RESOLUTION NO. M-4341

A RESOLUTION adopting the City of Vancouver’s Comprehensive Six-Year Transportation Improvement Program for 2026-2031 and the City’s Arterial Street System and Classification Map.

WHEREAS, pursuant to RCW 35.77.010, the Vancouver Department of Public Works has prepared the Comprehensive Six-Year Transportation Improvement Program for 2026-2031 (“2026-2031 TIP”); and

WHEREAS, the purpose of the 2026-2031 TIP is to ensure that the City will have available advance plans as a guide in carrying out a coordinated street construction program; and

WHEREAS, the City’s Arterial Street System and Classification Map (“Arterial Classification Map”) is maintained within the 2026-2031 TIP; and

WHEREAS, City Council annually reviews proposals and makes classification designation changes on the map where the use of a roadway is inconsistent with its current arterial designation; and

WHEREAS, notice of the time and place for a hearing on the 2026-2031 TIP was published in accordance with law; and

WHEREAS, the City Council conducted a public hearing on June 16, 2025 at 6:30 p.m., where it considered the 2026-2031 TIP and determined to adopt it.

NOW, THEREFORE,

RESOLUTION ADOPTING 2026-2031 Six-Year TIP – 1

BE IT RESOLVED BY THE CITY OF VANCOUVER:

Section 1. Legislative Findings. The above recitals are adopted as the legislative findings of Vancouver’s City Council in support of adoption of this Resolution.

Section 2. City Council adopts the attached Exhibit A, the 2026–2031 Comprehensive Six-Year TIP, including the Arterial Street System and Classification Map. Staff are further authorized to pursue grants and loans, and to acquire real property rights through any legal means for projects listed in this Six-Year TIP.

Section 3. The City Manager or their designee is hereby directed to file the 2026-2031 Comprehensive Six-Year TIP with Arterial Street System and Classification Map with the Washington State Department of Transportation within 30 days of adoption of this Resolution.

ADOPTED at regular session of the Council of the City of Vancouver on June 16, 2025.

Letter from Transportation Leadership

Hello neighbors,

Thank you for your interest in Vancouver's Transportation Improvement Program (TIP). This plan plays a vital role in shaping a safe, efficient, and sustainable transportation network for our community.

Each year, we update our Six-Year TIP to plan for future projects that enhance mobility, safety, and accessibility across the city. These projects range from planning studies to construction of major infrastructure improvements, all supporting Vancouver's Strategic Plan and ensuring that our transportation system serves everyone—whether traveling by car, bike, transit, or on foot.

The 2027-2032 TIP builds on key efforts, including the recent adoption of the Transportation System Plan (TSP) and ongoing city-wide comprehensive planning efforts, which will guide policies, programs, and projects with a strong emphasis on safety, sustainability, and equity. This update also continues investments in neighborhood traffic calming, multimodal safety, and accessibility improvements, while pursuing grant opportunities to expand active transportation connections and upgrade key corridors.

Funding for these projects comes from various sources, including local and state taxes, vehicle license fees, and state and federal grants. We encourage you to explore the TIP, share your feedback, and help shape Vancouver's transportation future by visiting the [TIP website](#).

Your voice is essential as we work to enhance transportation options and improve the quality of life in our city. Thank you for being part of this effort!

Steven R. Wall, P.E.
Public Works Director

Ryan Lopossa, P.E.
Transportation Division Manager

Transportation Improvement Program Overview

The City of Vancouver's 2027-2032 Transportation Improvement Program (TIP) is an update of the City's 2026-2031 TIP. The TIP is a technical document for transportation improvements over a six-year period. For more information about our street system, how it is funded, and how money is spent, visit [Street System - Needs and Strategies website](#).

The State of Washington law (RCW 35.77.010) requires the City to prepare a TIP annually that is consistent with and implements our adopted comprehensive growth management plan. The TIP identifies capital transportation system improvement projects and includes a policy to work with affected property owners to preserve railroad right-of-way in the event a railroad ceases to operate.

For information about the City's Comprehensive Plan, contact Vancouver Planning at 360-487-7803. For questions or more information about specific transportation projects, please contact Vancouver Public Works at 360-487-7130, or visit the [City's website](#).

Projects are added to the TIP each year as needed based on input from community members, staff, the development community, adopted subarea plans, other agencies, advocacy groups, and as new grant opportunities arise. Projects are removed from the TIP each year once they are constructed. In some cases, a project is removed because the project is no longer needed although this is rare. Residents can request to have a project added or removed by clicking on the link on our [TIP website](#).

A City of Vancouver Arterial Street System and Classification Map which designates roadways functionally classified as Arterials pursuant to VMC 11.80.040 and VMC 9.02.040 is adopted and attached hereto.

The 2027-2032 TIP is utilizing a similar prioritization process that was used to score the Transportation system (TSP) projects in 2023. Scoring criterion are created to reflect the strategic goals, city policies, and management directives. The scored priority groups are near-term, medium-term, and long-term; and can be found on the left side of the partially funded and unfunded project within 6-year lists.

2027-2032 TIP Highlights

Neighborhood Traffic Calming Program: Funded at \$300,000 annually, this program works with community members to enhance neighborhood livability.

Multimodal Safety and Accessibility Program: For 2026-2027, the program will focus on implementing key safety and mobility improvements along Fourth Plain Blvd, Blvd, E. 29th Street, E. 33rd Street, Upper Main Street and the Burnt Bridge Creek Trail Crossing on Hazel Dell Ave.

Grant Efforts:

We are pursuing opportunities to fund active transportation connections, fill sidewalk gaps, increase crossing safety, and upgrade arterials.

Other Major Projects: The 2027-2032 TIP identifies funding for many projects, which require several years for planning, design, right-of-way, and construction phases. These include:

- NE 137th Avenue (NE 49th Street to NE Fourth Plain Boulevard): Construction commenced in Spring 2024 and is anticipated to be complete in Spring 2026.
- Jefferson/Kauffman Connection (West Evergreen Boulevard to West Mill Plain Boulevard): Construction commenced in early 2025 and is anticipated to be complete in Spring 2026.
- Main Street Promise (5th Street to 15th Street): Construction commenced in early 2025 and is anticipated to be complete in Spring 2026.
- Heights Mill Plain/MacArthur: Project is fully funded with construction anticipated to commence in early 2026.
- Heights Grand Loop Project: Project is fully funded with construction anticipated to commence in early 2027.
- NE 18th Street (NE 97th Avenue to NE 107th Avenue): Right-of-way acquisition and final engineering design is currently underway with construction planned for 2026/2027.
- NE 192nd Avenue (SE 1st Street to NE 18th Street): Project is partially funded with preliminary engineering underway in 2024 and continued into 2025, and the right-of-way phase is anticipated to get underway in early 2026.
- NE 18th Street (NE 141st Avenue to NE 162nd Avenue): Project is partially funded with preliminary engineering underway in 2025 and continuing into 2026.

Policies

Key Policies from Transportation System Plan

Adopted Jan. 8, 2024

- TN1 - 15-Minute Neighborhoods: Make walking, rolling, and small mobility convenient through mixed-use zoning and investment in complete corridors to serve all travel modes. Foster redevelopment within strategic development nodes to support 15-minute neighborhoods.
- TN2 - Climate Corridors: Develop climate corridors to mitigate climate impacts through greener streets, street tree canopies, natural plantings for stormwater management, linear parks, and other climate resilient techniques. Use City-owned right-of-way to create a network of corridors that support climate adaptation and safe and healthy mobility as climate change occurs.
- TN3 - Community Streets: Develop guidance and encouragement for community use of the right-of-way, including plazas, parklets, “streateries,” open streets events, public art, and demonstration projects.
- CC1 - Complete Corridors: Create complete corridors throughout the city that connect growth areas, support business, serve transit, and increase safety. Corridors connect destinations and include identifying parallel options.
- CC2 - People-Based Metrics: Plan, design, and evaluate projects and developments using people-focused metrics that prioritize person throughput, safety and comfort. Use the metrics to evaluate facility performance and post-project evaluations.
- CC3 - Street Standards: Adopt street standards that create comfortable, inviting multimodal streets. Use NACTO standards as primary guidance and integrate the latest best practices from WSDOT, AASHTO, and MUTCD for facility selection and design, traffic control, and signage and striping. Adopt into standard plans referenced in VMC Title 11.
- CC4 - Vision Zero: Adopt a Vision Zero policy committing to end traffic fatalities and serious injuries on Vancouver streets by 2040. This policy would be a resolution to address the intersecting factors that lead to fatal crashes, such as unsafe behavior, alcohol and drug impairment, street design, and traffic speeds.
- CC5 - Project Delivery: Deliver maintenance, capital, and development projects in an effective, efficient manner with clear and transparent communication to the community.
- T1 - Access to Transit: Prioritize sidewalk and crosswalk gaps adjacent to transit stops, particularly along equity routes. Identify first/last mile barriers to major transit stops and address on a rolling basis.

- T2 - Enhanced Transit Corridors: In coordination with C-TRAN, build a network of Enhanced Transit Corridors where higher level of transit service (frequency, hours of operation, stop amenities) are desired based on existing and future density and equity needs.
- T3 - Transit and Land Use: Support transit through compact land uses and policies that incentivize transit use.
- T4 - Microtransit: Integrate shared and emerging mobility technology and tools with C-TRAN microtransit zones to provide a suite of mobility options, especially in lower-density areas without high-frequency transit.
- LS1 - Low-Stress Bicycle and Small Mobility Network: Adopt a citywide low-stress BSM network that prioritizes safety and comfort for people of all ages and abilities. Target a density of low-stress facilities every half-mile.
- LS2 - Pedestrian Priority Streets: Adopt a network of Pedestrian Priority streets where safety and comfort for people walking and rolling is prioritized. Assign categories (primary, secondary) based on the roadway classification, level of demand, and existing and planned land uses. Use these categories to recommend desired facilities and amenities (shade, lighting, seating, etc.).
- LS3 - Active Transportation Navigation: Support walking, rolling, and small mobility by making it easy and intuitive to navigate the city and find destinations.
- LS4 - Small Mobility and Walking/Rolling Programming: Complement infrastructure with robust programming that encourages and educates people about the benefits of walking, rolling, and small mobility.
- G1 - Development Review: Work with development community to establish a shared set of requirements and expectations for how development can support transportation.
- G2 - Citywide Parking Policy & Code: Update parking code and policies to right-size the amount of parking developed with future growth and create safe streets, compact urban form, and encourage non-driving forms of transportation.
- G3 - Parking Management: Effectively manage on and off-street parking resources through adoption of policies, systems, and tools throughout the city.
- G4 - Downtown Parking: For those who drive downtown, create a user-friendly, well-managed, and rightsized “park once” environment where people can walk or roll between destinations without moving their car.
- G5 - Transportation Demand Management (TDM): Require transportation demand management to reduce drive-alone trips, offer all travelers more mobility choices, and incentivize behavior change to more walking and rolling, biking, carpooling, and transit trips.
- F1 - Data Collection and Monitoring: Use data to track travel pattern changes over time.

