I. Executive Summary

This report contains data through June 30, 2025.

The Federal Open Market Committee's statement of the second quarter of 2025 suggests that growth of economic activity moderated in the first half of the year. The unemployment rate remains low, and labor market conditions remain solid. Inflation remains somewhat elevated. The Committee seeks to achieve maximum employment and inflation at the rate of 2% over the long run. Uncertainty about the economic outlook remains elevated. The Committee is attentive to the risks to both sides of its dual mandate.

Real gross domestic product (GDP) increased at an annual rate of 3.0% in the second quarter of 2025, according to the advance estimate. In the first quarter, real GDP decreased 0.5%. The increase in the second quarter primarily reflected a decrease in imports, which are a subtraction in the calculation of GDP, and an increase in consumer spending. These movements were partly offset by decreases in investment and exports. Two consecutive quarters of negative GDP growth, or a significant drop in real GDP, is often used as a definition for a recession, which suggests a decline in the overall value of goods and services produced within a country during a specific period.

The City of Vancouver General Fund revenues in the second quarter of 2025 totaled \$134.2 million, or 48.5% of the forecast for the year. Sales tax collections through the second quarter came in at 47.7%, approximately \$1.6 million under the forecasted amount (this is after the sales tax forecast was reduced by \$1.2 million in the 2025 Supplemental). Utility taxes in the second quarter of 2025 came in 49.3% of the forecasted amount (this is after Electrical and Natural Gas taxes were reduced by \$700 thousand and \$400 thousand respectively within the 2025 Supplemental). Business license revenue came in at 48.8%, approximately \$22.8 thousand under the forecasted amount through the second quarter of 2025. Property tax collections were at 57.1% of the forecasted amount; however, most property tax revenues are received during the second and fourth quarters of the year.

General Fund expenditures at the end of June 2025 were \$124.3 million or 43.1% of General Fund expenditure budget. The General Fund operating cash balance was \$108.0 million at the end of June 2025. The following is detailed information on the main revenue sources of the General Fund.

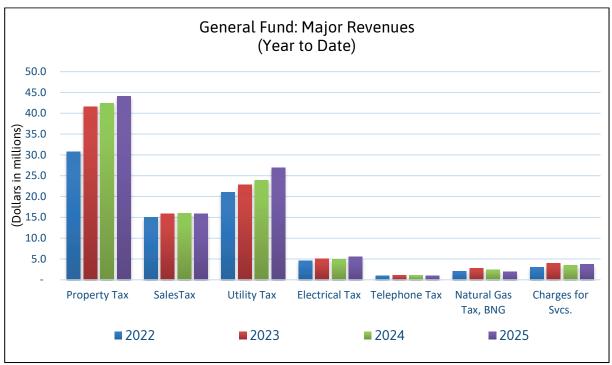

Chart No. 1 – General Fund Major Revenues through June 30, 2025.

II. Economic Report

Real gross domestic product (GDP) increased at an annual rate of 3.0% in the second quarter of 2025, according to the advance estimate. In the first quarter, real GDP decreased 0.5%. The increase in the second quarter primarily reflected a decrease in imports, which are a subtraction in the calculation of GDP, and an increase in consumer spending. These movements were partly offset by decreases in investment and exports.¹ Two consecutive quarters of negative GDP growth, or a significant drop in real GDP, is often used as a definition for a recession, which suggests a decline in the overall value of goods and services produced within a country during a specific period.

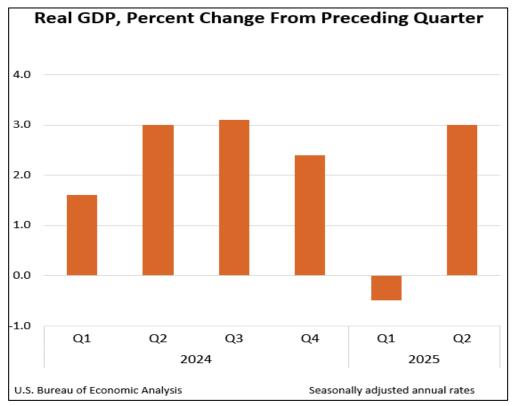

Chart No. 2 – Real GDP: % Change from Preceding Quarter (Source: https://www.bea.gov/data/gdp/gross-domestic-product)

The Federal Open Market Committee's statement for the second quarter of 2025 states, "Although swings in net exports continue to affect the data, recent indicators suggest that growth of economic activity moderated in the first half of the year. The unemployment rate remains low, and labor market conditions remain solid. Inflation remains somewhat elevated. The Committee seeks to achieve maximum employment and inflation at the rate of 2% over the long run. Uncertainty about the economic outlook remains elevated. The Committee is attentive to the risks to both sides of its dual mandate.

¹ Gross Domestic Product, First Quarter 2025 (Advance Estimate) | U.S. Bureau of Economic Analysis (BEA)

In support of its goals, the Committee decided to maintain the target range for the federal funds rate at 4.25% to 4.5%. In considering the extent and timing of additional adjustments to the target range for the federal funds rate, the Committee will carefully assess incoming data, the evolving outlook, and the balance of risks. The Committee will continue reducing its holdings of Treasury securities and agency debt and agency mortgage-backed securities. The Committee is strongly committed to supporting maximum employment and returning inflation to its 2% objective."²

Total nonfarm payroll employment increased by 147,000 in June, and the unemployment rate changed little at 4.1%, the U.S. Bureau of Labor Statistics reported today. Job gains occurred in state government and health care. The Federal government continued to lose jobs.³

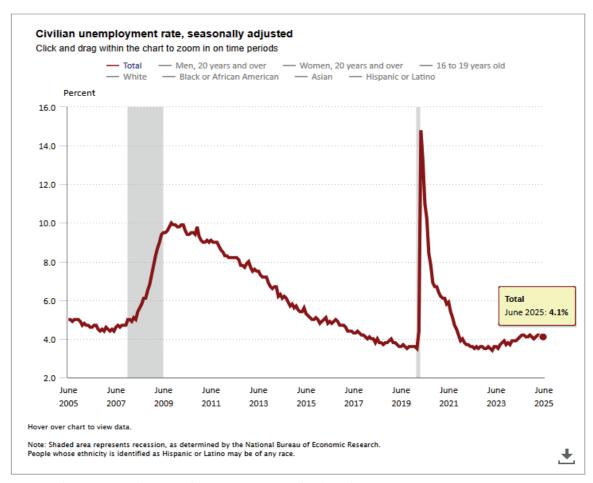

Chart No. 3 – Civilian Unemployment Rate, Seasonally Adjusted (Source: Civilian unemployment rate (bls.gov)

³ <u>Civilian unemployment rate (bls.gov)</u>

Below is additional information on changes in employment by industry in June 2025.

