Chart No. 16 – Commercial Permits and Valuation

Data provided by the Community and Economic Development Department, City of Vancouver.

III. Financial Results

General Fund

REVENUES

City of Vancouver General Fund revenues through June 2023 totaled \$123.59 million, or 52% of the forecast for the year, slightly over the forecasted amount. As expected, property and sales taxes both came in higher compared to the same period as last year, due to the passing of Proposition 2 (property tax levy to support fire and emergency services) and Proposition 11 (Clark County's sales tax levy to support public safety). Tax revenues were approximately \$15.3 million higher than comparable revenues from 2022. Property tax revenues came in higher during the first half of 2023 than in 2022, making up the largest portion of the increase in tax revenues, compared to last year's.

Through June 2023, planning fees came in higher (\$921.5 thousand) than those received in 2022 (\$721.2 thousand). Recreation fees are higher as well, when compared to the same period last year: 2023 - \$2.2 million; 2022 - \$1.6 million, reflecting the normalization of recreation activities post-pandemic.

The second quarter sales tax revenue totaled \$31.9, which is approximately \$1.5 million higher than the comparable sales tax revenue from 2022. Utility taxes came in higher than those over the same period last year as well.

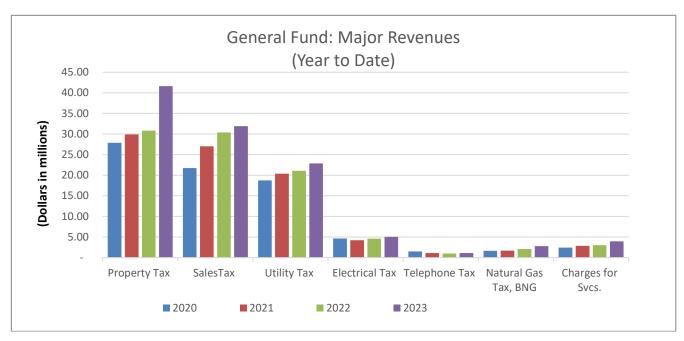

Chart No. 17 General Fund: Major Revenues, June 30, 2023

Note: Utility tax revenue above includes the tax on Solid Waste; Charges for Services exclude the Business License revenue

Property Tax

- Property tax revenues are typically received during the second and fourth quarters of the year. The amount of revenue is based on the assessed valuation and is estimated using County Assessor's data. Deviations from estimates in this revenue source are mostly related to the amount of new construction and delinquency rates.
- The total City of Vancouver levy rate is \$2.06 per \$1,000 of assessed value, which was applied to a total taxable value of approximately \$29.1 billion. The General Fund collects \$1.85 per \$1,000 in assessed value of the total levy. An additional \$0.21 levy was approved by voters in November of 2016 for the Affordable Housing Fund. The new levy is generating \$6.0 million per year to be dedicated to increasing the number of affordable housing units in the city.
- In February 2022, voters approved Proposition 2 to increase the City's regular property tax to support fire and emergency services. The property tax forecast for this specific levy alone estimated an additional \$17.1 million in revenues for 2023.
- A total of \$41.6 million in general fund property taxes (excluding the Affordable Housing Levy) was collected through June 2023, compared to \$30.8 million collected over the same period in 2022. The \$41.6 million received is 8% above the forecasted amount.

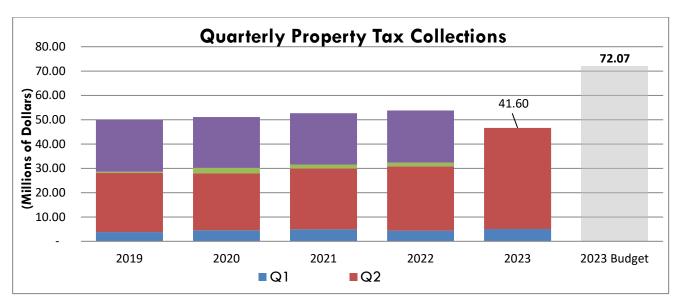

Chart No. 18 Quarterly Property Tax Collections

Note: The dollar amounts above represent the General Fund collections of Property Tax. These have not been adjusted for inflation

Sales Tax

• The new sales tax rate for Vancouver is 8.7% with the addition of Clark County's Proposition 11 and the increase for the Transportation Benefit District. The sales tax rate in the incorporated area is distributed as follows: 6.5% to the State, 0.5% for the City's "basic" sales tax, 0.3% for the City's "optional" sales tax, 0.2% for the City restricted to funding Public