- F2 - Climate Impacts: Adopt policies that will help meet the City’s goal of zero carbon emissions by 2040.
- F3 - Technology for System Management: Embrace technology as a way of managing the transportation system without expanding capacity.
- F4 - Electric/Autonomous Vehicles: Set City policy around EV / AV usage and role in achieving climate goals.
- F5 - Emerging Mobility: Update City policies for how shared mobility and emerging mobility vendors shall operate in Vancouver. Create data standards, data sharing agreements, and vendor requirements. Integrate equity through reduced costs for people with low incomes.
- F6 - Curb Management: Develop policies and programs that efficiently manage valuable curb space, recognizing how changing travel patterns have placed high demands on this resource.

Comprehensive Plan Policy for Asset Management

“Vancouver Comprehensive Plan 2011-2030”, Adopted Dec. 16, 2013

- PFS-35 - City public facility assets shall be systematically managed to balance full life cycle costs, performance, risk, and service levels, using best management practices and data.

Financial Policies for Capital Planning and Asset Management

Adopted Dec. 2, 2024

Asset management is a systematic process whereby the assets of the City (e.g., water system, sewer system, transportation system, property, buildings, etc.) are operated, maintained, replaced and upgraded cost-effectively. It includes operations and maintenance costs, as well as capital investments which can take the form of new construction, rehabilitation, or replacement.

1. In pursuit of an asset management strategy that prioritizes safety, equity and climate action, the City will:
 - Consider the climate impacts of asset investments and pursue asset management strategies that reduce its contribution to climate change over time.
 - Consider equity impacts of capital projects and asset management strategies and prioritize investments that improve equity within the City.
 - Consider the potential improvements to community safety associated with capital investments and prioritize investments that improve community safety, particularly in the transportation system.

2. Asset management best practice involves managing the performance, risk, and expenditures on infrastructure assets in an optimal and sustainable manner throughout their lifecycle covering planning, design, construction, operation, maintenance, and disposal. The City shall integrate the principles and best practices of asset management such as those embodied in the International Infrastructure Management Manual or equivalent methodology in the management of its assets. Asset inventory will be maintained with maintenance, repair and deferred maintenance costs identified and updated on an annual basis. Maintenance of City assets shall be addressed on a current need, rather than deferred into the future.
3. The resources that support current outstanding debt on street improvement projects shall, once that debt is retired, be dedicated to ongoing support of the capital program of the City's street fund. Eligible uses shall be consistent with the City's adopted Transportation System Plan, Comprehensive Plan, and annually updated six-year transportation improvement program.
4. A **six-year city-wide Capital Improvement Program** shall be developed annually and shall provide a prioritized list of reasonably funded projects and those in process of securing funding. Capital improvement plans for utility assets shall be updated no less frequently than every two years. The comprehensive plan will identify longer-term capital needs by program area.
5. Funding for capital projects, including major facilities maintenance projects, will be allocated in a manner that balances community needs with city priorities, the potential for attracting matching funds, and the ability to reduce or limit expenses in future years.
6. The City's objective is to incorporate a "pay-as-you-go" approach (using available cash and current resources) in the Capital Improvement Program. Proceeds from the sale of city capital assets no longer utilized in operations will be deposited consistent with the initial ownership of the asset and invested in the highest priority city capital projects. Debt funding shall be considered for large capital projects with long useful life to better reflect inter-generational equity.
7. The capital budget will be adopted at the same time the City operating budget is adopted. The capital budget will only include fully funded projects. The capital budget will only contain projects identified in the Capital Improvement Program.
8. A **capital repair appropriation** will be maintained for unanticipated major repairs of general operating facilities and for emergency replacement of general fund equipment. Additions to the capital repair contingency reserve will be made based on council directions.
9. Impacts on net annual operating and maintenance costs will be identified as part of the funding considerations for new capital projects such as buildings, parks, and street enhancements. This includes identifying potential reductions in maintenance costs if improvements are funded. The necessary funds to operate the capital facility will be identified at the time the capital budget is adopted.

10. To provide long-term sustainable utility services, the City will structure utility rates so that system reinvestment including major repair, rehabilitation and replacement of utility assets can be fully funded on an ongoing basis in accordance with the City's "pay as you go" policy. This will be achieved through a plan of smaller incremental rate increases to maintain affordability. As identified by the utility capital improvement plan, rates will also include an investment component for capacity improvements and system expansion.
11. A **system development reserve** will be maintained to fund growth related capital costs. All systems development charge revenue will be contributed to the fund.

DRAFT

Title VI Policy Statement

It is the policy of City of Vancouver that no person shall, on the grounds of race, color, and national origin, be excluded from participation in, be denied the benefits of, or be subjected to discrimination in any operation of City of Vancouver as provided by Title VI of the Civil Rights Act of 1964 and related statutes.

This policy applies to all operations of City of Vancouver, including its contractors and anyone who acts on behalf of City of Vancouver. This policy also applies to the operations of any department or agency to which City of Vancouver extends federal financial assistance. Federal financial assistance includes grants, training, equipment usage, donations of surplus property, and other assistance.

Prohibited discrimination may be intentional or unintentional. Seemingly, neutral acts that have disparate impacts on individuals of a protected group and lack a substantial legitimate justification are a form of prohibited discrimination. Harassment and retaliation are also prohibited forms of discrimination.

Examples of prohibited types of discrimination based on race, color, or national origin include: Denial to an individual any service, financial aid, or other benefit; Distinctions in the quality, quantity, or manner in which a benefit is provided; Segregation or separate treatment; Restriction in the enjoyment of any advantages, privileges, or other benefits provided; Discrimination in any activities related to highway and infrastructure or facility built or repaired; and Discrimination in employment.

Title VI compliance is a condition of receipt of federal funds. The Title VI Coordinator is authorized to ensure compliance with this policy, Title VI of the Civil Rights Act of 1964, 42 USC § 2000d and related statutes, 42 USC 4601 to 4655; 23 USC 109(h); 23 USC 324; DOT Order 1050.2; EO 12250; 28 CFR 50.3 and 49 CFR part 21.

Signed by: 
02BE78E9C0DB4DB...

Lon Pluckhahn, City Manager

Date

Public Outreach Section

	<p>Response to 5/26/2025 Comment: The radar feedback signs have been ordered. These are taking about 4-5 months for delivery.</p>
5/13/2025	<p>Comment: Project location to include in TIP: Techcenter, I work in the area and do t always geel safr walking die to people driving, especially at the 4 way stop near HP that needs some looking at and really a lpt of that area. People are hardly going 25, usually 40+ through there, with other area closures lots of people are cutting through there. Speed bumps would be a great addition through there!!!!</p> <p>Typically travel around the community by: Drive and walk</p>
	<p>Response: Text</p>
5/14/2025	<p>Comment: Remove from TIP: NE 112th Ave. – McGillivary</p> <p>Need the most improvement: Everywhere. Especially NE 112th between 18th & SR 500. And NE 28st between NE 112th and NE 138th</p> <p>Typically travel around the community by: Car</p> <p>Community's transportation needs: Stop the happy projects and fix what we got. Our roads are falling apart before our eyes. Getting weary of dodging potholes on almost every street in East Vancouver.</p>
	<p>Response: Text</p>
8/27/2025	<p>Comment: Project location to include in TIP: I live in Lincoln neighborhood and am most concerned about 39th Street between Main and Fruit Valley Road. Particularly after the light at Columbia going to Fruit Valley Road -- drivers are going too fast. It feels unsafe to cross as a pedestrian, even at times of day I would expect to be quiet. We need more speed limit signs, maybe some more of those blinky "slow down" ones, some sort of traffic calming, flashing lights or similar for crosswalks for bikes and pedestrians, a traffic light maybe at Kauffman.</p>

	<p>Proposed project in TIP most benefit our community: Lots of good ones. The interactive map is a great resource. Love seeing the recent speed bumps on Lincoln between 39th and however far they go.</p> <p>Need the most improvement: Traffic control to slow vehicles or safer crossing at 39th and Kauffman. More speed control on NW 45th street between Main and Lincoln. People go really fast and the elementary schools create a lot of traffic. 39th and Main Street are pretty backed up during rush hour but I think that's growing in the community.</p> <p>Typically travel around the community by: Mostly car and walking. Drive to 99th street transit center for CTRAN commute to Portland.</p>
	<p>Response: Text</p>
9/1/2025	<p>Comment: Proposed project in TIP most benefit our community: Remove from TIP: 39th and Fruit Valley RD. needs an all-around signal/ crosswalk light. This would increase safety by a busy industrial intersection near a 39th and Fruit Valley RD. needs an all-around signal/ crosswalk light. This would increase safety by a busy industrial intersection near a school zone which has high truck traffic.</p> <p>Need the most improvement: Remove from TIP: 39th and Fruit Valley RD. needs an all-around signal/ crosswalk light. This would increase safety by a busy industrial intersection near a 39th and Fruit Valley RD. needs an all-around signal/ crosswalk light. This would increase safety by a busy industrial intersection near a school zone which has high truck traffic.</p> <p>Typically travel around the community by: Both e-bike and drive people driving too fast and people and bikes need a safer condition.</p>
	<p>Response: Text</p>
1/7/2026	<p>Comment: Need the most improvement: The traffic light on 5th St. for the on ramp to I-5 is way too short. It is only 10 seconds and at most gets two cars through it before it turns red again. When traffic is heavy from Washington St. south, cars blocking the intersection don't even have time to clear out before the light for 5th St. goes red again. Can you please assess this and modestly lengthen the time of this light? Thanks for your consideration.</p> <p>Typically travel around the community by:</p>

	Walk, but occasionally need to go into Portland and we are tied up with the short on ramp light.
	Response: Staff reviewed the intersection and determined it was a WSDOT intersection. WSDOT have fixed the issue.