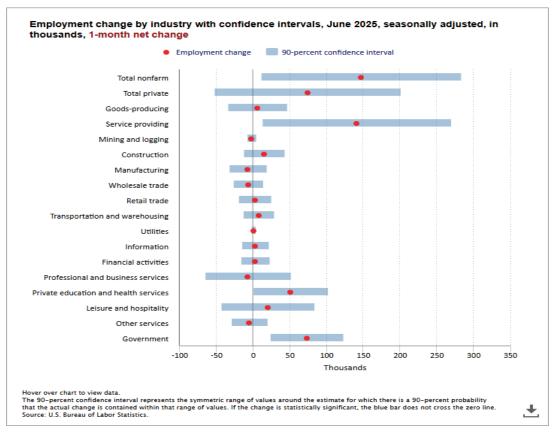

Chart No. 4 – Employment Change by Industry, 1-month (Source: Employment by industry, monthly changes, with confidence intervals

One of the major measures of consumer assurance is the *Conference Board's Compiled Index* of *Consumer Confidence*. Three thousand households across the country are surveyed each month to determine consumer perceptions of current business and employment conditions, as well as their expectations for the upcoming six months. The level of consumer confidence is associated with anticipation of future developments in the economy and is used as an indicator of the likely general direction of consumer spending in the coming months.

The Conference Board's **Consumer Confidence Index**® increased in June to 109.7, up from 102.5 in May. The **Present Situation Index**—based on consumers' assessment of current business and labor market conditions—rose to 155.3 from 148.9 in May. The **Expectations Index**—based on consumers' short-term outlook for income, business, and labor market conditions—rose to 79.3 from 71.5 in May. Expectations have remained below 80, the level associated with a recession within the next year—every month since February 2022, except for a brief uptick in December 2022. However, June's reading was just a shade below 80 and up from last month's print. ⁴

⁴ <u>US Consumer Confidence (conference-board.org)</u>,

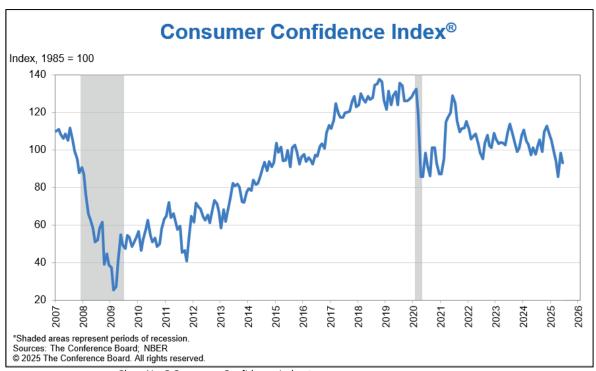

Chart No. 5 Consumer Confidence Index (Source: US Consumer Confidence

A second measure of consumer attitudes from the University of Michigan, is known as *The Sentiment Index*. The <u>University of Michigan Consumer Sentiment Index</u> (MCSI) reported, U.S. consumer sentiment was little changed from June, inching up about one index point to 61.8. While sentiment reached its highest value in five months, it remains a substantial 16% below December 2024 and is well below its historical average. Short-run business conditions improved by about 8%, whereas expected personal finances fell back about 4%. Consumers are unlikely to regain their confidence in the economy unless they feel assured that inflation is unlikely to worsen, for example if trade policy stabilizes for the foreseeable future. At this time, the interviews reveal little evidence that other policy developments, including the recent passage of the tax and spending bill, moved the needle much on consumer sentiment.

Year-ahead inflation expectations fell for a second straight month, plunging from 5.0% last month to 4.4% this month. Long-run inflation expectations receded for the third consecutive month, falling back from 4.0% in June to 3.6% in July. Both readings are the lowest since February 2025 but remain above December 2024, indicating that consumers still perceive substantial risk that inflation will increase in the future.⁵

The US Conference Board tracks ten different economic indicators to assess the health of the economy and to evaluate the direction of economic development. The cumulative product of these indicators is called the *US Leading Economic Index (LEI)*, which provides an early indication of significant turning points in the business cycle and where the economy is heading in the near term.

The Conference Board Leading Economic Index® (LEI) for the U.S. "declined by 0.3% in June 2025 to 98.8, after no change in May. As a result, the LEI fell by 2.8% over the first half of 2025, a substantially faster rate of decline than the –1.3% contraction over the second half of 2024.

For a second month in a row, the stock price rally was the main support of the LEI. But this was not enough to offset still very low consumer expectations, weak new orders in manufacturing, and a third consecutive month of rising initial claims for unemployment insurance. In addition, the LEI's six-month growth rate weakened, while the diffusion index over the past six months remained below 50, triggering the recession signal for a third consecutive month. At this point, The Conference Board does not forecast a recession, although economic growth is expected to slow substantially in 2025 compared to 2024. Real GDP is projected to grow by 1.6% this year, with the impact of tariffs becoming more apparent in H2 as consumer spending slows due to higher prices."

⁶ <u>US Leading Indicators (conference-board.org)</u>

The graphic representation of the LEI for the U.S. since 2000 is shown below.

Chart No. 7 – The Conference Board Leading Economic Index (LEI) for the U.S. Source: <u>US Leading Indicators (conference-board.org)</u>

According to Trading Economics, Housing starts in the United States rose by 4.6% from the previous month to a seasonally adjusted annualized rate of 1.3 million in June of 2025, trimming the revised 9.7% slide in the previous month, and loosely in line with market expectations of 1.3 million units. Starts were carried by housing with five or more units, offsetting the 4.6% decline in housing with a single unit to 883 thousand. By geographical regions, housing starts were solely supported by the Northeast (73.3% to 182 thousand), where multi-unit housing is the most concentrated. In turn, starts fell in the Midwest (-5.3% to 179 thousand), the West (-1.4% to 286 thousand), and the South (-0.7% to 674 thousand).

⁷ <u>United States Housing Starts (tradingeconomics.com)</u>

U.S. Housing Starts

Chart No. 8 – U.S. Housing Starts
Source: United States Housing Starts (tradingeconomics.com)

According to the U.S. Bureau of Labor Statistics, the Consumer Price Index for All Urban Consumers (CPI-U) increased 0.3% on a seasonally adjusted basis in June, after rising 0.1% in May. Over the last 12 months, the all items index increased 2.7% before seasonal adjustment. The index for shelter rose 0.2% in June and was the primary factor in the all items monthly increase. The energy index rose 0.9% in June as the gasoline index increased 1.0% over the month. The index for food increased 0.3% as the index for food at home rose 0.3% and the index for food away from home rose 0.4% in June.

