News and information for those who live within the boundaries of 39th Street to the north, I-5 to the east, 4th Plain Blvd to the south, and Main Street to the west.

Naturespaces Planting at Shumway Park

Join the City of Vancouver and the City AmeriCorps team for a native planting event. This will be a 2 hour event. Training, gloves, tools, water, and snacks will be provided. This opportunity is family-friendly and great for teens. Volunteers should dress for the weather and wear long pants and closed-toe shoes. Naturespaces will also be presenting at our June 6 neighborhood meeting.

You can reach the information and registration page using the link in the title or this QR code :

Curbside Organics

City of Vancouver residents can add food scraps, along with yard debris, in their existing teal/green organics cart for every-other-week curbside collection. This organics collection is available to you as an optional service. Please call your service provider, below, for details on rates and options. You can also select the link in the title to go to the webpage if you are reading this online.

Customers in the City of Vancouver who do not currently subscribe to this optional service may sign up for organics service by contacting Waste Connections. Call [360-892-5370](tel:360-892-5370) or email customerservice2010@wcnx.org to learn more.

Allowed: food scraps/materials include: all compostable pre- and post-consumer food waste, such as whole or partial pieces of produce, meats, bones, cheese, bread, cereals, coffee grounds, and eggshells. Approved compostable plastic or paper bags, used to contain the above materials, are also allowed ([VMC 6.12.10](#)).

Not Allowed: materials include: dead animals, all other plastics, diapers, cat litter, free-flowing liquid waste, ashes, pet waste, garbage, glass, foam, compostable service ware, soiled paper, or other materials prohibited by the organics processor.

Shumway Neighborhood Association Meeting Announcement

Meeting Date: April 4, 2024

Platform: Zoom Virtual Meeting

Time: 06:30 PM

Platform: ZOOM Meeting

29th and 33rd Streets Safety and Mobility Project

What's happening now?

The 29th and 33rd Streets Safety and Mobility Project is just getting started. Please sign up for email updates from the project team to stay in the loop.

Project background

The 29th and 33rd Streets Safety and Mobility Project is studying how to improve safety and mobility for all people using E. 29th Street between Kauffman Avenue and Neals Lane, and E. 33rd Street between Kauffman Avenue and Grand Boulevard. The Project will evaluate how these streets can better meet the needs of people walking, using a mobility device, biking, accessing transit, and driving. This project is coordinating with pavement work planned for 2025 between the I-5 overpasses and St. Johns Boulevard.

Get involved

Sign up for project updates to stay informed about the project and how to get involved. The project team will offer a variety of ways to get involved and provide input, such as:

- Tabling at community events
- Canvassing within the project area
- Small group presentations

More details coming soon!

[Backyard Habitat Certification Program](#)

Together, we can—

At the Backyard Habitat Certification Program, we are dedicated to creating a program that welcomes everyone, no matter who they are. Our goal is to provide everyone opportunities to participate in sustainable gardening and wildlife habitat creation regardless of their backgrounds, skin color, origin, abilities, gender, age, social status, or who they love. Together, we can work towards a greener, more inclusive and just world.

Plant roots, create a habitat, transform the world— one yard at a time.

[Columbia Land Trust](#) and [Bird Alliance of Oregon](#) offer this unique program to support the creation and expansion of urban natural habitats. These habitats contribute to the broader conservation efforts of our parent organizations by strengthening and expanding wildlife corridors, creating connectivity between public and private lands.

Learn more [about us](#), our [collaborations](#), and our [funding partners](#).

Working together to create climate-resilient habitats for people and wildlife.

Learn more about becoming a participant in our program and how you can transform your yard or green space into a habitat that benefits pollinators and other wildlife, and contributes to cleaner air and water for all.

Learn more [About Us](#) and how our work ties into the broader conservation work of our two parent organizations.