DRAFT

Financial Analysis Section

Financial Analysis

Funding Overview

The City of Vancouver's Transportation Improvement Program consists of three different project lists: funded projects, partially funded projects, and unfunded projects. Projects on the funded list are considered fully funded for design, right-of-way acquisition, and construction. Projects on the partially funded list have funding for design and/or right-of-way acquisition, but do not have full funding for the construction phase. Projects on the unfunded list do not have any funding allocated to them at this time. Transitioning from only including projects on the unfunded list that will truly receive funding in the 6-year horizon, this is the reason for the 'within' and 'outside' 6-year unfunded lists.

Street Funding Strategy (now called Dedicated Street Funding)

Prior to 1995, the City of Vancouver began a street funding strategy for local revenue to use for transportation capital improvements. This strategy involved identifying a revenue source and then committing that revenue source for debt service on bonds. Proceeds from the bond sale were then leveraged with grant revenues to the maximum extent possible for transportation improvements. Coupled with impact fees and developer contributions, this strategy generated hundreds of millions worth of capital improvements but resulted in a cyclical search for new revenues to address the continued need for capital improvements. Since 2015, City Council searched for a reasonable mix of new revenue sources that could be used on a "pay-as-you-go" basis to fund capital improvements as well as halt the gradual decline in our system pavement condition index. Early in 2015, City Council established a goal to complete, by year-end "an adopted street funding program that provides reliable, dedicated, long-term funding for streets, including pedestrian, bike and accessible infrastructure." In late 2015, City Council enacted several revenue sources for streets including:

- Transportation Benefit District (TBD) and the City Council enacted a revenue source; a \$40 Vehicle License Fee. In summer 2025, the Vehicle License Fee increased to \$50.
- Business License Surcharge (BLS) \$20 per employee. In 2023, the city council updated the business license surcharge calculation which is anticipated to provide additional revenue for transportation.
- Increased the Utility Tax on City Owned utilities dedicating additional revenue for streets.
- Dedicated the revenue sources used to pay debt service on bonds (as described above) would continue to be dedicated for street purposes on a pay-as-you-go basis as debt is retired.
- Dedicated the revenue from the increased gas tax resulting from the 2015 state gas tax increase would be used for median maintenance and street sweeping to accomplish service level increases for esthetic purposes.
- In 2023, the city council and TBD implemented a 0.01% increase to the sales tax which will bring in additional revenue for transportation.

The current Annual Report to the Vancouver Community and more information about the TBD can be found on the [Transportation Benefit District website](#).

Local Funding Sources

Public Sources

- **Vehicle License Fee:** Fee authorized by the Vancouver Transportation Benefit District and collected by the Washington State Department of Licensing. Fee paid at time of license renewal, resulting in estimated annual revenue of \$6.5 million.
- **0.01% Sales Tax:** Authorized by the Vancouver Transportation Benefit District and collected by the Washington State Department of Revenue. Tax paid on the sale of goods within the Vancouver City limits, resulting in estimated annual revenue of \$6 million.
- **Motor Vehicle Fuel Tax, also known as State Gas Tax:** Typically, about \$3.5 million per year.
- **Real Estate Excise Tax (REET):** REET varies per year, depending on real estate transactions.
- **Bonds (debt):** Periodically, we sell bonds for transportation construction projects. Revenues to pay those debts come from several sources including gas tax, general fund, REET, and business license surcharge.
- **Business License Surcharge (BLS):** Beginning in 2023, we overhauled the way the BLS is calculated. Revenues are still uncertain due to the recent changes. Staff will continue to monitor revenues and plan future work accordingly.
- **Utility Tax:** 1.5% Utility Tax on gross receipts for city-owned utilities including water, sewer, surface water and solid waste. This tax raises \$1.5 million annually.

Private Sources

- **Direct Construction:** Private developers are required to build or improve on-site roadways and may also be required to make off-site improvements to comply with concurrency or SEPA impacts.
- **Traffic Impact Fees (TIF):** The City maintains a TIF program (fees paid by a developer per new trip) which historically covers about 10% of the annual construction program.
- **Proportionate Share Contributions:** Developer contributions toward an improvement project to meet concurrency or safety requirements.

Grant Programs

Federal Grant Programs (these are some of the federal funding sources, not all are listed)

- **RAISE:** Rebuilding American Infrastructure with Sustainability and Equity—competitive, discretionary grant awarded by U.S. Department of Transportation to local agencies; focus is on large scale transportation projects that catalyze economic development.
- **Earmarks:** Earmarks are federal discretionary spending funds allocated by Congress for specific projects that are not required to go through the competitive grant allocation process.
- **CDBG:** Community Development Block Grant—periodically available for public street infrastructure (typically used for small sidewalk and ADA ramp improvements).

- **STBG:** Surface Transportation Block Grant funds are allocated by the SW Washington Regional Transportation Council and then, through a competitive grant process, to jurisdictions in the region.
- **TAP:** Transportation Alternatives Program—provides funding for alternative modes of transportation projects (i.e. modes other than vehicles).
- **Safe Streets and Roads for All (SS4A):** To support planning, infrastructure, behavioral, and operational initiatives to prevent death and serious injury on roads and streets involving all roadway users, including pedestrians; bicyclists; public transportation, personal conveyance, and micro mobility users; motorists; and commercial vehicle operators.
- **USDOT Thriving Communities Program:** Planning, technical assistance, and capacity building support to enable communities to advance a pipeline of transformative infrastructure projects that will increase mobility, reduce pollution, and expand affordable transportation options, connecting communities to the essential opportunities and resources that will help them thrive.
- **USDOT Reconnecting Communities Program:** Advance community-centered transportation connection projects, with a priority for projects that benefit low-capacity communities, focusing on improving access to daily needs such as jobs, education, healthcare, food, nature, and recreation, and foster development and restoration, and provide technical assistance to further these goals. The primary goal is to reconnect communities harmed by past transportation infrastructure decisions, through community-supported planning activities and capital construction projects that are championed by those communities.

State Grant Programs (these are some of the state funding sources, not all are listed)

- **Freight Mobility Strategic Investment Board:** This program provides resources to make strategic investments that support freight capacity and movement.
- **Transportation Improvement Board (TIB):** Funded with a small portion of the state gas tax, TIB is the main source for state grant funds to state agencies. Vancouver competes with other urban jurisdictions in Washington State for funds from several TIB grant programs. For example: urban arterial; urban sidewalk; and complete street programs.
- **Safety Routes to School:** Improve safety and mobility for children by enabling them to walk and bicycle to school. Funding from this program is for projects within two-miles of primary, middle and high schools (K-12).
- **Pedestrian and Bicycle Program:** Improve the transportation system to enhance safety and mobility for people who choose to walk or bike.
- **Washington Traffic Safety Commission Grant Program:** Grants awarded on an annual cycle, focusing on projects that address one or more of the top Target Zero priorities including impaired driving, speeding, young drivers, seat belts and occupant protection, distracted driving, and traffic records.
- **WSDOT City Safety:** Federal Highway Safety Improvement Program funds are allocated by the Washington State Department of Transportation (WSDOT) on a competitive basis to reduce fatal and serious injury crashes on city streets using engineering improvements and countermeasures.
- **Regional Mobility Grant:** Supports local efforts to improve connectivity between counties and regional population centers and reduce transportation delays. The program funds: new transit services, park and ride lots, transportation demand

management programs, transit speed and reliability improvements, new buses, transit service expansion.

- **WSDOT Sandy Williams Reconnecting Communities Program:** Improve active transportation connectivity for people walking, biking and rolling along and across current and former state and legacy highways, focusing on communities with high equity needs, which are those communities most affected by barriers to opportunity and environmental health disparities.

The table and graphs on the next few pages show the historical and forecasted revenues and expenses for streets in the City of Vancouver.

Revenues Supporting Streets Debt Service

Project Implementation Section

Project Implementation

Transportation capital improvement projects are added to the TIP through various sources. Sources can include the Transportation System Plan, Strategic Plan, Subarea/Corridor Plans, safety issues identified through the Local Road Safety Plan, congestion issues, private development, and public comments. Project ideas are vetted by planning and public works staff and added to the TIP accordingly.

After projects are added to the TIP, opportunities are explored for funding and coordination with other work (for example pavement management or utility work). Project prioritizations are based on policy priorities, equity impacts, feasibility and funding availability. Public outreach is most robust during the creation of the Plans that identify these projects but are continued throughout the entire life cycle of the project. Once projects are fully funded and designed, construction can commence.

Community Engagement

The City of Vancouver is committed to equitable, accessible and transparent community engagement as a core part of development transportation plans and policies and complies with the Title VI of the Civil Rights Act of 1964, which requires equitable, fair and non-discriminatory community engagement.

Our TIP Program is comprised of projects that have been identified through earlier processes and programs. As part of the annual TIP updated, we reach out to stakeholders, provide an interactive project dashboard for exploring the TIP projects, answer questions and respond to comments.

We provide updated information on projects during construction through City websites, list serves, and other communication channels. Impacted community members are notified about construction projects in their area.

TIP Prioritization Section

TIP Prioritization Process

The City is utilizing a similar prioritization process that was used to score the [Transportation System Plan \(TSP\)](#) projects in 2023. The TIP Prioritization process organizes existing and potential transportation projects for the City of Vancouver in alignment with our strategic goals and policies. Scoring criterion are created to reflect our strategic goals, policies, and management directives. Each project is scored on all the criteria which helps ensure fair comparisons. The result is a transparent and defensible decision-making tool to allocate limited resources to long list of worthy project priorities.

The partially funded and near-term unfunded projects are scored. The scores for those projects can be found on the left side of the project lists. Fully funded projects are not scored because we have already obtained the resources necessary to construct them.

Prioritization Tool

The prioritization tool includes three phases. Phase 1 is geographic screening, phase 2 is implementation, and phase 3 is a correlation between the cost and benefits.

Phase one is geographic screening which helps determine where to focus the investment. The criteria consist of equity index, collisions, essential spaces and places, and future growth areas. Essential places may include schools, parks, trails, natural areas, community centers or other factors.

Phase two is implementation which helps determine when to invest. The criteria consist of pavement opportunities, coordination, quick wins, right-of-way impacts, environmental impacts. Quick wins may be extending a bike network or closing a sidewalk gap. Environmental impacts refer to critical and archeological areas.

Phase three is a correlation between the cost and benefits. Phase one and two added together are the benefits. The cost is the estimated total project cost. Grants and alternate funding are incorporated if applicable. The table below is how the correlation between cost and benefits are utilized in determining the priority groups.