The index for all items less food and energy rose 0.2% in June, following a 0.1% increase in May. Indexes that increased over the month include household furnishings and operations, medical care, recreation, apparel, and personal care. The indexes for used cars and trucks, new vehicles, and airline fares were among the major indexes that decreased in June. The all items index rose 2.7% for the 12 months ending June, after rising 2.4% over the 12 months ending May. The all items less food and energy index rose 2.9% over the last 12 months. The energy index decreased 0.8% for the 12 months ending June. The food index increased 3.0% over the last year."8

State Economy

The Washington State Economic and Revenue Updates from the Washington Economic and Revenue Forecast Council included the following highlights:

- There are fewer jobs in June than were forecasted in March. This is mostly due to downward revisions.
- The Washington unemployment rate increased in May from 4.4% to 4.5%.
- Washington housing permits have slightly increased so far in the second quarter.
- Seattle home prices were up 3.0% compared with April 2024.
- Washington exports increased 3.9% from the first quarter of 2024 to the first quarter of 2025.
- Seattle area consumer price inflation remains below the national average, continuing a recent trend.
- Washington personal income growth trailed the national average.9

⁹ Washington State Economic and Revenue Forecast Council Quarterly Publication - June 2025

Local Economy

The Consumer Price Index for All Urban Consumers (CPI-U) for Seattle-Tacoma-Bellevue advanced 1.4% for the two months ending in June 2025, per the U.S. Bureau of Labor Statistics. "Regional Commissioner Chris Rosenlund noted that the index for all items less food and energy increased 1.2%. The food index rose 1.5%, and the energy index advanced 4.0%. (Data in this report are not seasonally adjusted. Accordingly, bi-monthly changes may reflect seasonal influences.)

The Seattle area all items CPI-U advanced 2.7% for the 12 months ending in June. The index for all items less food and energy increased 2.4% over the year. The food index rose 4.8%, and the energy index advanced 5.0%. 10

According to the Bureau of Labor Statistics, the unemployment rate for the Portland-Vancouver-Hillsboro area was 4.8% in June 2025 (same as March 2025), higher than the Clark County rate of 3.7% and 4.5% for the state of Washington. Below is a historical chart of the comparative monthly unemployment rate readings between the state of Washington, Clark County and the Portland-Metro area going back to 2022.

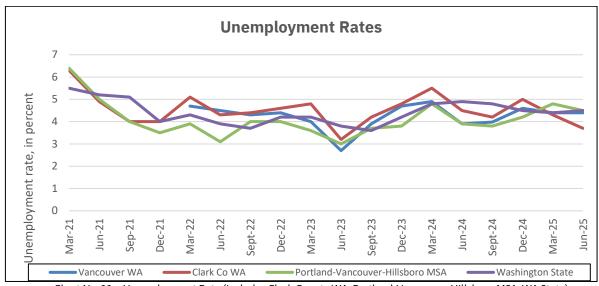

Chart No. 11 – Unemployment Rate (includes Clark County WA, Portland-Vancouver-Hillsboro MSA, WA State)
Source: Portland-Vancouver-Hillsboro, OR-WA Economy at a Glance (bls.gov)

The S&P CoreLogic Case-Shiller U.S. National Home Price NSA Index, covering all nine U.S. census divisions, reported a 2.3% annual return for May, down from a 2.7% annual gain in the previous month. The 10-City Composite saw an annual increase of 3.4%, down from a 4.1% annual increase in the previous month. The 20-City Composite posted a year-over-year increase of 2.8%, down from a 3.4% increase in the previous month. New York again reported the highest annual gain among the 20 cities with a 7.4% increase in May, followed by Chicago and Detroit with annual increases of 6.1% and 4.9%, respectively. Tampa posted the lowest return, falling 2.4%."¹¹

Source: S&P CoreLogic Case-Shiller U.S. National Home Price Index (CSUSHPINSA) | FRED | St. Louis Fed

¹¹ S&P Dow Jones Indices (spglobal.com)

In June 2025, the median home value in Vancouver, WA was \$514.3 thousand, compared to March 2025 results of \$509.7 thousand. Clark County's median home value in March 2025 was \$556.6 thousand, slightly up from \$549.1 thousand as reported in March 2025. 12

"The National Association of Realtors released a new report showing that pending home sales in the US decreased 0.8% from May to June. Year-over-year pending sales dropped 2.8%.

The decline in June isn't for lack of inventory to lure prospective buyers. On the contrary, the number of houses listed for sale has increased, even as a growing number of sellers opt to delist their homes from the market rather than accept a lower price. In a tough twist for buyers, the rise in supply has done nothing to bring down home prices, which hit an all-time high last month.

The steady rise in prices continues a painful trend for buyers. As NAR deputy chief economist Jessica Lautz stated, "buyers have been pushed to the sidelines for two and a half years, waiting for a reprieve in affordability.

Conditions have been particularly tough for first-time buyers, many of whom are younger. An increasing number of Generation Z members say that they see renting as better than owning amid high prices and elevated mortgage rates."¹³

Housing Market Freeze Deepens As Pending Sales Drop in June - Business Insider

The number of residential units permitted residential permits issued in the City during the second quarter of 2025 increased to 104 from 18 permitted in the first quarter. The number of permits has continued to trend down since 2022.

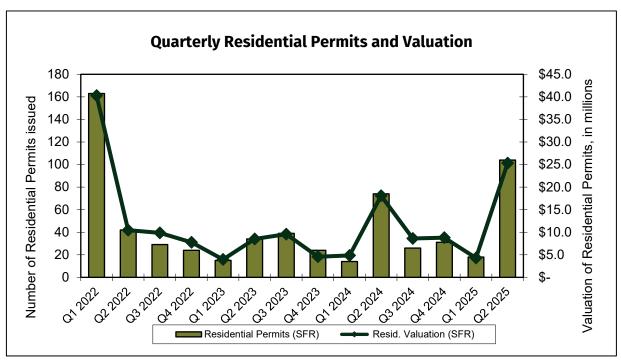

Chart No. 14 - Quarterly Residential Permits and Valuation

The number of multi-family residential units permitted in the City during the second quarter of 2025 decreased to 57 from 60 permitted in the previous quarter.