- Safety, 0.1% City sales tax for affordable housing, the County's additional optional 0.1% for Law and Justice, 0.1% for addressing the region's methamphetamine drug addiction and related crime, 0.7% for C-TRAN, plus the new additions of 0.1% for the Transportation Benefit District and 0.1% for the County's Proposition 11 passed by voters to support public safety.
- Sales tax revenue collected through the second quarter of 2023 totaled \$31.9 million and represents a 5% increase, or \$1.5 million more than comparable collections during 2022; however, these numbers are slightly below the forecasted amount. The expected additional revenue from Clark County's Proposition 11 was estimated at \$4 million for 2023. The growth in retail sales has been on a declining trend. Retail sales have been strongly influenced by the increased internet sales tax and robust construction activity in the city over the last few years. Beginning in 2021, sales tax revenue became the City's highest tax revenue source, exceeding property taxes; however, the trend has discontinued with the passing of Proposition 2.
- As mentioned, Council supported the increase in sales tax by 0.1% to support the Transportation Benefit District (TBD). Sales tax revenue collected to support the TBD is collected in its own fund (outside of the general fund) to support that district. For 2023, the total forecasted revenue is \$9.9 million, with \$4.4 million of the total attributed to the sales tax increase. Through June 2023, sales tax collections were \$3.2 million (18% lower than the anticipated amount).
- Growth in taxable retail sales reflects a stabilizing real estate market, new construction, discretionary spending, and the increase in sales tax percentages.

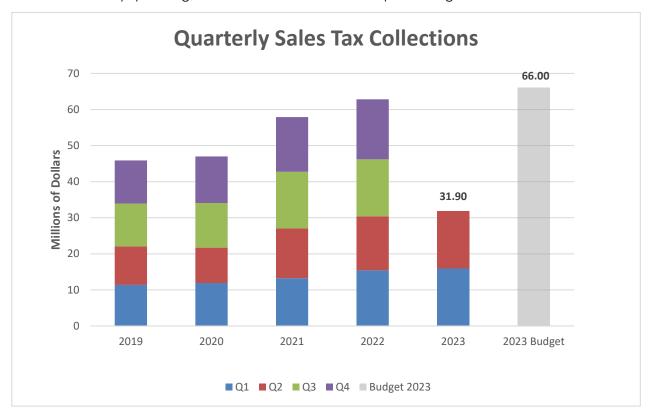

Chart No. 19 – Quarterly Sales Tax Collection

Taxes on Privately Owned Utilities

Vancouver collects a 6.0% utility tax on electrical, natural gas, and telephone services provided within the incorporated area by entities other than the City. The City also charges cable franchise fees.

- The tax on privately owned utilities generated \$32.7 million through June of 2023, approximately \$3.0 million higher than revenue that was received during the same period of 2022, mostly in the tax on utility and natural gas.
- Natural gas tax revenues totaled \$2.8 million, approximately \$706 thousand higher than the collections for the same quarter last year. The increase in revenues is due to an early payment of collections, as well as increased activity in use.
- Telephone tax revenues totaled \$1.1 million through June 2023, \$114 thousand higher than 2022 revenues for the same collection period, but 2% less than forecasted. Telephone tax has been on a declining trend over the last several years.
- A total of \$5.0 million was collected in Electrical tax revenue, approximately \$426 thousand higher than the comparable 2022 collections for the same time-period.
- The Cable Franchise Fees revenue for the second quarter of 2023 was \$926 thousand, comparable to \$969 thousand that was collected in 2022 through June.

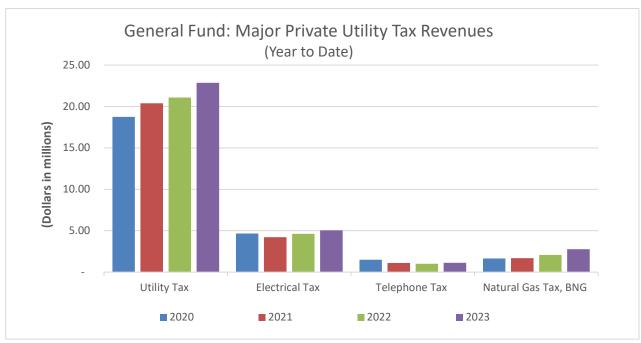

Chart No. 20 – General Fund: Major Private Utility Tax Revenues, June 2023

Water, Sewer, Storm Water and Solid Waste Taxes

Revenue funding City-owned utilities has increased over the years due to a growing customer base as well as the underlying rate increases. The underlying water, sewer, and drainage utility rates have had increases annually in recent years to keep up with inflation and the needs of the outdated infrastructure. The rates were also increased to accommodate the additional utility tax for streets and police. For 2023, the utility rates were increased by a blended 6% annual rate to incorporate inflationary cost increases and an increased capital program.

A total of \$22.9 million in City-owned utilities taxes was collected through June of 2023, compared to \$21.1 million collected during the comparable interval of 2022. The makeup of revenues between residential and commercial/industrial has remained fairly stable over the years, with residential being the primary contributor to the revenues.

The chart below shows quarterly collections in City-owned utility tax revenues over the last several years.