Cost and Benefit Correlation Table

	Very Low Benefit	Low Benefit	Medium Benefit	High Benefit	Very High Benefit
Very High Cost	Long-term	Long-term	Long-term	Medium-term	Near-term
High Cost	Long-term	Long-term	Medium-term	Near-term	Near-term
Medium Cost	Long-term	Medium-term	Medium-term	Near-term	Near-term
Low Cost	Long-term	Medium-term	Near-term	Near-term	Near-term
Very Low Cost	Medium-term	Medium-term	Near-term	Near-term	Near-term

Prioritize Projects

The final step of the TIP prioritization process consists of organizing the projects into priority groups: near-, medium-, and long-term. The near-term projects should be prioritized and included in the 6-year TIP. The medium- and long-term priority projects will be completed in

the 6 to 20-year horizon as funding allows. Although there are instances where medium- and long-term priority projects receive funding and are added to the 6-year TIP. Staff will continually evaluate the prioritization process to ensure that the priorities align with our goals.

2027-2032 TIP Priority Group Scoring Summary

1. Funded List – Not scored since we already have dedicated funds committed to build.
2. Partially Funded List
 - Near-term: TRANS-0274, 0279, 0603, 0607, 0898, 1368, 0839, 0879, 0888, 0946, 1350, 1357, 1358, 1359
 - Medium-term: TRANS-0444, 0887
 - Long-term: None
3. Unfunded List within 6-year
 - Near-term: TRANS-0723, 0880, 0891, 0907, 0936, 1367, 1427, 0843, 0873, 0924, 1351, 1353, 1354, 1428, 1429
 - Medium-term: TRANS-0716, 0927, 0937
 - Long-term: TRANS-0928
4. Unfunded List outside 6-year – Not scored since it is outside the six-year period.
5. Program List – Programs are citywide, therefore not scored.

DRAFT

TIP Changes Section

2027-2032 TIP Changes

This section provides an overview of the changes from the previous 6-year project list (2026-2031) to this year's 6-year project list (2027-2032). The changes are segmented by: projects removed; projects added; and other changes.

Projects Removed	TIP ID	Project Type	Comments
NE 137th Ave. - NE 49th St. to NE Fourth Plain Blvd.	TRANS-0275	Arterial Improvements	Project will be completed in 2026
Jefferson St. - W. Evergreen to W. Mill Plain Blvd.	TRANS-0531	Arterial Improvements	Project will be completed in 2026
NE 184th Ave. - SE 1st St. to NE 4th St.	TRANS-1347	Arterial Improvements	Project will be completed in 2026
E 33rd St. Complete Street and Paving Project - I-5 Overpass to St. Johns Blvd.	TRANS-0922	Active Transportation	Project will be completed in 2026
E 29th St. Complete Street and Paving Project - I-5 Overpass to St. Johns Blvd.	TRANS-0923	Active Transportation	Project will be completed in 2026
Waterfront Way Traffic Calming/ADA	TRANS-1113	Active Transportation	Project will be completed in 2026
Ft. Vancouver High School Pedestrian Connection between Fourth Plain Blvd. and NE Campus Dr. (SS4A)	TRANS-1126	Active Transportation	Removed from funded list due to right-of-way constraints
Van Plaza Drive Enhanced Pedestrian Crossing	TRANS-1144	Active Transportation	Project will be completed in 2026
St. Johns Blvd. Complete Street and Paving Project - SR 500 to NE Minnehaha St.	TRANS-1365	Active Transportation	Project will be completed in 2026
Burton Rd./NE 28th St. Complete Street and Paving Project - NE Andresen Rd. to NE 127th Ave.	TRANS-1355	Active Transportation	Removed from partially funded list, to be completed as part of the pavement preservation program
NE 122nd Ave. Complete Street and Paving Project - NE 39th St. to NE 49th St.	TRANS-1356	Active Transportation	Removed from partially funded list, to be completed as part of the pavement preservation program
Pavement Reconstruction Program	TRANS-0421	Program	Removed from program list, combined with the pavement preservation program

Projects Added	TIP ID	Project Type	Comments
NE 78 th St and NE 72 nd Ave Intersection Improvements	TRANS-1427	Signal and Lighting Improvements	New project added to the unfunded within 6-year list
W 11 th St/BNSF Crossing Grade Separation Project	TRANS-1428	Active Transportation	New project added to the unfunded within 6-year list
NE 112 th Ave Off Street Path – NE 18 th St. to NE 51 st St.	TRANS-1429	Active Transportation	New project added to the unfunded within 6-year list

Other Changes	TIP ID	Project Type	Comments
NE Fourth Plain Blvd. - Enhanced Pedestrian Crossings (SS4A)	TRANS-0899	Active Transportation	Changed name to reflect project more accurately
Fourth Plain for All (ARPA)	TRANS-1364	Active Transportation	Changed name to reflect project more accurately
McGillivray and Village Loop Drive Intersection Improvements	TRANS-0880	Arterial Improvements	Changed project type to reflect project more accurately
NE 49th St. - NE 122nd Ave. to NE 137th Ave.	TRANS-0279	Arterial Improvements	Moved from unfunded outside 6-year to partially funded list
NE 112th Ave./SE Chkalov Dr. Complete Street and Paving Project - NE 28th St. to NE 51st St.	TRANS-1350	Active Transportation	Moved from funded to partially funded list due to funding constraints
NE 112th Ave./SE Chkalov Dr. Complete Street Project - Mill Plain Blvd. to SE McGillivray Blvd.	TRANS-1351	Active Transportation	Moved from funded to unfunded within 6-year list due to funding constraints
Devine Rd. – Idaho St. to Park Hill Drive South	TRANS-1368	Arterial Improvements	Moved from unfunded within 6-year to partially funded list, changed name to reflect project more accurately
Upper Main St. Complete Street and Paving Project - E 39th to NE 45th St./Hazel Dell	TRANS-1352	Active Transportation	Changed name to reflect project more accurately

Non-City Projects Removed	Agency	Comments
SR 500 NE Fourth Plain Blvd. to NE 76th Street - Complete Streets	WSDOT	Completed

Non-City Projects Added	Agency	Comments
None

DRAFT

2027-2032 TRANSPORTATION IMPROVEMENT PROGRAM

Project: Traffic Signal and Lighting Sustainability
Project Extent: Citywide

To:

PROJECT SUMMARY

Project Type:	Program
Project Status:	Active
Funding Status:	Funded

PROJECT

Description:
 Ongoing program to update traffic signals at locations throughout the City. Updates may include but are not limited to adding left-turn phasing, signal heads, pedestrian push-button and detectors, as well as removing a type of operation, changing detector setup or making other improvements. Dedicated Street Funding contribute \$200K/yr, with annual program budget totaling \$415,000/yr.

Justification:
 Traffic signals need to be upgraded or replaced as they reach the end of their useful lives. This program reflects the implementation of that philosophy.

Priority Score:
 Funded, unfunded projects outside the 6-year horizon, and programs were not scored.

LEGEND

FUNDING & SCHEDULE

Project Number:	PRJ072330
Grant Funded:	No
Grant Amount:	\$
Total Project Cost:	\$
Start of Const. (year):	Ongoing

*All project timing will be dependent on coordination with other departments including streets, pavement management, wastewater, water, and surface water.
 **Utility CIP projects (WTR-XXX, SS-XXX, SW-XXX, SCIP-XXX) can be found in the 6 Year Public Works Capital Improvement Plan (CIP) document.

2027-2032 TRANSPORTATION IMPROVEMENT PROGRAM

Project: Neighborhood Traffic Calming Program

Project Extent: Citywide

PROJECT AREA MAP

VICINITY MAP

To:

PROJECT SUMMARY

Project Type:	Program
Project Status:	Active
Funding Status:	Funded

PROJECT

Description:

Projects implemented as part of the ongoing Neighborhood Traffic Calming Program are intended to help slow traffic and enhance neighborhood livability. These projects may include education or infrastructure to reduce driver speeds; new or improved facilities for people walking, biking, and using mobility devices; and other strategies to increase safety and mobility in Vancouver neighborhoods. Dedicated Street Funding contribute \$130K/yr, with annual program budget totalling \$300,000/yr.

Justification:

The Neighborhood Traffic Management Program is important to reaching our Community Vision of "... Safe neighborhoods with a distinct quality and proud identities linked by parks and greenspace as well as a transportation system that provides mobility option".

Priority Score:

Funded, unfunded projects outside the 6-year horizon, and programs were not scored.

2027-2032 TRANSPORTATION IMPROVEMENT PROGRAM

Project: Pavement Preservation Program

Project Extent: Citywide

PROJECT AREA MAP

VICINITY MAP

To:

PROJECT SUMMARY

Project Type:	Program
Project Status:	Active
Funding Status:	Funded

PROJECT

Description:

This ongoing program improve and maintain pavement surfaces through surface overlay, micro surfacing and slurry treatments at multiple locations citywide. Upgrades may include new ADA ramps, traffic striping and markings. 2026 projects will preserve about 70 lane miles and pave about 15 lane miles. 2026 corridors: McGillivray from Chklov to SE 20th, NE 112th Ave from Mill Plain to 28th St, Mill Plain from I-205 to SE 164th Ave, and SE 164th Ave from SE 34th St to Mill Plain. Annual budget of approximately \$12 Million in existing money + approximately \$600,000 in Dedicated Street Funding \$ for a total annual budget of approximately \$12.6 million.

Justification:

To improve and maintain pavement surfaces citywide. Program identified in the Vancouver Comprehensive Plan (2011-2030).

Priority Score:

Funded, unfunded projects outside the 6-year horizon, and programs were not scored.

2027-2032 TRANSPORTATION IMPROVEMENT PROGRAM

Project: Bridge Inspection Program
Project Extent: Citywide

To:

PROJECT SUMMARY

Project Type:	Program
Project Status:	Active
Funding Status:	Funded

PROJECT

Description:
 Ongoing citywide inspection and maintenance of our bridges, as required to meet state and federal regulations. This program, formerly contracted with Clark County, is being dropped by the county and now requires hiring professional services to complete federally mandated bridge inspections and load ratings. Program budgeted at \$50,000/yr.

Justification:
 Maintain safe bridges in compliance with state and federal regulations. Program identified in the Vancouver Comprehensive Plan (2011-2030).

Priority Score:
 Funded, unfunded projects outside the 6-year horizon, and programs were not scored.

FUNDING & SCHEDULE

Project Number:	PRG0256
Grant Funded:	No
Grant Amount:	\$
Total Project Cost:	\$
Start of Const. (year):	Ongoing

*All project timing will be dependent on coordination with other departments including streets, pavement management, wastewater, water, and surface water.
 **Utility CIP projects (WTR-XXX, SS-XXX, SW-XXX, SCIP-XXX) can be found in the 6 Year Public Works Capital Improvement Plan (CIP) document.