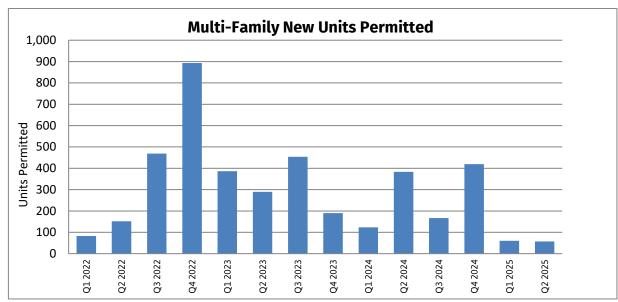

Chart No. 15 - Multi-Family New Units Permitted

For the second quarter of 2025, a total of 12 commercial permits were issued, with a valuation of \$72.8 million, compared to the first quarter where five permits were issued, with a valuation of \$48.1 million. Commercial activity is generally volatile, as is the valuation of those projects. For example, in 2021, a total of 66 projects were permitted with a valuation of \$272.8 million, but in 2022, 66 commercial projects were also permitted, but the valuation was \$452.6 million.

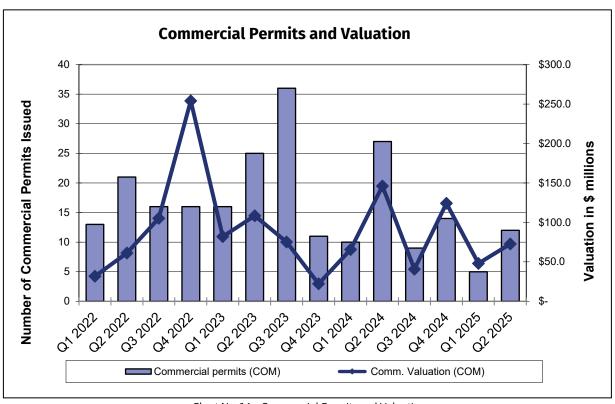

Chart No. 16 – Commercial Permits and Valuation

Data provided by the Community and Economic Development Department, City of Vancouver.

III. Financial Results

General Fund

Revenues

City of Vancouver General Fund revenues through June of 2025 totaled \$134.2 million, or 48.5% of the forecast for the year. Although property tax collections through the second quarter were 0.7% higher than those in 2024, sales tax collections through the quarter were 2.3% under the forecasted amount and 1.3% less than collections in 2024 through the same period. Business license revenue came in at \$948 thousand (1.2% lower than the forecasted amount) through the second quarter of the year.

Sales tax revenues through the second quarter of 2025 came in \$1.6 million lower than the adjusted forecast amount and \$788.3 thousand lower compared to collections in 2024. Planning revenues came in at \$754.4 thousand through June 2025 (56.5% of the forecasted amount); however, this is after the 2025 Supplemental revenue forecast reduction of \$464.0 thousand. Recreation fees continue to lag and ended the second quarter at \$1.6 million (5.3% under the forecasted amount). The 2025 property tax collections through the second quarter totaled \$44.1 million, which is approximately \$1.6 million higher than the comparable collections in 2024. Utility tax revenue came in at approximately \$27.0 million, which is \$3.0 million higher compared to collections through the second quarter of 2024, but under the forecasted amount by 0.7%.

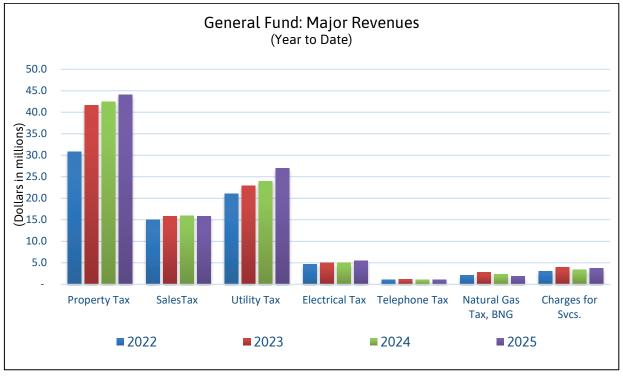

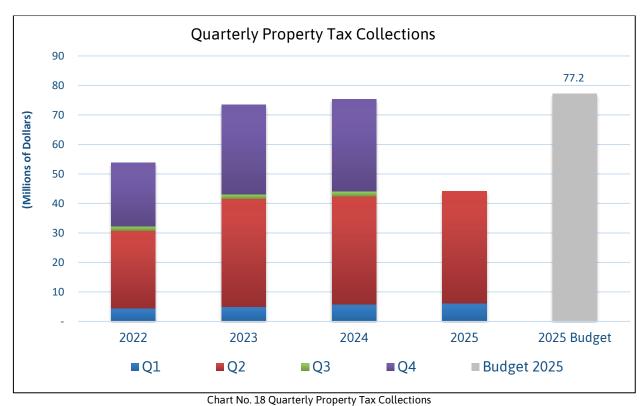

Chart No. 17 General Fund: Major Revenues, June 30, 2025

Note: Utility tax revenue above includes the tax on Solid Waste; Charges for Services exclude the Business License revenue

Property Tax

- Property tax revenues are typically received during the second and fourth quarters of the year. The amount of revenue is based on the assessed valuation and is estimated using County Assessor's data. Deviations from estimates in this revenue source are mostly related to the amount of new construction and delinquency rates.
- The City of Vancouver levy rate is \$2.1390 per \$1,000 of assessed value, which was applied to a total taxable value of approximately \$37.11 billion (2025). The General Fund collects \$2.1390 per \$1,000 in assessed value of the total levy, including the increase for Fire services.
- An additional assessed value levy was approved by voters in November of 2016 dedicating revenue to increase the number of affordable housing units in the City. Once approved, the Affordable Housing levy generated approximately \$6.0 million per year. In 2023, the voters extended the levy, which increased the generation to \$10 million annually. The current levy rate is \$0.2694 per \$1,000.
- A total of \$44.1 million in general fund property taxes (excluding the Affordable Housing Levy) were collected through June 2025, 57.1% of the forecasted amount, and \$1.6 million more than property tax revenue collected in 2024 for the same period.

Note: The dollar amounts above represent the General Fund collections of Property Tax. These have not been adjusted for inflation.