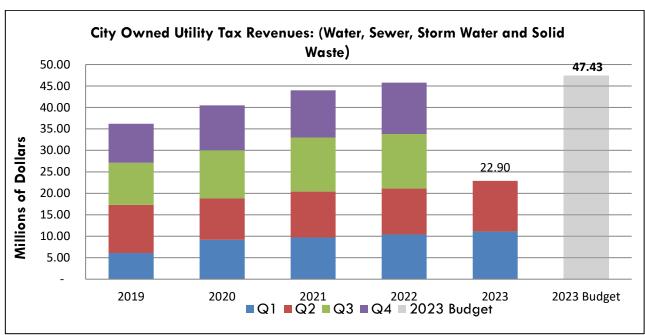

Chart No. 21 - City-Owned Tax Revenues: (Water, Sewer, Storm Water and Solid Waste)

Grant & Entitlement Revenues

Though June 2023, the City received approximately \$370 thousand in grant reimbursements to the General Fund, compared to the budgeted amount of \$1.9 million to be received through year-end. Of the \$1.9 million, \$1.0 million is expected for the Police Vancouver Camera Project, \$225 thousand is expected for Safe Stay improvements, and \$682 thousand is expected for Community Development projects, such as Commute Trip Reduction, Safe Routes to School, and Transportation Demand Management. Typically, grants reimburse based on actual spending and the revenues catch up to budget closer to the end of the year.

Charges for Goods and Services

The City's largest fee-revenue generating programs are the Development Review Services and Recreation. Planning revenue through June of 2023 was \$922 thousand, which is approximately \$200 thousand more than the revenues collected in a comparable period of 2022. The City's recreation center revenues continue to normalize after the pandemic. For the second quarter of 2023, the City generated \$2.2 million in revenues compared to \$1.6 million that was collected in the first half of 2022. The annual amount forecasted for 2023 was \$3.3 million; the City is at 67% of the forecasted amount.

Land Use and Other Planning Permits

From 2008 through 2010, the City experienced a significant decrease in both the number of single-family residential permits issued and in their valuation. Data from 2014 through 2021 indicated a trend of significant annual increases in development activity and the resulting land use fees. Revenues through June 2023 were \$922 thousand, which is approximately \$200 thousand more than the comparable 2022 revenue, but 5% under the forecasted amount. The estimate (reliance) for 2023 went up significantly compared to 2022, so there will likely be a shortfall unless the third and fourth quarter perform well.

Recreation Program Fees

The City's recreation fees totaled \$2.2 million through June of 2023, \$615 thousand higher than those received during the comparable period of 2022, and above projections for the year. This is 17% higher than the forecasted amount. If the trend continues, recreation program fees may come in approximately \$1.1 million higher than forecasted.

EXPENDITURES

General Fund expenditures through June 2023 totaled \$254.4 million, or 44% of the year's budget. Expenditures were approximately \$26.7 million higher than those through June of 2022.

By the end of June, departments within the General Fund spent \$66.8 million, or 48% of 2023's budget, and approximately \$22.6 million more than was spent through June of 2022. Salaries and benefits are higher than the previous years, as were supplies and services.

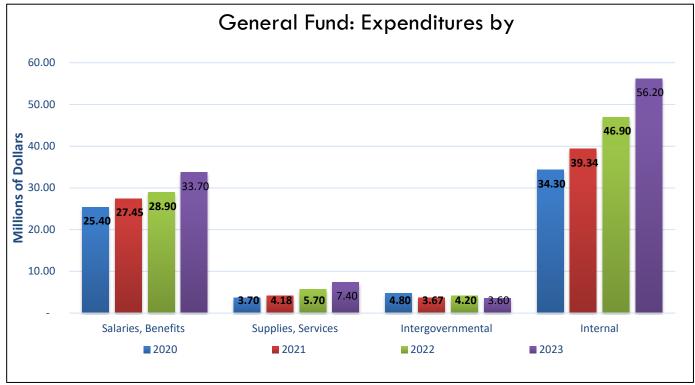

Chart No. 22 – General Fund: Expenditures by Category

General Fund salaries and benefits expenditures totaled \$33.7 million through June, higher than those in 2022 by approximately \$4.8 million, mostly due to the cost of living increases in 2023. Several contracts are still being finalized, with the retroactive increases anticipated to take place in Summer of 2023.

General Fund supplies and services category expenditures were \$7.4 million through June 2023, approximately \$1.7 million above those in 2022. Significant professional services and supply budget was carried forward into 2023 due to the timing delays in expenditures and supply chain issues.

Intergovernmental expenditures include payments by the City to other jurisdictions based on inter-local agreements. Intergovernmental expenditures reached \$3.6 million through June. This category, beginning with 2019, excludes support to Fire, Street, and other funds.

Internal expenditures include transfers between City funds. For example, General Fund's support of Fire, Street, CVTV, and other funds, as well as cost of internal services, such as Grounds and Facilities Maintenance, Finance, HR, IT, Risk, and Equipment Services. Interfund transfers were previously included with Intergovernmental expenditures. Interfund expenses through the second quarter, were at \$56.2 million, or 42.2% of this year's budget, mostly due to the timing of transfers of supporting funding to the Affordable Housing, Debt Service, Facilities, and Capital Improvement Funds.

Cash Balance

- The General Fund operating cash balance was \$102 million at the end of June 2023. The balance was \$10 million less than the cash balance at the end of June 2022.
- In addition to the operating cash balance, the General Fund had an emergency reserve totaling \$16.2 million at the end of June 2023, compared to \$15.5 million at the end of June 2022. The Council updated the emergency reserve balance financial policy in 2012, requiring that the emergency reserve balance equals 7.0% of actual external revenues in the preceding fiscal year for the General, Street, and Fire Funds. These funds are intended to be used only for extraordinary events, such as natural disasters.