2027-2032 TRANSPORTATION IMPROVEMENT PROGRAM

Project: NE 28th St. - NE 142nd Ave. to NE 162nd Ave.
Project Extent: NE 142nd Ave.

To: NE 162nd Ave.

PROJECT SUMMARY

Project Type:	Arterial Improvements
Project Status:	Future
Funding Status:	Partially Funded

PROJECT

Description:
 Upgrade of existing 2-lane former rural road to urban 3-lane minor arterial (1 lane each direction plus center turn lane) with sidewalks, mobility lanes, streetlights, signals, school crossings, stormwater and sound walls where required. Project addresses capacity and improves pavement and safety conditions.

Justification:
 Upgrade of substandard urban arterial with level of service, poor pavement and safety deficiencies. Project identified in Vancouver Comprehensive Plan (2011-2030). Based on 2012 safety report this project has potentially high safety benefits.

Priority Score:
 Near-term

LEGEND

2027-2032 TRANSPORTATION IMPROVEMENT PROGRAM

Project: NE 18th St. - NE 87th Ave. to NE 97th Ave.
Project Extent: NE 87th Ave.

To: NE 97th Ave.

PROJECT SUMMARY

Project Type:	Arterial Improvements
Project Status:	Future
Funding Status:	Unfunded

PROJECT

Description:
 Long-planned construction of new minor arterial street (1 lane each direction plus turn lane) with mobility lanes, streetlights, sound walls (where required), a sidewalk on north side and shared use pathway on south side of street. Project provides planned east-west circulation. This is one of 5 phases to improve 18th St. from 87th Ave to 192nd Ave. (Outside 6-year horizon)

Justification:
 New roadway segment which provides planned east/west circulation. Project identified in Vancouver Comprehensive Plan (2011-2030). Environmental Assessment and alignment study completed and approved in 2004.

Priority Score:
 Funded, unfunded projects outside the 6-year horizon, and programs were not scored.

Project: NE 18th St. - NE 164th Ave. to NE 192nd Ave.
Project Extent: NE 164th Ave.

To: NE 192nd Ave.

PROJECT SUMMARY

Project Type:	Arterial Improvements
Project Status:	Future
Funding Status:	Unfunded

PROJECT

Description:
 Long-planned upgrade of 2-lane principal arterial, originally at rural standards, to increase safety and improve service levels. Improvements include additional travel lanes, mobility lanes, streetlights, sound walls, sidewalk on north side and shared use pathway on south side of street. This is one of 5 phases to improve 18th St. from 87th Ave to 192nd Ave. (Outside 6-year horizon)

Justification:
 Substandard urban arterial with level of service and safety deficiencies. Project identified in the Vancouver Comprehensive Plan (2011-2030). Environmental Assessment alignment study completed and approved in 2004.

Priority Score:
 Funded, unfunded projects outside the 6-year horizon, and programs were not scored.

Project: NE 18th St. - NE 141st Ave. to NE 162nd Ave.
Project Extent: NE 141st Ave.

To: NE 162nd Ave.

PROJECT SUMMARY

Project Type:	Arterial Improvements
Project Status:	Future
Funding Status:	Partially Funded

PROJECT

Description:
 Long-planned urban upgrade of 2-lane road to principal arterial standards. Originally built at rural standards to improve service and safety. Improvements include 5-lane principal arterial (2 lanes each direction plus turn lane) with separated and protected mobility lanes, streetlights, sound walls (where required), sidewalk and ADA ramps, and shared use pathway on south side of street. This is one of 5 phases to improve 18th St. from 87th Ave to 192nd Ave.

Justification:
 Substandard urban arterial with level of service and safety deficiencies. Environmental Assessment alignment study completed and approved in 2004. Project identified in the Vancouver Comprehensive Plan (2011-2030).

Priority Score:
 Medium-term

2027-2032 TRANSPORTATION IMPROVEMENT PROGRAM

Project: Main Street Promise

Project Extent: 5th St.

To: 15th St.

PROJECT AREA MAP

VICINITY MAP

PROJECT SUMMARY

Project Type:	Arterial Improvements
Project Status:	Active
Funding Status:	Funded

PROJECT

Description:
 Improve the safety of pedestrians, cyclists and motorists with a complete reconstruction of the existing street pavement and sidewalks. Project also includes upgrades to existing streetlights, traffic signals and pedestrian crossings. This is a project that has been under consideration for many years with conceptual design work having occurred in 2009, 2014 and 2019. A 2022 American Rescue Plan Act grant awarded to the project along with allocation of other local revenues is allowing this project to finally move to completion.

Justification:
 Originated from the Vancouver City Center Vision Plan (2007). Identified by regional arterial improvement plan.

Priority Score:
 Funded, unfunded projects outside the 6-year horizon, and programs were not scored.

2027-2032 TRANSPORTATION IMPROVEMENT PROGRAM

Project: NE 18th St. - NE 97th Ave. to NE 107th Ave.
Project Extent: NE 97th Ave.

To: NE 107th Ave.

PROJECT SUMMARY

Project Type:	Arterial Improvements
Project Status:	Active
Funding Status:	Funded

PROJECT

Description:
 Long-planned new urban arterial and upgrade of existing segments to current arterial standards. The improvement will be a multimodal facility including travel lanes, evaluation of roundabouts at intersections, mobility lanes, streetlights, ADA accessible pedestrian ramps, sound walls (where required), sidewalk, and a multi-use pathway. The east end of the project will connect to the recently constructed WSDOT/I-205 on ramp and roundabout. Design/ROW phases are continuing. This is one of 5 phases to improve 18th St. from 87th Ave to 192nd Ave. Identified by regional arterial improvement plan. Construction is planned for 2025.

Justification:
 Identified by regional arterial improvement plan.

Priority Score:
 Funded, unfunded projects outside the 6-year horizon, and programs were not scored.

Project: MacArthur Blvd., S. Lieser Rd. and St. Helens Ave. Intersection

Project Extent:

To:

PROJECT SUMMARY

Project Type: Arterial Improvements
Project Status: Future
Funding Status: Partially Funded

PROJECT

Description:
 Intersection project to modify an existing 4-way-stop intersection that is operating at near maximum capacity. Improvements include new traffic signal or roundabout, upgraded sidewalks, ADA ramps and streetlights to improve traffic system, safety, mobility, and accessibility.

Justification:
 Identified through community feedback, roadway operational analysis, and also identified through the Heights District Plan (2020).

Priority Score:
 Near-term

FUNDING & SCHEDULE

Project Number: PRJ100868

Grant Funded: Yes

Grant Amount: \$7,250,000

Total Project Cost: \$21,242,000

Start of Const. (year): Unknown

*All project timing will be dependent on coordination with other departments including streets, pavement management, wastewater, water, and surface water.
 **Utility CIP projects (WTR-XXX, SS-XXX, SW-XXX, SCIP-XXX) can be found in the 6 Year Public Works Capital Improvement Plan (CIP) document.

2027-2032 TRANSPORTATION IMPROVEMENT PROGRAM

Project: Columbia Shores Blvd. at Columbia Way - BNSF Undercrossing Widening
Project Extent:

To:

PROJECT SUMMARY	
Project Type:	Arterial Improvements
Project Status:	Future
Funding Status:	Unfunded

PROJECT	
Description:	Project to widen existing railroad undercrossing portal and improve Columbia Shores/Columbia Way intersection to address service levels and increase pedestrian and mobility access. Total scope of project is undefined. (Outside 6-year horizon)
Justification:	Level of service deficiency and sub-standard pedestrian and bicycle access conditions. Identified by staff and through the development review process.
Priority Score:	Funded, unfunded projects outside the 6-year horizon, and programs were not scored.

LEGEND	
Sanitary Sewer Projects	SCIP Projects
Surface Water Projects	Sewer Utility Service Boundary
Transportation Project	Water Utility Service Boundary
Water Projects	City Limits
Project Area	

FUNDING & SCHEDULE	
Project Number:	TBD
Grant Funded:	No
Grant Amount:	\$
Total Project Cost:	\$30,000,000
Start of Const. (year):	Unknown

*All project timing will be dependent on coordination with other departments including streets, pavement management, wastewater, water, and surface water.
 **Utility CIP projects (WTR-XXX, SS-XXX, SW-XXX, SCIP-XXX) can be found in the 6 Year Public Works Capital Improvement Plan (CIP) document.

2027-2032 TRANSPORTATION IMPROVEMENT PROGRAM

Project: NE 59th St. - NE 147th Ave. to NE 162nd Ave.
Project Extent: NE 147th Ave.

To: NE 162nd Ave.

PROJECT SUMMARY	
Project Type:	Arterial Improvements
Project Status:	Future
Funding Status:	Unfunded

PROJECT	
Description:	New minor arterial street (1 lane each direction plus turn lane) with sidewalks, ADA ramps, mobility lanes, streetlights and surface water treatment. Project will address circulation needs, improve safety, mobility, accessibility and stormwater management. (Outside 6-year horizon)
Justification:	New roadway segment needed to address circulation needs within sub district. Project identified as part of the Bircher area redevelopment.
Priority Score:	Funded, unfunded projects outside the 6-year horizon, and programs were not scored.

2027-2032 TRANSPORTATION IMPROVEMENT PROGRAM

Project: NE 184th Ave. - NE 4th St. to NE 18th St.
Project Extent: NE 4th St.

To: NE 18th St.

PROJECT SUMMARY

Project Type: Arterial Improvements
Project Status: Future
Funding Status: Unfunded

PROJECT

Description:
 New urban collector street (1 lane each direction plus turn lane), including sidewalks, ADA ramps, mobility lanes and streetlights. Developer will construct the section from SE 1st St. to 4th St. (Outside 6-year horizon)

Justification:
 This priority north to south circulation route is part of Section 30 Subarea Plan (2009) and also where this project originated.

Priority Score:
 Funded, unfunded projects outside the 6-year horizon, and programs were not scored.

2027-2032 TRANSPORTATION IMPROVEMENT PROGRAM

Project: NE 162nd Ave. - SE 1st St. to NE 9th St.
Project Extent: SE 1st St.

To: NE 9th St.

PROJECT SUMMARY

Project Type:	Arterial Improvements
Project Status:	Future
Funding Status:	Unfunded

PROJECT

Description:
 Upgrade of 5-lane road to 7-lane principal arterial street (3 lanes each direction plus turn lane), including sidewalks, ADA ramps, mobility lanes and streetlights. Roadway cross section will match NE 162nd Avenue to the north and south. (Outside 6-year horizon)

Justification:
 Improvement listed in Vancouver Comprehensive Plan (2011-2030).

