- ii) **Equipment costs.** Equipment costs shall include all Contractor's cost (e.g. maintenance, fuel depreciation).
- e) **Departmental overhead costs.** Department overhead shall include all administrative and support costs related to service operations and shall be proportionate to the direct cost of services.
- d) **Inter departmental indirect costs.** The parties agree that the Contractor may use its most current published indirect plan when costing services. The plan must be in accordance with OMB Circular A-87.
 - i) **Self-Insurance.** The Contractor may recover the annual costs of their self-insurance program by either including the program as an element of their indirect cost plans or by charging programs directly. The program shall be subject to actuarial review at least every five years and the annual internal charge shall represent an amount that maintains the program.
- e) **Depreciation.** The Contractor can recover the cost of replacing "booked" facility or equipment assets. The method of recovery will be determined by the agreements subject to this Master Inter local Assistance Agreement.
- f) **Revenue.** If the Contractor receives revenues that offset direct, departmental overhead and interdepartmental indirect expenses, the revenues will be applied to the applicable expense category prior to the allocation of costs to the Government.
- g) **Allocation of costs.** The allocation of service costs must be based on one or more measurable factors, including but not limited to:
 - i) The geographic size of the area to be serviced;
 - ii) The population of the area to be serviced;
 - iii) The assessed valuation of the area to be serviced;
 - iv) The level of service to be delivered;
 - v) Workload statistics or other relevant data bases.
- h) **Reconciliation of contracted (budgeted) costs with actual costs.** For those service contracts wherein the cost of services to the Government is based on a percentage allocation of the Contractor's total current year budget, there shall be a year-end reconciliation of the Contractors budgeted appropriations for the service cost center with the Contractor's actual costs for the service cost center; said reconciliation to be made following the thirteenth month accounting period. In those circumstances where the Contractor's year-end actual costs are less than the amount that was appropriated in the Contractors budget, the Government shall receive a monetary rebate for the cost of

services within 30 days subsequent to the reconciliation date, or at the Government's option, a credit for the cost of the subsequent year services.

- 1) **Calculation of the rebate/credit.** The amount of the rebate or credit shall be based on the Government's allocated share of the costs; e.g. if the Government's allocated share of the Contractor's cost center is twenty five (25) percent, the Government shall be entitled to a rebate or credit equaling twenty-five percent of the difference between the Contractors budgeted appropriations for the cost center and the Contractors actual costs.

- i) **Reconciliation of adopted budget with thirteenth month budget.** There shall be a year-end reconciliation of the Contractor's original adopted budget with Contractor's budget as it exists following mid-year supplemental appropriations or other budget adjustments. Mid-year legislative resolutions which adjust the Contractors budgeted cost center shall also adjust the Government's service costs in accordance with the percentage allocation that was contractually agreed to; PROVIDED that the Government shall have the right to question the validity of those supplemental appropriations not directly related to the provision of Government services pursuant to Sections 3a through 3d of this agreement.

- i) **Validity of supplemental appropriations.** The Contractor shall provide the Government with a copy of all mid-year budget resolutions and associated staff reports. If the Government wishes to question the validity of all or of some part of a supplemental appropriation, the Contractor's finance director and the Government's finance director shall attempt to resolve the matter. If the Contractor's finance director and the Government's finance director are unable to resolve the matter, the provisions for dispute resolution set forth in the Master Interlocal agreement shall apply.

4. CHANGE IN SCOPE OF SERVICES.

- a) **Mid-year adjustments to service delivery.** The Government may order changes in the delivery of services consisting of additions, deletions, or other revisions within the general scope of the contract. No claims may be made by the Contractor that the scope of the Contractor's services have been changed, requiring changes to the amount of compensation to the Contractor or other adjustments to the contract, unless such changes or adjustments have been made by written amendment to the contract signed by the Government and the Contractor.

- i) **Additional compensation.** If the Contractor believes that any particular work is not within the scope of the contract, is a material change, or will otherwise require more compensation to the Contractor, the Contractor must immediately notify the Government's Finance Director in writing of this belief. If the Government's Finance Director believes that the particular work is within the scope of the contract as written, the parties, will resolve their dispute in accordance with the Master Interlocal Assistance Agreement

- b) **Annual adjustments to service delivery.** Each year, by September 5, or the first working day thereafter, the Contractor shall provide the Government with an estimate of the subsequent years service costs and service data and an estimate of the Government's contract amount for the same level of service for the subsequent year. By September 20 or the first working day thereafter, the Government shall notify the Contractor of any changes in service or service level for the subsequent year. By October 10 or the first working day thereafter, the Contractor shall provide the Government with the estimated contract amount for the subsequent year based on the changes in service requested by the Government.

- i) **Reconciling final adopted budget with contract.** The Contractor shall adjust the contractual cost of services to reflect the final adopted budget and shall notify the Government in writing of any adjustments made to the contract amount, on or before December 31.

5. FINANCIAL REPORTING and PAYMENT REQUIREMENTS.

- a) **Monthly reports.** The Contractor shall provide the Government with monthly revenue and expenditure reports. The reports shall be tailored to report only those revenues and expenditures that are associated with the service agreement.

- b) **Ending reports.** The Contractor shall provide the Government with reports showing total ending revenues and expenditures associated with the service agreement either at the termination of the agreement or at the end of the calendar year, whichever occurs earlier.

- c) **Billing procedures.** It is contemplated that service costs to the Government may be based either upon the Contractor's actual monthly costs of service, or upon the Contractor's budget, pursuant to Section 3 of this agreement. If service costs are based on the Contractor's actual monthly costs, payments shall be made within 30 days after receipt of the Contractor's bill. If service costs are based on the Contractor's budget, the Government shall make four equal quarterly payments. The Contractor shall issue the bill by the fifteenth (15th) day of the month and payments by the Government shall be due within thirty (30) days after issuance of the bill. Payments that are not paid within the allotted time periods shall be considered delinquent. Delinquent charges shall accrue interest on the unpaid balance, from the date of delinquency until paid, at an interest rate of one percent (1 %) per month.

6. TRANSFER AND DISPOSITION OF CAPITAL ASSETS

- a) **Transfer of real property at agreement termination.** Upon termination of this agreement, non-infrastructure property, such as land and buildings shall be transferred at fair market value as determined by an appraisal from disinterested persons of suitable qualifications; PROVIDED, the Contractor shall have discretion to sell such assets and the Government shall have discretion to buy.