Sales Tax

- As of April 2025, the sales tax rate for Vancouver increased to 8.8% with the addition of 0.1% to be utilized toward Cultural Arts. The sales tax rate in the incorporated area is distributed as follows: 6.5% to the State; 0.5% for the City's "basic" sales tax; 0.3% for the City's "optional" sales tax; 0.2% for the City restricted to funding Public Safety; 0.1% City sales tax for affordable housing; the County's additional optional 0.1% for Law and Justice; 0.1% for addressing the region's methamphetamine drug addiction and related crime; 0.7% for CTRAN; 0.1% for the new Cultural Access programs, plus the new additions of 0.1% for the Transportation Benefit District and 0.1% for the County's Proposition 11 passed by voters to support public safety.
- Sales tax revenue collected through the second quarter of 2025 came in at 47.7% of the adjusted forecasted amount, totaling \$32.6 million (approximately \$1.6 million under the forecasted amount), and \$788.3 thousand under collections in 2024 through the same time period. Retail sales have been strongly influenced by the increased internet sales tax and robust construction activity in the City over the last few years. Beginning in 2021, sales tax revenue became the City's highest tax revenue source, exceeding property taxes; however, the trend discontinued with the passing of Proposition 2.
- A decline in taxable retail sales reflects an instable real estate market, and a reduction in new construction and discretionary spending.

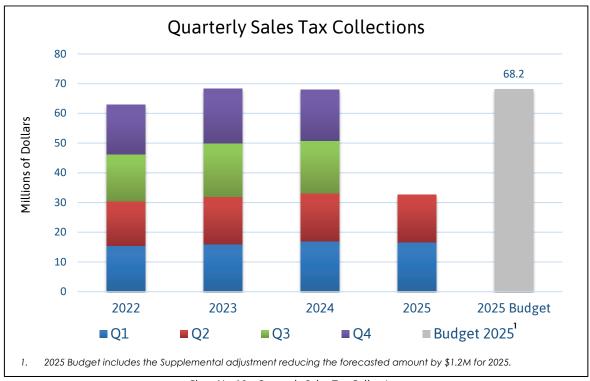

Chart No. 19 - Quarterly Sales Tax Collection

Taxes on Privately Owned Utilities

Vancouver collects a 6.0% utility tax on electrical, natural gas, and telephone services provided within the incorporated area by entities other than the City. In 2025, the City implemented a 6.0% cable utility tax on cable providers.

- The tax on privately and City-owned utilities generated \$35.8 million through June 2025, approximately \$3.8 million more than revenue received through the second quarter of 2024; however, the Cable Utility Excise Tax went into effect January 1, 2025, and makes up \$431.0 thousand of the revenue. The revenue collections on City-owned utilities came in approximately \$3.0 million higher compared to the same period in 2024 and tax revenues received on privately owned utilities came in roughly \$831.4 thousand higher than those collected through the second quarter of 2024.
- Electrical tax revenues totaled \$5.5 million through the second quarter of 2025 (56.3% of the adjusted forecasted amount), compared to \$5.0 million collected through the same quarter in 2024.
- Natural gas tax revenues totaled \$1.9 million through quarter two of 2025, which is 60.9% of the adjusted forecasted amount, but \$70.0 thousand less than revenue collected through the second quarter of 2024.
- Telephone tax revenues totaled \$1.0 million through June 2025, \$48.4 thousand less than revenues received through the second quarter of 2024, but only 0.3% under the forecasted amount. Telephone tax has been on a declining trend over the last several years.
- The anticipated revenue amount for the new Cable Utility Tax is approximately \$1.9 million a year. The City collected \$430.9 thousand during the second quarter of 2025.
- The City also charges cable franchise fees to cable providers. The cable franchise fee revenue through the second quarter of 2025 was \$782.9 thousand; approximately 5.3% under the forecasted amount, and \$36.5 thousand less than those collected in 2024 through the second quarter.

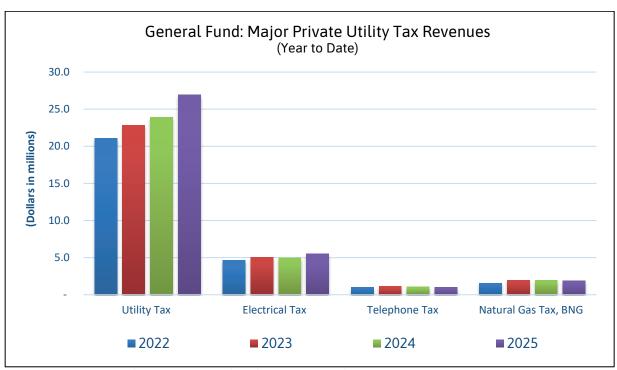

Chart No. 20 - General Fund: Major Private Utility Tax Revenues, June 30, 2025

Water, Sewer, Storm Water and Solid Waste Taxes

Revenue-funded, City-owned utilities has increased over the years due to a growing customer base as well as the underlying rate increases. The underlying water, sewer, and drainage utility rates have had increases annually in recent years to keep up with inflation and the needs of the outdated infrastructure. The rates were also increased to accommodate the additional utility tax for streets and police. For 2025, the utility rates were increased by a blended 6% annual rate to incorporate inflationary cost increases and an increased capital program.

In total, \$27.0 million in City-owned utilities taxes were collected through June 2025. Specifically, the solid waste utility came in 7.1% over the forecasted amount at \$5.9 million, while the tax on water/sewer/stormwater came in 2.5% under the forecasted amount at \$21.0 million; together revenue was approximately \$377.1 thousand under the expected amount. The makeup of revenues between residential and commercial/industrial has remained stable over the years, with residential being the primary contributor to the revenues.

The chart below shows quarterly collections in City-owned utility tax revenues over the last several years.

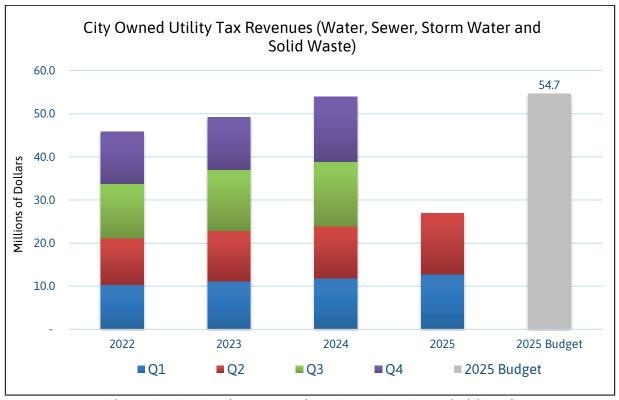

Chart No. 21 - City-Owned Tax Revenues: (Water, Sewer, Storm Water and Solid Waste)

Grant & Entitlement Revenues

The City received \$1.5 million in grant reimbursements through June 2025 within the General Fund and is forecasted to receive \$2.9 million for the year. Of the \$1.5 million received, \$546.7 thousand was for Homelessness Response, \$302.7 thousand helped fund Public Safety efforts and \$673.0 thousand supports Climate Action and Community Development.

Charges for Goods and Services

The City's largest fee-revenue generating program areas are the Development Review Services and Recreation programs.