Fund Balance

- The cash balance represents a snapshot at a particular point in time, while the fund balance factors in revenues and expenditures that are anticipated to occur by the end of the year, as well as the accounting entries that have no bearing on cash.
- The total fund balance in the General Fund at the end of 2022 was at \$111.0 million, below the 2021 ending balance of \$124.9 million, according to the City's audited financial statements. The balance is composed of the Non-spendable (\$0.5 million), Restricted, Committed, Assigned, and Unassigned balances. The Restricted balance of \$0.1 million represents grant revenue received in advance of expenditures in the police department. The Committed balance of \$20.2 million represents reserves in accordance with the City Financial Policies, including the City Emergency reserve of \$15.7 million and the Revenue Stabilization reserve of \$4.4 million. The Assigned balance represents the Columbia Arts Center capital reserve of \$0.9 million.
- The balance pays for the ongoing operations of the General Fund when incoming seasonal revenues are not sufficient to cover expenses. It further eliminates the need for short-term borrowing. The Unassigned balance contains \$43.5 of Working Capital to ensure sufficient cash flow in the fund; approximately \$5.7 million in compensated balances. The remaining portion of the balance was determined to be undesignated at the end of 2022.

Street and Street Initiatives Funds

- Combined expenditures in the Street and Street Initiatives Funds through June 2023 were \$11.3 million, about a \$1.2 million higher than comparable time last year and significantly below the budget of \$50.2 million for the year. Construction expenditures are cyclical in nature and generally, timed between April and October of the year.
- Revenues in the combined Street and Street initiatives funds through June totaled \$16.9 million. Beginning in 2018, REET revenue is being received by the Operating Street Initiatives Fund (Fund 103) to better match the consolidated Pavement Management Program, which was moved to the same fund for the ease of operations.
- Motor Vehicle Fuel Tax (MVFT) revenues totaled \$2.2 million through June, slightly higher
 than those in 2022. This revenue source is a set tax per gallon that does not depend on the
 price of gasoline. The significant nation-wide increase in gasoline prices over the past two
 years has resulted in declining gasoline consumption.
- Below is a pictorial representation of the Street fund's expenditures, revenues, and fund balance, and that of the Street Initiatives fund. The Street Initiatives fund primarily represents an increased level of street programming resulting from new revenues specifically increased for that purpose. The spend down of the existing resources in 2022 was planned, as those were accumulated for funding construction costs of major street projects. The only exception to this is the Pavement Management program. The existing program was consolidated into the Street Initiatives fund with accompanying funding for the Real Estate Excise Tax and the General fund to ease the administration of program management. Additional information about the Street Initiatives program and funding is outlined below.

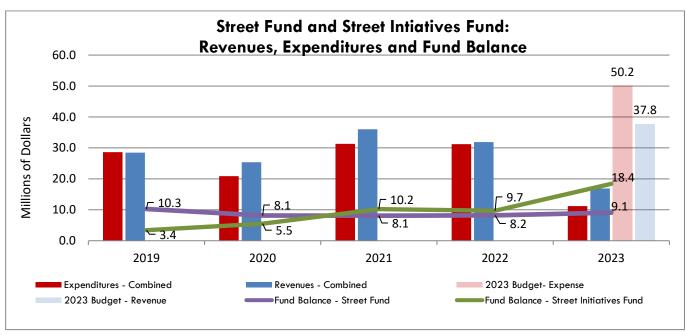

Chart No. 23 – Street Fund and Street Initiatives Fund: Revenues, Expenditures, and projected Fund Balance

• During 2015, a six-month extensive public process took place to determine the desired level of services in the city street and right-of-way maintenance program. It also decided whether additional resources would be most appropriate to fund any desired enhancements in the service level. The recommendations prepared by the Commission were accepted and acted upon by City Council, resulting in new/increased revenues being directed to Streets to fund the desired operating and capital outcomes. The ultimate anticipated results of this initiative are, among other things, an improvement in the condition of City streets from the current "fair" to "good" over a period of twenty years, reconstruction of a major arterial every two years, and improved maintenance of right-of-way.

Following is a link to the specific set of recommendations:

http://www.cityofvancouver.us/sites/default/files/fileattachments/public_works/page/12554/streets_funding_commission_recommendation_final.pdf

Real Estate Excise Tax (REET)

- A Real Estate Excise Tax (REET) of one-quarter of 1.0% of the selling price is imposed on
 each sale of real property in the corporate limits of the City. In the past, this tax was
 deposited into the Street Fund. Beginning in 2018, it has been deposited into the Street
 Initiative fund and is restricted to financing preservation of the City's Street system. The City
 also collects an additional one-quarter of 1.0% of the selling price in REET for Parks and
 Transportation capital.
- REET revenue has been fairly volatile and closely linked to the economy. The revenue has
 increased rapidly in 2019 through most of 2022, surpassing historical highs in this revenue
 source. The real estate activity began to slow in late 2022 and that trend is anticipated to
 continue through 2023 due to higher mortgage rates and their anticipated influence on
 the real estate sector.
- A total of \$1.86 million in REET revenue was received through June 2023, compared to \$4.08 million received in 2022 through the same quarter. Collections during 2022 represent the highest amount of revenue ever collected in REET. The graph below demonstrates the fluctuations in REET collections since 2019. The real estate prices in Vancouver decreased by approximately 1.7% over the last year.