Priority Score:
 Funded, unfunded projects outside the 6-year horizon, and programs were not scored.

Project Type:	Arterial Improvements
Project Status:	Future
Funding Status:	Unfunded

PROJECT	
Description:	Install additional turn lanes and other signal improvements at the intersection of NE 18th Street and NE 172nd Avenue. (Outside 6-year horizon)
Justification:	Currently the intersection of NE 18th Street and NE 172nd Avenue is signalized, but the intersection needs additional turn lanes and signal improvements. Identified through the development review process.
Priority Score:	Funded, unfunded projects outside the 6-year horizon, and programs were not scored.

2027-2032 TRANSPORTATION IMPROVEMENT PROGRAM

Project: SE 10th Street Sidewalks - SE 98th Avenue to SE Ellsworth Rd.

Project Extent: SE 98th Ave.

To: SE Ellsworth Rd.

PROJECT SUMMARY

Project Type:	Active Transportation
Project Status:	Future
Funding Status:	Unfunded

PROJECT

Description:
Install sidewalks and ADA ramps along SE 10th Street from SE 98th Avenue to Ellsworth Road, including on the north side between Ellsworth Rd. and I-205. (Outside 6-year horizon)

Justification:
Sidewalks along 10th Street would improve pedestrian safety, currently there are no sidewalks. Identified by staff and public. Remaining connection on the City's major east/west active transportation network corridor with McLoughlin, MacArthur, McGillivray and SE 34th St.

Priority Score:
Funded, unfunded projects outside the 6-year horizon, and programs were not scored.

2027-2032 TRANSPORTATION IMPROVEMENT PROGRAM

Project: Sidewalk Management Program
Project Extent: Citywide

To:

PROJECT SUMMARY

Project Type:	Program
Project Status:	Active
Funding Status:	Funded

PROJECT

Description:
 Program manages all sidewalks/ADA curb ramps within the City limits. Includes notification and assistance to land owners to correct sidewalk/ADA curb ramp deficiencies along their property frontage. Program is budgeted for \$500,000/yr.

Justification:
 To improve how we provide safe sidewalks and manage our sidewalk inventory.

Priority Score:
 Funded, unfunded projects outside the 6-year horizon, and programs were not scored.

2027-2032 TRANSPORTATION IMPROVEMENT PROGRAM

Project: Upper Main St. Complete Street and Paving Project - Fourth Plain Blvd. to E 37th St.

Project Extent: Fourth Plain Blvd.

To: E 37th St.

PROJECT SUMMARY

Project Type:	Active Transportation
Project Status:	Future
Funding Status:	Unfunded

PROJECT

Description:
 The Upper Main St. Complete Street Project between Fourth Plain Blvd. to 37th St. will restripe to improve traffic flow. Strategic improvements are incorporated throughout the length of the project and they include: new marked crossings with median islands at 31st and 35th Streets, removal of a northbound travel lane, wayfinding signage and speed limit reduction from 30 to 25 mph. Improvements to be coordinated with C-TRAN HWY 99 BRT project.

Justification:
 Improving safety, mobility, and providing additional modal choices for road users. Identified by staff and recommended by the Transportation and Mobility Commission.

Priority Score:
 Near-term

2027-2032 TRANSPORTATION IMPROVEMENT PROGRAM

Project: NE 115th Ave. – NE 16th St. to NE 18th St.

Project Extent: NE 16th St.

To: NE 18th St.

PROJECT AREA MAP

VICINITY MAP

PROJECT SUMMARY

Project Type:	Arterial Improvements
Project Status:	Active
Funding Status:	Partially Funded

PROJECT

Description:
This project proposes a new road connecting NE 16th Street and NE 18th Street in the vicinity of Four Seasons Lane and Joe's Place farm. This is partially funded through \$250K developer contribution and will require ROW from Joe's Place Farms and Bonneville Power Administration.

Justification:
Complete street network connection and loop two dead end streets. Identified through the development review process.

Priority Score:
Near-term

Project: NE Fourth Plain Blvd - Enhanced Pedestrian Crossings (SS4A)

Project Extent:

To:

PROJECT SUMMARY	
Project Type:	Active Transportation
Project Status:	Active
Funding Status:	Funded

PROJECT	
Description:	Pedestrian and ADA accessible improvements on E Fourth Plain Blvd. east of Fort Vancouver Way. Improvements include a HAWK beacon and pedestrian refuges on Fourth Plain Blvd. at Neals Lane and at Todd Rd./Rossiter Ln. Funded through TRANS-844 - Multimodal Safety and Accessibility.
Justification:	NE Fourth Plain enhanced pedestrian crossings to improve pedestrian safety and transit access. Originated from Fourth Plain Corridor Subarea Plan (2007), Fourth Plain Forward Action Plan (2015), Fourth Plain Pedestrian Safety and Access Implementation Strategy (2017).
Priority Score:	Funded, unfunded projects outside the 6-year horizon, and programs were not scored.

2027-2032 TRANSPORTATION IMPROVEMENT PROGRAM

Project: SE 29th St. - SE 176th Ave. to SE 192nd Ave.

Project Extent:

To:

PROJECT SUMMARY	
Project Type:	Arterial Improvements
Project Status:	Future
Funding Status:	Unfunded

PROJECT	
Description:	New 3-lane road built to principal arterial standards, to improve capacity, service and safety. Improvements include 3-lane principal arterial (1 lane each direction plus turn lane) with mobility lanes, streetlights, sound walls (where required), sidewalk and ADA ramps, and shared use pathway on south side of street. Developer built through developer contributions for the Vancouver Innovation Center project. (Outside 6-year horizon)
Justification:	Long planned new east-west arterial for capacity, demand management and bike/pedestrian access inside the Vancouver Innovation Center project area.
Priority Score:	Funded, unfunded projects outside the 6-year horizon, and programs were not scored.

2027-2032 TRANSPORTATION IMPROVEMENT PROGRAM

Project: NE Hazel Dell Ave./BBC Trail Crossing
Project Extent:

To:

PROJECT SUMMARY

Project Type:	Active Transportation
Project Status:	Active
Funding Status:	Funded

PROJECT

Description:
 The Burnt Bridge Creek Trail Crossing at Hazel Dell Ave does not have mobility crossings between the BBC trail in the City on the east side of Hazel Dell Ave and the BBC trail in the County on the west side of Hazel Dell Ave. Safety is a major concern for users of the facility as there are not designated crossings and the curvature of the road at this location and operating speed of vehicles is dangerous for non-driving, vulnerable road users.

Justification:
 The Project would increase safety for current and future users to access trails and recreation opportunities and increase connections between City and County resources for all users across the facility. Identified by staff and the public.

Priority Score:
 Funded, unfunded projects outside the 6-year horizon, and programs were not scored.

2027-2032 TRANSPORTATION IMPROVEMENT PROGRAM

Project: McGillivray Complete Street and Paving Project - Chkalov Dr. to Village Loop

Project Extent: Chkalov Dr.

To: Village Loop

PROJECT AREA MAP

VICINITY MAP

PROJECT SUMMARY

Project Type:	Active Transportation
Project Status:	Active
Funding Status:	Funded

PROJECT

Description:
The McGillivray Boulevard Complete Street Project explored opportunities to make McGillivray Boulevard safer and more comfortable for everyone to travel between SE Chkalov Drive and SE 164th Avenue. The Project evaluated how McGillivray Boulevard can better meet the needs of people walking, biking, using a mobility device, and driving. The Project explored opportunities and examine tradeoffs to improve safety on the corridor ahead of the pavement project planned to occur in 2026.

Justification:
Improving safety, mobility, and providing additional modal choices for road users. Identified by project team and recommended by the Transportation and Mobility Commission.

Priority Score:
Funded, unfunded projects outside the 6-year horizon, and programs were not scored.

2027-2032 TRANSPORTATION IMPROVEMENT PROGRAM

Project: NE 112th Ave. Complete Street and Paving Project - Mill Plain Blvd. to NE 28th St.

Project Extent: Mill Plain Blvd.

To: NE 28th St.

PROJECT AREA MAP

VICINITY MAP

PROJECT SUMMARY

Project Type:	Active Transportation
Project Status:	Active
Funding Status:	Funded

PROJECT

Description:

The NE 112th Avenue Complete Street Project between Mill Plain Blvd. and 28th St. will repave and restripe to one general purpose lane, center turn lane, widen travel lanes and add buffered/protected mobility lane between Mill Plain Blvd and 18th Street. At Evergreen Memorial Gardens north of 9th St, include a wide northbound lane shared between pedestrians, bicyclists, and small mobility users, with standard bicycle and small mobility lane southbound. Repave road and match existing configuration between 18th and 28th Streets. Long term – add two-way 12-ft shared use path one east side between 18th and 51st Streets.

Justification:

The NE 112th Avenue Complete Street Project explore the major street retrofit on 112th Ave between Mill Plain Blvd and 28th St, a street with well documented safety issues and vulnerable street users. Identified by 112nd Avenue Subarea Plan.

Priority Score:

Funded, unfunded projects outside the 6-year horizon, and programs were not scored.

2027-2032 TRANSPORTATION IMPROVEMENT PROGRAM

Project: St. Johns/St. James Complete Street and Paving Project - Fourth Plain Blvd. to City Limits
Project Extent: Fourth Plain Blvd. To: City Limits

PROJECT SUMMARY

Project Type:	Active Transportation
Project Status:	Future
Funding Status:	Unfunded

PROJECT

Description:
 The St. Johns/St. James Complete Street and Paving Project includes design concept options to create and implement safety and mobility improvements. The project limits include St Johns Blvd. from Fourth Plain Blvd. to SR 500, St. James Rd. from SR 500 to City Limits, and Fort Vancouver Way from Fourth Plain Blvd. to St. Johns Blvd.

Justification:
 These streets have documented safety issues and vulnerable street users. This project was identified by City Council as a priority corridor in the Complete Streets Policy and as a commercial corridor in the Comprehensive Plan. Concept Design Options Corridor Plan outlines improvements over time and was recommended by the TMC.

Priority Score:
 Near-term

2027-2032 TRANSPORTATION IMPROVEMENT PROGRAM

Project: SE 164th Ave. Safety/Mobility Improvements - Tech Center Dr. to SE 1st St.

Project Extent: Tech Center Dr.

To: 1st St.