Land Use and Other Planning Permits

From 2008 through 2010, the City experienced a significant decrease in both the number of single-family residential permits issued and in their valuation. Data from 2014 through 2021 indicated a trend of significant annual increases in development activity and the resulting land use fees. Planning revenue in 2023 discontinued that trend. Revenues through June 2025 were approximately \$754.4, which is 56.5% of the forecasted amount; however, the 2025 Supplemental reduced the 2025 forecast from \$1.8 million to \$1.3 million.

Recreation Program Fees

The City generated \$1.6 million in recreation fee revenues through the second quarter of 2025, which is 44.7% of the forecasted amount. For comparison, recreation fees in 2022, 2023, and 2024 totaled, \$3.0 million, \$3.6 million, and \$3.1 million respectively; however, in 2019 recreation revenues came in at \$4.4 million. In response to the reduction in revenues, Parks, Recreation and Cultural Services implemented fee increases for 2025, as well as had budget reductions in services provided.

Expenditures

General Fund expenditures through June 2025 totaled \$124.3 million (43.1% of the year's budget) and \$12.9 million more than expenses through the second quarter of 2024.

Through June 2025, departments within the General Fund spent \$64.3 million of the \$151.6 million budget. This is approximately \$4.7 million more than expenses through quarter two of 2024, but only 42.4% of budget for the year. Police had the biggest increase compared to the second quarter of 2024, with a difference of \$2.1 million. Extraordinary increases in inflation, salaries and benefits, as well as supplies and services continue to impact expenses.

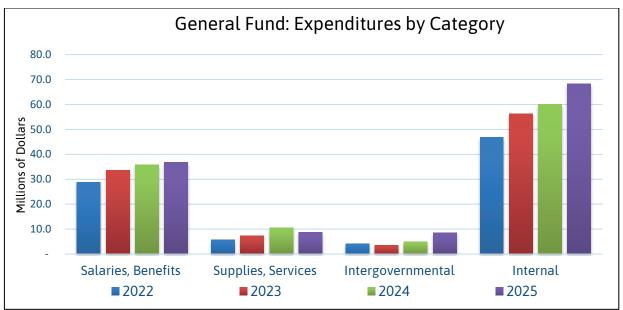

Chart No. 22 – General Fund: Expenditures by Category

General Fund salaries and benefits expenditures totaled \$36.9 million through June 2025, higher than those in 2024 by approximately \$981.9 thousand, due to market study changes, as well as cost of living increases in 2025.

General Fund supplies and services category expenditures were \$8.8 million through June 2025, which is only 25.5% of budgeted amount for the year, but one-time professional services and

supply budgets were carried forward into 2025 due to timing of projects and delays in the supply chain.

Intergovernmental expenditures include payments by the City to other jurisdictions based on inter-local agreements. Intergovernmental expenditures reached \$8.5 million through June 2025, approximately \$3.5 million more than expenses through June 2024, and 55.4% of the budget for the year. This category, beginning with 2019, excludes support for Fire, Street, and other funds.

Internal expenditures include transfers between City funds. For example, General Fund's support of Fire, Street, CVTV, and other funds, as well as cost of internal services, such as Grounds and Facilities Maintenance, Finance, HR, IT, Risk, and Equipment Services. Interfund transfers were previously included with intergovernmental expenditures. Interfund expenses through the second quarter of 2025 were \$68.3 million, approximately 48.1% of the budgeted amount.

Cash Balance

- The General Fund operating cash balance was 108.0 million at the end of June 2025. This balance was \$10.1 million more than the cash balance at the end of June 2024.
- In addition to the operating cash balance, the General Fund's emergency reserve totaled \$20.7 million at the end of June 2025, compared to \$18.8 million at the end of June 2024. The Council updated the emergency reserve balance financial policy in 2012, requiring that the emergency reserve balance equals 7.0% of actual external revenues in the preceding fiscal year for the General, Street, and Fire Funds. These funds are intended to be used only for extraordinary events, such as natural disasters.

Fund Balance

- The cash balance represents a snapshot at a particular point in time, while the fund balance factors in revenues and expenditures that are anticipated to occur by the end of the year, as well as the accounting entries that have no bearing on cash.
- The total fund balance in the General Fund at the end of 2024 was at \$146.5 million, above the 2023 ending balance of \$97.4 million, according to the City's preliminary unaudited financial statements. The balance is composed of the Non-Spendable (\$3.6 million), Restricted, Assigned, and Unassigned balances. The Restricted balance of \$1.4 million represents intergovernmental grant revenue and grant funds received in advance of expenditures in the police department. The Assigned balance of \$26.7 million represents reserves in accordance with the City Financial Policies, including the City Emergency reserve of \$19.2 million, the Revenue Stabilization reserve of \$6.5 million, and the Columbia Arts Center capital reserve of \$0.96 million.

 The balance pays for the ongoing operations of the General Fund when incoming seasonal revenues are not sufficient to cover expenses. It further eliminates the need for short-term borrowing. The Unassigned balance contains \$49.7 million of Working Capital to ensure sufficient cash flow in the fund and approximately \$5.8 million in compensated balances. The remaining portion of the balance was determined to be undesignated at the end of 2024.

Street and Street Initiatives Funds

- Combined expenditures in the Street and Street Initiatives Funds through June 2025 were \$11.3 million, approximately \$6.6 million less than expenses through the second quarter of 2024. Construction expenditures are cyclical in nature and generally, timed between April and October of the year.
- Revenues in the combined Street and Street initiatives funds through June 2025 totaled \$24.8 million (63.6% of the forecasted amount for the year). Beginning in 2018, REET revenue is being received by the Operating Street Initiatives Fund (Fund 103) to better match the consolidated Pavement Management Program, which was moved to the same fund for the ease of operations.
- Motor Vehicle Fuel Tax (MVFT) revenues totaled \$1.5 million through June 2025, about \$33.8 thousand less than revenues through quarter two of 2024. This revenue source is a set tax per gallon that does not depend on the price of gasoline. The significant nation-wide increase in gasoline prices over the past two years has resulted in declining gasoline consumption.
- The Street Initiatives fund primarily represents an increased level of street programming resulting from new revenues specifically increased for that purpose. The spend down of the existing resources in 2022 was planned, as those were accumulated for funding construction costs of major street projects. The only exception to this is the Pavement Management program. The existing program was consolidated into the Street Initiatives fund with accompanying funding for the Real Estate Excise Tax and the General fund to ease the administration of program management. Additional information about the Street Initiatives program and funding is outlined below.