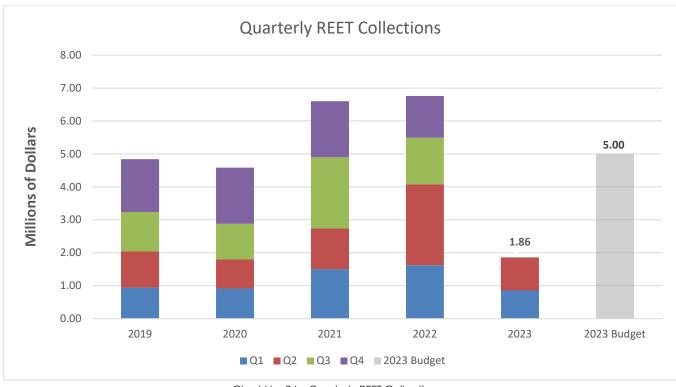

Chart No. 24 – Quarterly REET Collections

Consolidated Fire Fund

The City has an Operating Fire Fund and a Capital Fire Fund. The Capital Fire Fund contains budget and cash for vehicle replacements and purchases. The Operating Fire Fund fully supports the Capital Fire Fund. The graph below represents the Operating Fire Fund's financial information.

Operating Fire Fund revenues through June 2023 totaled \$37.6 million and mostly consist of permit and plan review revenues for services. The remaining funding of \$28.5 million came from the General Fund. Total Fire operating expenditures through June were \$31.8 million, \$6.4 million higher than those in 2022 through the same quarter due to a large number of new positions funded by the Proposition 2, as well as opening of the new Fire Station 11.

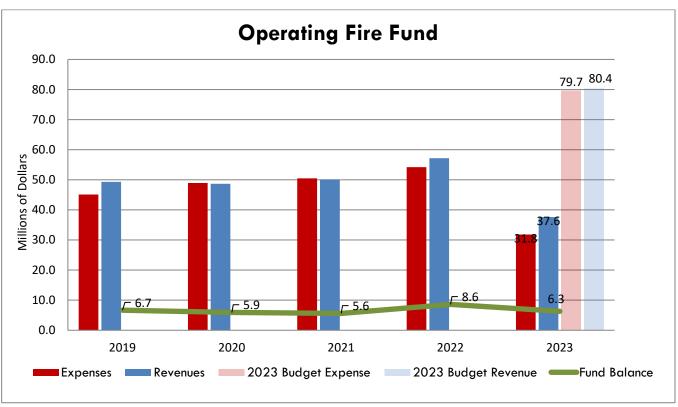

Chart No. 25 - Operating Fire Fund

Building Inspection Fund

- Building review and inspection fee revenues received through this June 2023 totaled \$4.3 million, which is \$815 thousand less than those received through the same quarter of 2022.
- Building Fund expenditures through June totaled \$3.5 million, which is \$566 thousand more than those through quarter two of 2022.

The fund balance in the Building Fund targets funding for 18 months of permitting activity after revenue is collected and the replacement cost of the Infor and other software systems to ensure sufficient funding exists at the end of their useful lives. Fees and valuation tables were increased to start building the fund's balance, which has continuously declined over several prior years.

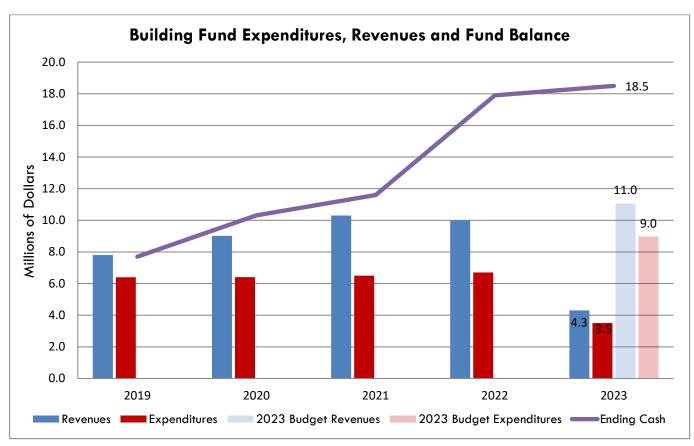

Chart No. 26 - Building Fund Expenditures, Revenues and Fund Balance

Parkina Fund

 Parking revenues through June 2023 totaled \$2.7 million, compared to \$2.3 million received over the same period of time in 2022, without accounting for revenue from the sale of one of the parking structures. Expenditures in the fund totaled \$1.1 million which is \$156 thousand less than the same period of 2022. The parking fund is no longer supported by the General Fund.