PROJECT AREA MAP

VICINITY MAP

PROJECT SUMMARY

Project Type:	Active Transportation
Project Status:	Future
Funding Status:	Unfunded

PROJECT

Description:
SE 164th Avenue is the site of two top priority crash locations, the segment between SE 1st Street and Mill Plain Boulevard and the intersection with SE Tech Center Drive/12th Street. There have been three fatalities and two severe injuries on the segment and at the intersection, and four additional pedestrian injuries at the intersection. The project will include elements to address crash factors, such as treatments related to signal phases, intersection configurations, pavement markings, installation of refuge islands or raised crossings, and other measures. (Outside 6-year horizon)

Justification:
Improving safety and mobility. Identified from the Transportation System Safety Analysis (2018) and Local Road Safety Plan (2022).

Priority Score:
Funded, unfunded projects outside the 6-year horizon, and programs were not scored.

2027-2032 TRANSPORTATION IMPROVEMENT PROGRAM

Project: MacArthur Blvd. - Mill Plain to Blandford Dr.
Project Extent: E Mill Plan Blvd.

To: Blandford Dr.

PROJECT SUMMARY

Project Type:	Arterial Improvements
Project Status:	Active
Funding Status:	Funded

PROJECT

Description:
 Heights District Plan recommended roadway changes to improve safety, support multi-modal mobility, and add a linear greenbelt. Includes moving vehicle travel to the east side of the median and converting the west side to separated mobility lanes and pedestrian facilities, and open space. Will include improved ADA access and pedestrian crossings at Blandford, Phoenix, Texas and Burdick.

Justification:
 Provide economic development and improve access and mobility. Originated from Heights District Plan (2020).

Priority Score:
 Funded, unfunded projects outside the 6-year horizon, and programs were not scored.

*All project timing will be dependent on coordination with other departments including streets, pavement management, wastewater, water, and surface water.
 **Utility CIP projects (WTR-XXX, SS-XXX, SW-XXX, SCIP-XXX) can be found in the 6 Year Public Works Capital Improvement Plan (CIP) document.

2027-2032 TRANSPORTATION IMPROVEMENT PROGRAM

Project: Fourth Plain Boulevard Safety and Mobility - 121st Ave. to 127th Ave.

Project Extent: 121st Ave

To: 127th Ave

PROJECT SUMMARY

Project Type:	Active Transportation
Project Status:	Future
Funding Status:	Unfunded

PROJECT

Description:
 Fourth Plain Blvd. is one of the most dangerous roadways in the City, with high frequency and severity of crashes at several segments and intersections. The multimodal roadway sees people traveling in all modes, including vis bus rapid transit service. While the Fourth Plain Safety and Mobility Project will address several dangerous segments and intersections, the remaining intersection and segment are identified for safety improvements that could include roadway reconfigurations, changing signal phasing, installing lighting, and reducing crash exposure for vulnerable users. (Outside 6-year horizon)

Justification:
 Improving safety, mobility, and providing multimodal choices for road users. This project was identified in the Local Roads Safety Plan (2022) and Transportation System Safety Analysis (2018).

Priority Score:
 Funded, unfunded projects outside the 6-year horizon, and programs were not scored.

2027-2032 TRANSPORTATION IMPROVEMENT PROGRAM

Project: Heights Grand Loop - Devine Rd. to MacArthur Blvd.
Project Extent: Devine Rd.

To: MacArthur Blvd.

PROJECT SUMMARY

Project Type: Arterial Improvements
Project Status: Active
Funding Status: Funded

PROJECT

Description:
 Pursuant to the Heights District Master Plan, construct a network of street, pedestrian and mobility improvements that form a loop around the central core of the Tower Mall Redevelopment Area, providing connections between MacArthur Blvd, Devine Road and Mill Plain Blvd.

Justification:
 Improve safety, mobility and provide multmodal access. Project originated from the Heights District Master Plan (2020).

Priority Score:
 Funded, unfunded projects outside the 6-year horizon, and programs were not scored.

Project: E 18th Street Mobility Lane Improvements and Traffic Calming - Grand Blvd. to NE Burton Rd.
Project Extent: Grand Blvd. To: NE Burton Rd.

PROJECT AREA MAP

VICINITY MAP

PROJECT SUMMARY

Project Type: Active Transportation
Project Status: Future
Funding Status: Unfunded

PROJECT

Description:
 Improve safety and comfort of mobility lanes on E 18th Street between Grand Blvd. and NE Burton Rd. through the addition of a buffer zone and vertical elements where feasible. Explore narrowing existing travel lanes to slow vehicle traffic and create space for buffer, as well as other traffic calming treatments such as lowering the posted speeds. (Outside 6-year horizon)

Justification:
 Improve safety and mobility. This project originated in the Fourth Plain and Fort Vancouver Way Safety and Mobility Project (2023).

Priority Score:
 Funded, unfunded projects outside the 6-year horizon, and programs were not scored.

2027-2032 TRANSPORTATION IMPROVEMENT PROGRAM

Project: Fourth Plain Blvd. Multiuse Path - E 62nd Ave. to Andresen Rd.

Project Extent: E 62nd Ave

To: Andresen Rd.

PROJECT SUMMARY

Project Type:	Active Transportation
Project Status:	Future
Funding Status:	Partially Funded

PROJECT

Description:
Build an off-street multiuse facility between NE 62nd Avenue and NE Andresen Road to serve mobility users traveling along the corridor. Expand existing sidewalk on either north or south side of the road at the back of sidewalk to create additional space to be share with other mobility users. Use emblems or materials to differentiate between pedestrian and mobility user zones.

Justification:
Improve safety, mobility and provide multimodal access. This project originated in the Fourth Plain and Fort Vancouver Way Safety and Mobility Project (2023).

Priority Score:
Near-term

2027-2032 TRANSPORTATION IMPROVEMENT PROGRAM

Project: Safe Routes to Schools Program/Pedestrian Program
Project Extent: Citywide

To:

PROJECT SUMMARY

Project Type:	Program
Project Status:	Future
Funding Status:	Unfunded

PROJECT

Description:
 New program to be implemented Citywide in 2025. Work with schools to analyze school walking routes, gaps and safety issues to develop safe route projects. Program budget \$200,000 per year.

Justification:
 Develop safety and education programs in partnership with schools, neighbors, community organizations and agencies to increase safety and improve health for students and their families.

Priority Score:
 Funded, unfunded projects outside the 6-year horizon, and programs were not scored.

2027-2032 TRANSPORTATION IMPROVEMENT PROGRAM

Project: City Safety Program
Project Extent: Citywide

To:

PROJECT SUMMARY

Project Type: Program
Project Status: Future
Funding Status: Unfunded

PROJECT

Description:
 New program to be implemented Citywide. Provide resources to develop a comprehensive City safety program, which would include: management of the citywide collision dashboard, regular review of safety data and design of rapid response projects, response to collision hotspots identified through the Local Road Safety Plan, and high collision corridor. Program budget to be determined.

Justification:
 To improve overall traffic safety by identifying patterns and high collisions areas, then ultimately resulting in future TIP projects to resolve these issues.

Priority Score:
 Funded, unfunded projects outside the 6-year horizon, and programs were not scored.

2027-2032 TRANSPORTATION IMPROVEMENT PROGRAM

Project: Lighting for Pedestrian Safety Program
Project Extent: Citywide

To:

PROJECT SUMMARY

Project Type: Program
Project Status: Future
Funding Status: Unfunded

PROJECT

Description:
 New program to be implemented Citywide. Create GIS inventory of high-need locations based on pedestrian activity, locations of mid-block enhanced pedestrian crossings, locations that need additional crossings/lighting, high ridership bus stops, roadway characteristics, and crash data. Develop policy to prioritize installation and incorporate into development review. Program budget to be determined.

Justification:
 To improve pedestrian safety by identifying patterns and high need areas, then ultimately resulting in future TIP projects to resolve these issues.

Priority Score:
 Funded, unfunded projects outside the 6-year horizon, and programs were not scored.

Project: NE 112th Ave./SE Chkalov Dr. Complete Street and Paving Project - NE 28th St. to NE 51st St.
Project Extent: NE 28th St. To: NE 51st St.

PROJECT SUMMARY

Project Type:	Active Transportation
Project Status:	Future
Funding Status:	Partially Funded

PROJECT

Description:
 The NE 112th Avenue Complete Street Project between 28th St. and 51st St. will repave and restripe to add standard bicycle and small mobility lane. Configure alternate route Neighborhood Greenway with traffic calming treatments, and wayfinding signage. Shared lane markings between: 106th and 110th Ave, Morrow Road, Four Seasons Lane, and two-way 12-ft shared use path one east side between 18th and 51st Streets (long term).

Justification:
 The NE 112th Avenue Complete Street Project will explore a major street retrofit on 112th Ave between 28th St. and 51st St., a street with well documented safety issues and vulnerable street users. Identified by 112nd Avenue Subarea Plan.

Project: Upper Main St. Complete Street and Paving Project - E 39th to NE 45th St./Hazel Dell
Project Extent: E 39th St. To: NE 45th St./Hazel Dell

PROJECT SUMMARY

Project Type:	Active Transportation
Project Status:	Future
Funding Status:	Funded

PROJECT

Description:
 The Upper Main St. Complete Street Project between 37th St. to City Limits will repave and restripe. Strategic improvements are incorporated throughout the length of the project and they include: curb ramp upgrades, a southbound mobility lane between 39th and 40th Streets, a two way bikeway between 40th and the Covington House driveway exit, a multiuse path between the Covington House driveway and 45th Street, new marked crossings, a RRFB and median island at 39th and F Street, shared lane markings along F Street between 39th and 40th Street, new marked crossings at 40th and F Street and removal of a northbound travel lane and widen other travel lanes to accommodate buses. Improvements to be coordinated with C-TRAN HWY 99 BRT project.

Justification:
 Improving safety, mobility, and providing additional modal choices for road users. Identified by staff.

Priority Score:
 Funded, unfunded projects outside the 6-year horizon, and programs were not scored.

Project Extent:

To:

PROJECT AREA MAP

VICINITY MAP

PROJECT SUMMARY

Project Type:	Active Transportation
Project Status:	Future
Funding Status:	Unfunded

PROJECT

Description:

The E 33rd St. Complete Street Project is between I-5 overpass to Kauffman Ave and St. Johns Blvd. to Grand Blvd. will repave and restripe. Improvements will include: lower the speed limit to 25mph east of Main Street and 20mph west of Main Street, remove on street parking east of Main Street except for the north side of 33rd Street between Main and F Street and add buffered mobility lanes, remove median island at F Street and add RRFB with a raised crossing or speed cushions approaching the crossing, intersection improvements at 33rd and Grand, and add speed humps and shared lane markings between Kauffman and Main Street. Consider removing on street parking and adding buffered mobility lanes between Main and Columbia based on traffic volumes and speeds.