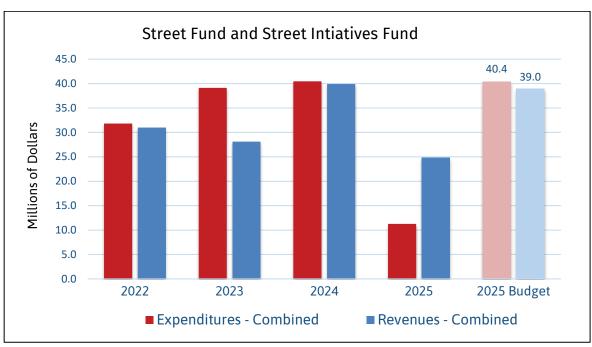

Chart No. 23 - Street Fund and Street Initiatives Fund: Revenues, Expenditures

Real Estate Excise Tax (REET)

- A Real Estate Excise Tax (REET) of one-quarter of 1.0% of the selling price is imposed on each sale of real property within the incorporated limits of the City. In the past, this tax was deposited into the Street Fund. Beginning in 2018, it has been deposited into the Street Initiative fund and is restricted to financing preservation of the City's street system. The City also collects an additional one-quarter of 1.0% of the selling price in REET for Parks, Economic Development and Transportation capital.
- REET revenue has been volatile and closely linked to the economy. The revenue has
 increased rapidly in 2019 through most of 2022, surpassing historical highs in this revenue
 source. The real estate activity began to slow in late 2022 and that trend continued through
 2023 due to higher mortgage rates and their anticipated influence on the real estate sector.
- A total of \$2.0 million in REET revenue was received through June 2025, compared to \$2.1 million received through June 2024. Collections in 2022 represent the highest amount of revenue ever collected in REET. The graph below demonstrates the fluctuations in REET collections since 2022.

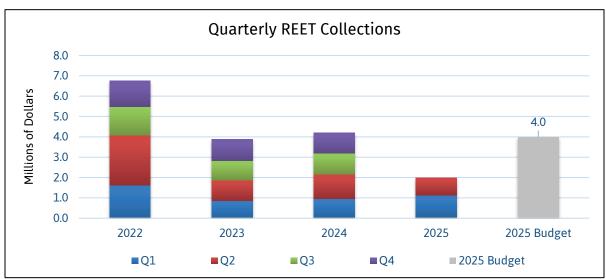

Chart No. 24 - Quarterly REET Collections

Consolidated Fire Fund

- The City has an Operating Fire Fund and a Fire Equipment Fund. The Fire Equipment Fund contains budget and cash for vehicle replacements and purchases. The Operating Fire Fund fully supports the Fire Equipment Fund. The graph below represents the Operating Fire Fund's financial information.
- Operating Fire Fund revenues through June 2025 totaled \$40.4 million and consist of permit
 and plan review revenues for services, as well as support from the General Fund and Fire
 District 5. Total Fire operating expenditures through June 2025 were \$40.3 million, 45.1% of
 the budgeted amount and \$347.2 thousand higher than comparable expenses in 2024. Most
 of the increase is due to inflationary increases within salary and benefits.

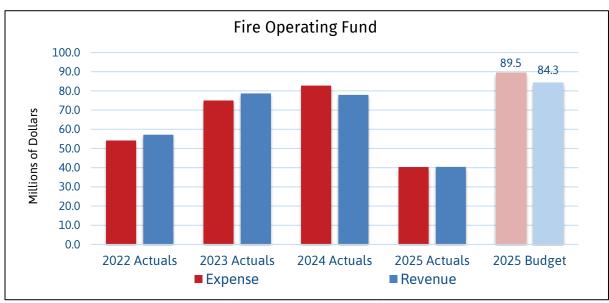

Chart No. 25 - Operating Fire Fund

Building Inspection Fund

- Building review and inspection fee revenue received through June 2025 totaled \$3.7 million, which is 4.1% under the forecasted amount and approximately \$3.8 million less than those received through June of 2024.
- Building Fund expenditures through June 2025 totaled \$3.9 million, which is 40.6% of the budgeted amount, and \$142.6 thousand more compared to expenses through the second quarter of 2024.
- Due to the decline in revenues, the City Manager tasked staff with evaluating current and upcoming projects to better align our expenditures with the number of potential projects and subsequent revenues. Most likely adjustments to the budget will be forthcoming.
- The fund balance in the Building Fund targets funding for 18 months of permitting activity
 after revenue is collected and the replacement cost of the Infor and other software systems
 to ensure sufficient funding exists at the end of their useful lives. Fees and valuation tables
 were increased to start building the fund's balance, which has continuously declined over
 several prior years.

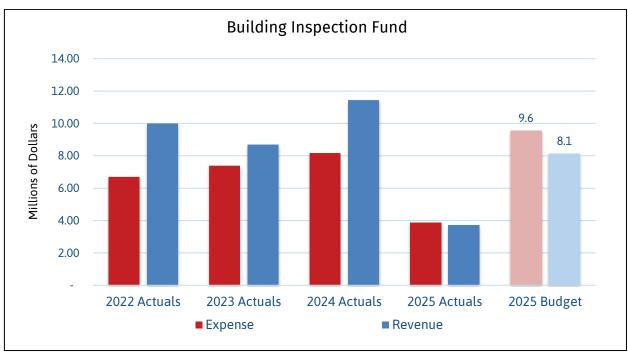

Chart No. 26 - Building Fund Expenditures, Revenues and Fund Balance

Parking Fund

Parking revenues through June 2025 totaled \$3.8 million, approximately \$910.5 thousand more than revenues collected for the same period in 2024. Expenditures in the fund totaled \$1.6 million, which is approximately 29.0% of 2025 budget, but \$741.5 thousand more than expenses in 2024 through the same quarter.

Business License Surcharge Revenue

Effective April 2023, a business license fee surcharge was implemented. The revenue generated from this fee is dedicated to public safety and well-being (18%); parks major maintenance and capital (18%); new capacity building street improvements (40%); and public infrastructure improvements to facilitate economic development within city limits (24%). For 2025, the forecasted revenue amount is \$8.6 million with \$3.8 million collected through June 2025 (43.8% of the forecasted amount).

Utility Operations

Operating transfers between the Water, Sewer and Storm Water funds are included in the accompanying **Attachment A**, per budget requirements. These transfers are generally eliminated when quarterly financial statements are prepared. Please call (360) 487-8441 to receive a copy of the detailed financial statements for the Utility Funds.