Utility Operations

Operating transfers between the Water, Sewer and Storm Water funds are included in the accompanying **Attachment A**, per budget requirements. These transfers are generally eliminated when quarterly financial statements are prepared. Please call (360) 487-8441 to receive a copy of the detailed financial statements for the Utility Funds.

<u>Water</u>

• Water sale revenues totaled \$20.9 million through June 2023, compared to \$18.6 million received during the comparable period of 2022. Water utility rates were increased by 4.5% for 2023 to incorporate inflationary cost increases and an increased capital program. An additional \$5.1 million was collected from other utility and internal services funds through the internal allocation of expenses and miscellaneous payments.

• Water fund expenditures totaled \$20.4 million, 31% of the budget. Expenditures in 2022 were \$2.6 million less through the same quarter.

Sewer

- Sewer utility rates were increased by 6% for 2023 to incorporate inflationary cost increases and the increased capital plan. Fee revenues in the Sewer Fund were \$28.5 million through June 2023, approximately \$1.5 million higher than those in 2022 and right on target with the forecast.
- Sewer expenditures through June 2023 totaled \$16.4 million, approximately \$2.7 million below those through the same quarter in 2022.

Storm Water

- A total of \$11.9 million in Storm Water fee revenue was received through June 2023, approximately \$861 thousand higher than comparable 2022 revenues, but 1% lower than the forecasted amount. Surface water rates were increased by 8% for 2023.
- Overall, the expenditures in the Storm Water fund were \$13.2 million through June 2023, approximately \$3.2 million higher than those through June 2022. The main contributor to the higher amount was a \$2.2 million transfer to the Storm Water Capital Fund to support Stormwater Capital projects, including the Fruit Valley Road stormwater project.

Internal Service Funds

Equipment Services Operating and Capital Funds

A total of \$4.1 million was spent by Equipment Services on operating activities through June 2023, approximately 46% of the budget for the year. The ER&R Capital fund spent \$2.6 million, approximately 22% of the annual vehicle replacement budget. The vehicle purchase scheduling has been impacted by the supply chain issues resulting from the pandemic and the resulting vehicle availability.

Internal Administrative Services Fund

• A total of \$12.9 million was spent by Human Resources, Finance, Information Technology and Civil Legal through June 2023, approximately \$2.7 million higher than the comparable period in 2022, but still under budget by approximately 8%.

Risk Fund

• Approximately \$3.4 million was spent through June 2023, which was \$176 thousand below the comparable 2022 expenditures and approximately 8% under budget.

Benefits and Self-Insured Health Insurance Funds

• A total of \$12.8 million was spent on benefits, including health insurance, through June 2023, which is \$1.6 million more than comparable 2022 expenditures, but still under budget. The Benefits Fund and Self-Insured Health Insurance Fund ended the quarter at approximately 42% and 47% spent respectively.

IV. Outstanding Debt

At the end of the second quarter of 2023, the City had around \$41 million of general obligation (G.O.) debt outstanding. General obligation debt is backed by the full faith and credit of the City and by general taxes. The weighted-average interest rate for the City's general obligation debt is 1.96%.

A complete list of the City's outstanding debt is included in **Attachment C**.

V. Investments

Market Conditions

- Economic activity expanded at a modest pace in the second quarter. Job gains have been robust in recent months, and the unemployment rate has remained low. Inflation has remained high.
- The U.S. banking system is sound and resilient. Tighter credit conditions for households and businesses are likely to weigh on economic activity, hiring, and inflation. The extent of these effects remains uncertain. The Committee remains highly attentive to inflation risks.
- The Committee seeks to achieve maximum employment and inflation at the rate of 2% over the longer run. In support of these goals, the Committee decided to maintain the target range for the federal funds rate at 5 to 5.25%. Holding the target range steady at this meeting allows the Committee to assess additional information and its implications for monetary policy. In determining the extent of additional policy firming that may be appropriate to return inflation to 2% over time, the Committee will consider the cumulative tightening of monetary policy, the lags with which monetary policy affects economic activity and inflation, and economic and financial developments. In addition, the Committee will continue reducing its holdings of Treasury securities and agency debt and agency mortgage-backed securities, as described in its previously announced plans. The Committee is strongly committed to returning inflation to its 2% objective.

• In assessing the appropriate stance of monetary policy, the Committee will continue to monitor the implications of incoming information for the economic outlook. The Committee would be prepared to adjust the stance of monetary policy as appropriate if risks emerge that could impede the attainment of the Committee's goals. The Committee's assessments will consider a wide range of information, including readings on labor market conditions, inflation pressures and inflation expectations, and financial and international developments.

Chart No. 27 – U.S. Treasury Activities Curve

Investment Performance

The average amount invested in June 2023 was \$658 million compared to \$584 million on June 2022. The portfolio had a weighted average yield of 2.27% year-to-date, which is a 183-basis point difference than the projected annual yield of 4.10% for 2023. The projected yield is based upon the blended yield between existing rates and expected market rates when new investments are purchased during the year. The year-to-date yield was 257 bps lower than that of the State Investment Pool, which had an average yield of 4.84%. The State Pool had a weighted average maturity of 14 days. The City's investment portfolio weighted average maturity was approximately nine months. Longer-term portfolio yields will underperform shorter-term portfolio yields in a rising interest rate environment. Interest revenue distributed through the end of June 2023 to all funds is approximately \$7.1 million compared to \$2.5 million during the same period of 2022. This is a gain of over \$4.6 million.