Water

- Effective January 2025, the City implemented a tiered rate structure for the water utility, as
 well as a low-income assistance program. The intent of the new tiered structure is to
 encourage water conservation by rewarding customers who use less water. The rate
 structure also includes different rates for customers who reside within City limits compared
 to customers outside of City limits; however, the City has implemented a phased reduction
 of the differential to minimize the variance.
- Water sale revenues totaled \$22.3 million through June 2025, compared to \$21.3 million received through quarter two of 2024. Water utility rates were increased by 4.5% for 2025 to incorporate inflationary cost increases and an increased capital program. An additional \$10.7 million was collected from other utility revenues, such as private capital contributions, indirect cost plan funding and miscellaneous payments.
- Water fund expenditures through June 2025 totaled \$36.3 million, 45.3% of the budget, and \$4.0 million more than expenditures in 2024.

Sewer

• Sewer utility rates were increased by 6% for 2025 to incorporate inflationary cost increases and the increased capital plan. Fee revenues received in the Sewer Fund were \$34.1 million through June 2025, approximately \$1.3 million higher than revenues through the second quarter of 2024 and 3.3% more than the forecasted amount.

• Sewer expenditures through June 2025 totaled \$40.8 million (60.7% of budget), and approximately \$17.6 million more than expenses through June of 2024.

Storm Water

- A total of \$14.0 million in Storm Water revenue was received through June 2025, approximately 0.8% below the forecasted amount, but \$1.8 million higher than revenues received through the same time period in 2024. Surface water rates were increased by 8% for 2025 to fund Council initiatives on Climate Action through increased investments in proactive street tree maintenance and planting, and in advance of Total Maximum Daily Load (TMDL) and National Pollutant Discharge Elimination System (NPDES) permit requirements expected later this summer.
- Overall, the expenditures in the Storm Water fund through June 2025 were \$14.8 million (52.0% of budget); the expenses through this quarter were approximately \$1.0 million more than those through the second quarter of 2024.

Internal Service Funds

Equipment Services Operating and Capital Funds

A total of \$5.0 million was spent by Equipment Services on operating activities through June 2025 (49.8% of the budget for the year). The ER&R Capital fund spent \$3.3 million, approximately 25.4% of the annual vehicle replacement budget. The vehicle purchase scheduling has been impacted by the supply chain issues resulting from the pandemic and the resulting vehicle availability.

Internal Administrative Services Fund

A total of \$13.4 million was spent by departments within the Internal Administrative Services Fund through June 2025, which is 40.8% of the total 2025 budget, and \$1.0 million less than expenses through the second quarter of 2024. Departments within this fund include Human Resources, Finance, Information Technology, Civil Legal, Communications, Equity & Inclusion, Central Records, and Mailroom Services.

Risk Fund

Within the Risk Fund, approximately \$2.7 million was expended through June 2025, 12.6% of the total annual budget, and approximately \$948.5 thousand less when compared to the same period in 2024.

Benefits and Self-Insured Health Insurance Funds

A total of \$14.4 million was spent on benefits through June 2025, including health insurance. The total through June is \$253.3 thousand more than expenses through the second quarter of 2024. The expenses within the Benefits and Self-Insured Health Insurance Funds ended the quarter at approximately 44.3% and 37.6% of their annual budgets respectively.

IV. Outstanding Debt

At the end of the second quarter of 2025, the City had around \$29 million of general obligation (G.O.) debt outstanding. General obligation debt is backed by the full faith and credit of the City and by general taxes. The weighted-average interest rate for the City's general obligation debt is 1.90%.

A complete list of the City's outstanding debt is included in **Attachment C**.

V. Investments

Market Conditions

- Although swings in net exports have affected the data, recent indicators suggest that
 economic activity has continued to expand at a solid pace. The unemployment rate remains
 low, and labor market conditions remain solid. Inflation remains somewhat elevated.
- The Committee seeks to achieve maximum employment and inflation at the rate of 2% over the long run. Uncertainty around the economic outlook has increased. The Committee is attentive to the risks to both sides of its dual mandate.
- In support of its goals, the Committee decided to maintain the target range for the federal
 funds rate at 4.25% to 4.5%. In considering the extent and timing of additional adjustments
 to the target range for the federal funds rate, the Committee will carefully assess incoming
 data, the evolving outlook, and the balance of risks. The Committee will continue reducing
 its holdings of Treasury securities and agency debt and agency mortgage-backed securities.
 The Committee is strongly committed to supporting maximum employment and returning
 inflation to its 2.0% objective.
- In assessing the appropriate stance of monetary policy, the Committee will continue to
 monitor the implications of incoming information for the economic outlook. The Committee
 would be prepared to adjust the stance of monetary policy as appropriate if risks emerge
 that could impede the attainment of the Committee's goals. The Committee's assessments
 will consider a wide range of information, including readings on labor market conditions,
 inflation pressures and inflation expectations, and financial and international
 developments.

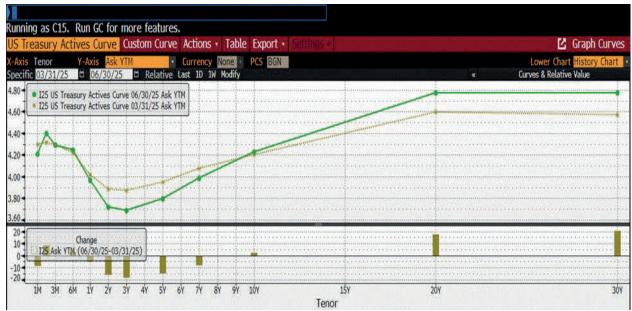

Chart No. 27 - U.S. Treasury Activities Curve

Investment Performance

The average amount invested in June 2025 was \$774 million compared to \$706 million on June 2024. The portfolio had a weighted average yield of 4.31% year-to-date, which is a 31-basis point (bps) difference than the projected annual yield of 4.00% for 2025. The projected yield is based upon the blended yield between existing rates and expected market rates when new investments are purchased during the year. The year-to-date yield was 10 bps lower than that of the State Investment Pool, which had an average yield of 4.40%. The State Pool had a weighted average maturity of 27 days. The City's investment portfolio weighted average maturity exceeds one year. Longer-term portfolio yields will underperform shorter-term portfolio yields in a rising interest rate environment. Interest revenue distributed through the end of June 2025 to all funds is approximately \$16.1 million compared to \$12.4 million during the same period of 2024. This is a gain of approximately \$3.7 million.

The City's investment portfolio profile is detailed in **Attachment D**.

VI. Interfund Loans

In 2003, City Council passed an ordinance giving the City Treasurer the authority to make interfund loans to meet the short-term liquidity and cash flow needs of the City's various funds. The ordinance requires the City Treasurer to provide a quarterly report to City Council showing the amount of all interfund loans outstanding and the repayment plan for those loans. During 2025 there was one Interfund loan with an outstanding balance at the end of June 2025.