The City's investment portfolio profile is detailed in **Attachment D**.

VI. Interfund Loans

In 2003, Council passed an ordinance giving the City Treasurer the authority to make interfund loans to meet the short-term liquidity and cash flow needs of the City's various funds. The ordinance requires the City Treasurer to provide a quarterly report to City Council showing the amount of all interfund loans outstanding and the repayment plan for those loans. During 2023 there was one Interfund loan with an outstanding balance at the end of June 2023.

City Manager's Budget Progress Report

Q1 & Q2 - 2023

Budget Policy Priorities

Exceptional Public Places and Spaces

Budget Package Description

Status

Accomplishments Summary

Policy Priority: Reduce Carbon Footprint Solar Panel Installation See Capital Report

Support Climate Action Framework Add one FTE to City Manager's office and provide funding for consulting services to implement aspects of the Climate Action Framework including Green building code.

In Progress

Associate Climate Project Coordinator hired. Request for Proposal for consultant underway.

Charging Infrastructure for Electric Vehicles

See Capital Report See Capital Report

City Facilities Climate Resiliency Upgrades

Transportation Demand Management

Policy Priority: Grow Economic Opportunity

| Vancouver Innovation Center: Park | See Capital Report |
|-----------------------------------|--------------------|
| Community Arts Facility | See Capital Report |
| Fourth Plain Community Commons | See Capital Report |
| | |

| Add 1 FTE to Planning | Complete |
|---------------------------|-------------|
| Parking Demand Management | In Progress |

Transportation Demand Management Coordinator hired. Increased funding and participants of Commute Trip Reduction program.

In Progress Add 1 FTE to Parking

Parking District Manager hired. Parking Demand Manager position ready for recruitment.

Business License surcharge Implement Business License surcharge as per Council policy.

Complete

Began collecting the new revenue in April, not appropriated.

Library Square Project

Complete/ **Next Phase**

Property adjacent to library acquired.

Main Street Promise Replace sewer mains, fund street improvements and provide for professional services to support planning and analysis of

design work.

See ARPA Report

Completion of 30% Design Plans. Creation of 15-member Project Advisory Group (PAG). Facilitation of two PAG meetings to help guide design. Completion of Open House #2. Advancement to 60% Design Plans. Multiple public outreach/involvement and business engagement efforts.

Add Staff to Support Economic Prosperity & Housing

Three FTE for targeted urban redevelopment areas, small business assistance and implementation efforts

Project Not Initiated

One position budgeted for this year. Two for 2024.

Policy Priority: Improve Community Safety and Wellbeing

| | | shirty solety and trenocing |
|--|----------------------------------|---|
| Police Camera Program Implementation | Complete/ Next Phase | Phase 1 complete. All patrol and non-patrol staff issued body cameras. Next phase (vehicle cameras) delayed until Q4 due to supply chain issues related to materials. |
| Police Training & Headquarters Facility | | See Capital Report |
| Police Recruiting 3 new police officer positions funded by Clark County Sales Tax Proposition 11 | Significant Progress | Authorized strength (approved sworn positions) of 242 positions. As of Q2, 225 filled, 17 vacant. Goal to be fully staffed by end of year; nearly to goal by mid-year. |
| Computer Support Specialist 1 FTE to support additional staff added by Proposition 2 Levy | Project Not Initiated | Proposed to hire in 2024. |
| Proposition 2: Support for Vancouver Fire Department 43 new FTEs for fire suppression | In Progress | A Fire Academy held in Q2 resulted in 17 new recruits. Additional Fire Academy scheduled for Q3 to fill 28 to 30 positions created by Proposition 2. The department simultaneously continues to recruit and fill for vacancies due to attrition. |
| Proposition 2: Support for Vancouver Fire Department Funded new fire vehicles | In Progress | Three paramedic squads (truck with specialized equipment for fire and EMS response) delivered, outfitted and ready for service. One ladder truck ordered and in the production queue with the manufacturer. |
| Proposition 2: Support for Vancouver Fire Department Add three FTE to Fire Administrative Support | In Progress | Logistical Materials Coordinator and a Support Specialist 2 hired, Management Analyst yet to be filled. |
| Fire Station 8 Design/Remodel Remodel project to accommodate addition of Truck Company. | In Progress | Design to begin in Q1 2024. Construction proposed for 2025/2026 budget. |
| Fire Station 5 Logistics Warehouse | | See Capital Report |
| Community Development Building Safety Add 2 FTE building inspectors to meet increasing needs of building inspection work. | In Progress | Hired an electrical inspector. Current vacancies for two Building Inspectors and one Electrical Inspector. The department continues to simultaneously recruit and fill for vacancies due to attrition. |
| Rapidly Increase Shelter Capacity Safe Stay Community 3 | Slow Progress | Project 8 months behind anticipated schedule. Required to go through full bid process. Project out for bid as of July and is estimated to close mid-August. |
| Rapidly Increase Shelter Capacity Safe Stay Community 4 (AH Local Sales tax fund) | In Progress | Community outreach and Council approval of fourth Safe Stay location is complete. Finalizing details of lease for property. |
| Rapidly Increase Shelter Capacity Safe Stay Community 5 (AH Local Sales tax fund) | In Progress | Researching viable locations for fifth site. |
| Operations/Support: Safe Stay and Safe Park sites Contracted services to operate Safe Stay sites. | In Progress | Two Safe Stay Communities and one Safe Park were in operation throughout Q1 and Q2. |
| Add one Homeless Outreach Specialist (FTE) to City Manager's Office Additional HART Outreach Worker to assist the growing number of people experiencing unsheltered homelessness. | Complete and/or Next Phase | Hired Homeless Outreach Specialist in Q2. |
| Safe Park Sites Add one Safe Park site for a total of two within city limits. | In Progress | Researching viable locations for second site. |
| Vancouver Moves (Transportation System Plan) A Transportation System Plan Update is required for eligibility to receive multi-million dollar Federal Transportation Grants. Provides policy for the City's transportation system over 20 years, including for vehicles, freight, transit, bicycle and pedestrian travel. | In Progress | As defined in the chartering process, advanced policies and programs, modal networks, pedestrian crossing policy, performance measures and funding recommendations associated with plan. |
| Complete Streets Provide funding for Evaluation of McLoughlin and Columbia Streets. | In Progress | Collected data including speed, volume and crashes on McLoughlin and Columbia Streets. Administered intercept surveys to mobility lane users and online surveys to adjacent residents and business owners. McLoughlin evaluation complete and presented to Council. |

| Budget Package Description | Status | Accomplishments Summary |
|---|-------------|---|
| Complete Streets Program planning for McGillivray, 33 rd /29 th Streets, St Johns/St James up to 30% design. | In Progress | McGillivray Project: Developed options for different reconfigurations and shared with public for feedback. St. Johns/St. James project is in procurement process, negotiating scope with consultant. $33^{rd}/29^{th}$ Streets project has not started. |
| Complete Streets | | See Capital Report |
| PW Operations Center Campus Development | | See Capital Report |
| New Playground Equipment | | See Capital Report |
| Support for Community Events Add a full-time Special Events Coordinator position to support growing demand for special events. | Complete | Recruitment for Special Events Coordinator successful and filled as of end of Q2. |
| Support for Development of Parks Add a new Park Developer to support parks and trails, particularly the establishment of an ongoing Trails program. | In Progress | Recruitment for Landscape Architect underway. |
| Parks on-going funds to develop city-wide trail program and improve connectivity | | See Capital Report |

| Policy Priority: Improve Equity and Inclusion | | | |
|--|----------------------------------|--|--|
| Conduct a Disparity Study Hire a consultant to conduct comparable studies of discrimination and disparities in contracting and procurement. | In Progress | RFP and selection of consultant complete. Project to analyze Women & Minority Business Enterprises in City contracts to commence during third quarter. | |
| Fourth Plain District Community Supported Investment Strategy for the Fourth Plain Corridor and adjacent neighborhoods. | Complete | Phase 1 Community Engagement Complete. Input received from over 700 businesses and residents through mailer, canvassing, neighborhood meetings, tabling at events. Investment Strategy Committee formed. | |
| Comprehensive Plan Professional services support for the update of the City's 20-Year Comprehensive Plan (Our Vancouver) providing long-term policy direction for managing the built and natural environment in Vancouver. | In Progress | Official project kickoff. Recruitment and onboarding of resident committee to co-create plan with staff. Equity Framework developed to guide key technical and administrative decisions. Substantial completion of existing conditions report. Finalized Public Involvement Plan, launched BeHeard page and other outreach/engagement efforts and materials. | |
| Expand the Office of Diversity, Equity and Inclusion Add personnel to support department-centric inclusionary and equity employee experience, recruiting, and organizational development. | Complete and/or Next Phase | Position filled as of April 2023. Expanded content in the Equity and Inclusion Professional Development catalog offered to employees. First cohort of JEDI Fellowship started. Employee Resource Groups kicked off. Launched the Summer of Neighborly Inclusion program—first public-facing equity and inclusion program. | |
| Add Staff Capacity for Outreach Add 1 FTE to Procurement for outreach to MWDBE businesses | Project not Initiated | Estimated to fill position later this year. | |

Capital Report Q1 & Q2 — 2023

| Project Name | Status | Performance Summary | Related |
|---|----------------------|---|---------|
| Solar Panel Installation | Not Started | In conversations with Clark PUD to partner on a county wide solar effort, which may be a more effective way of using City funds. | Policy |
| City Hall—Upgrade Video Surveillance | Not Started | , | |
| City Facilities Climate Resiliency Upgrades | In Design | Budgeted for 2024 | |
| Community Arts Facility Request provides for concept refinement and full design. Initial capital commitment for building upgrades. | In Design | Wrapped up current reuse study and the first phase of community engagement, presentation to City Council with concepts June 2023.