Justification:

This project will explore major mobility improvements and complete streets retrofits as there are well documented safety issues and vulnerable street users. This will be a combined efforts with E 29th Street Complete Street Project. Identified by staff and recommended by the Transportation and Mobility Commission.

Project: Fourth Plain for All (ARPA)

Project Extent:

To:

PROJECT SUMMARY	
Project Type:	Active Transportation
Project Status:	Active
Funding Status:	Funded

PROJECT	
Description:	The Fourth Plain for All transportation investment (\$4.2 million, federal funds ARPA) will improve safety by providing traffic calming on neighborhood streets, lighting, and pedestrian infrastructure on neighborhood streets. The project locations include: Falk Rd. near Plomondon St, NE 57th Ave between NE 55th St. and NE 34th St., N Grand Blvd. and E 33rd St., NE 18th St. between N Grand Blvd. and NE Stapleton Rd., E Fourth Plain Blvd at Evergreen Park, NE 18th St. between NE 65th Ave and Andresen Rd., NE 82nd Ave and NE 18th St., NE 72nd Ave and NE 55th St, NE Burton Rd. between E Fourth Plain Blvd. and NE 18th St, Nicholas Rd. and Bagley Park, NE 72nd Ave and NE 58th St, Plomondon St. and General Andreson Ave, and NE 62nd Ave and NE 33rd Cir.
Justification:	This project is a community-driven process to identify, prioritize, and implement a community vision that will improve conditions and expand opportunities for central Vancouver neighborhoods. This project seeks to address impacts from COVID-19 as well as long-standing disparities to foster a more prosperous and resilient community that thrives into the future.

Glossary Section

Glossary

FREQUENTLY USED TERMS AND ACRONYMS

ACP

Annual Construction Program or Asphalt Concrete Pavement

Access

Access is a means of approach to provide vehicular or pedestrian entrance or exit to a property. This may not necessarily include all movements.

Access Management

Access management is the process of providing and managing access to land development while preserving the regional flow of traffic in terms of safety, capacity and speed.

ADA

Americans with Disabilities Act

ADT

Average Daily Traffic

AIP

Arterial Improvement Program (TIB funding Program)

A.M. Peak Hour

Identified by a one-hour period in the morning when traffic flow increases. The A.M. peak hour typically occurs between 6:30 a.m. and 9 a.m. Traffic volumes occurring during the A.M. peak hour are used to calculate the overall operation of a roadway or intersection.

ARRA

American Recovery and Reinvestment Act. **Also referred to as an economic stimulus package, ARRA was enacted by Congress in February 2009. The act provides \$28.35 billion for improving and maintaining transportation infrastructure throughout the United States.**

Arterial

An arterial is a major street carrying the traffic of local and collector streets to and from freeways and other major streets. Arterials generally have traffic signals at intersections and may have limits on driveway spacing and street intersection spacing. Further details can be found in the Vancouver Municipal Code (11.80.040).

BBC

Burnt Bridge Creek

Biological Assessment

A biological assessment is an environmental document required for compliance with the Endangered Species Act for projects with federal funding or permits.

Capacity

The maximum rate of flow at which vehicles can be reasonably expected to traverse a point or uniform segment of a lane or roadway during a specified time period under prevailing roadway, traffic, and control conditions; usually expressed as vehicles per hour. In the project list spreadsheets *Capacity* is a term used to describe a subset of projects that upgrade existing substandard streets to urban arterial standards. This subset of projects typically improves more than just vehicle capacity. They also improve the pavement section, street lighting, bicycle, pedestrian and ADA facilities.

CAT

Citizen Advisory Team

CCRP

Corridor Congestion Relief Program (State funding source)

CDBG

Community Development Block Grant. Block grants are targeted for low and moderate-income areas. Improvements typically consist of sidewalk and capital improvement programs.

CIP

Capital Improvement Program

CMAQ

Congestion Mitigation and Air Quality Improvement (Federal funding source). This funding is for projects that create a direct air quality benefit, leading toward attainment or maintenance of a National Ambient Air Quality Standard (NAAQS).

CN

Construction

Collector Streets – Urban Collector

Collectors – Urban Collector. *Urban collector* provides for land access and traffic circulation within and between residential neighborhoods, and commercial and industrial areas. Direct access to adjacent land uses, however, is still subordinate to traffic movement. Access to abutting properties is controlled through the use of raised channelization, driveway spacing and pavement markings. Typically, collectors are not continuous for any great length, nor do they form a connected network by themselves.

Comprehensive Plan

Long-range plan, typically looking 20 to 50 years into the future, which is intended to guide growth and development of a community. Comprehensive Plans are required by the Washington State Growth Management Act for specific counties and cities in Washington State. The Plans establish goals and policies for managing population growth and land development while ensuring that the growth is adequately served by public facilities.

Concurrency

The Concurrency ordinance (VMC 11.95) was adopted in response to the Washington State Growth Management Act, which required local jurisdictions to adopt level-of-service (LOS) standards for the arterial road system and to ensure maintaining those standards when considering new development. This process is called *Concurrency*. Concurrency applies to any development, land division, site plan and conditional use permit approvals.

CTL

Center-Turn Lane

C-TRAN

Clark County Public Transportation Benefit Area Authority, the transit agency for Clark County, Washington.

CWP

Clean Water Program

DSF

Dedicated Street Funding (DSF) used to be called SFS (Street Funding Strategy). Refers to any revenue sources approved in 2015. Including Utility tax increase of 1.5%, Business License Surcharge increase, Transportation Benefit District (TBD) licensing fee revenues, and/or retired debt service being redirected to transportation improvements.

EA

Environmental Assessment

Environmental Review

The consideration of environmental factors as required by the Washington State Environmental Policy Act (SEPA). The environmental review process is the procedure used by agencies and others under SEPA for giving appropriate consideration to the environment in agency decision-making. (WAC 197-11-746).

Enhancement

In the project list spreadsheets *Capacity* is a term used to describe a subset of projects that upgrade pedestrian or bicycle facilities, or otherwise enhance the livability of the community through upgrades to the street system.

ESA

The Endangered Species Act was established in 1973 to preserve ecosystems of endangered and threatened species. The Act was recently amended to include various species of fish, wildlife, and plants throughout the United States.

FAST Act

On December 4, 2015, President Obama signed the Fixing America's Surface Transportation (FAST) Act (Pub. L. No. 114-94) into law—the first federal law in over a decade to provide long-term funding certainty for surface transportation infrastructure planning and investment. The FAST Act authorizes \$305 billion over fiscal years 2016 through 2020 for highway, highway and motor vehicle safety, public transportation, motor carrier safety, hazardous materials safety, rail, and research, technology, and statistics programs. The FAST Act maintains our focus on safety, keeps intact the established structure of the various highway-related programs we manage, continues efforts to streamline project delivery and, for the first time, provides a dedicated source of federal dollars for freight projects. With the enactment of the FAST Act, states and local governments are now moving forward with critical transportation projects with the confidence that they will have a federal partner over the long term.

Growth Management

A group of strategies used by a government to direct the timing, location and type of development in a community

Growth Management Act (GMA)

The State of Washington's Growth Management Act was adopted in 1990 to address the negative consequences of unprecedented population growth and suburban sprawl in the State. The GMA requires all cities and counties in the State to plan for future growth, with more extensive requirements for the largest and fastest-growing counties and cities in the State. Its requirements include guaranteeing the consistency of transportation and capital facilities plans with land use plans.

HAWK beacon

High intensity activated sidewalk (HAWK) beacon is a traffic control device used to stop traffic and allow pedestrians to cross safely.

HES

Hazard Elimination System/Safety (Federal Funding Source). The objective of this fund is to improve specific locations which constituted a danger to vehicles or pedestrians as shown by frequency of accidents.

HIS-HRRP

In 2008, a portion of the funding provided through Federal Transportation Act SAFETEA-LU was made available for safety grants. Funds were provided through the Highway Safety Improvement Program (HSIP) and the High Risk Rural Roads Program (HRRRP).

HOV

High-Occupancy Vehicle

Impacts

Impacts are the effects or consequences of actions. Environmental impacts are effects upon the elements of the environment.

Interchange

A system of interconnecting roadways in conjunction with one or more grade separations, providing for the movement of traffic between two or more roadways on different levels

Intersection

The general area where two or more roadways join or cross, within which are included the roadway and roadside facilities for traffic movements in that area.

ITS

Intelligent Transportation System

Land Use

The type of activity associated with a specific geographic area. Land-use categories can be broad (e.g., residential, retail, office, industrial, and recreational), or they can be very specific (e.g., single-family residential, convenience market, or elementary school). In order to estimate trip generation characteristics for a specific geographic area, it is necessary to know both the type and intensity of land use (e.g., single-family residential land use at a development intensity of eight units per acre).

Level of Service (LOS)

The Level of Service is a grading system developed by the transportation profession to quantify the degree of comfort (including such elements as speed, travel time, number of stops, total amount of stopped delay, and impediments caused by other vehicles) afforded to drivers as they travel through an intersection or roadway segment. LOS is expressed as a letter grade that ranges from "A", indicating that drivers will experience little, if any delay, to "F", indicating significant traffic congestion and driver delay will occur.

Mitigation

(1) Avoiding impacts altogether by not taking a certain action or parts of an action; (2) minimizing impacts by limiting the degree or magnitude of the action and its implementation by using appropriate technology, or by taking affirmative steps to avoid or reduce impacts; (3) rectifying impacts by repairing, rehabilitating, or restoring the affected environment; (4) reducing or eliminating impacts over time by preservation and maintenance operations during the life of the action; (5) compensating for impacts by replacing, enhancing or providing substitute resources or environments; and/or, (6) monitoring impacts and taking appropriate corrective measures (WAC 197-11-768).

Mode

The means by which travel is accomplished. Alternative modes of travel include walking, bicycling, auto, bus, light rail, airplane, ferry, etc.

MVFT

Motor Vehicle Fuel Tax

NAAQS

The National Ambient Air Quality Standards were set up by the Environmental Protection Agency (EPA) to help mitigate the health impacts of air pollution. EPA established NAAQS measure for six pollutants that include carbon monoxide, ozone, particulate matter, lead, sulfur dioxide, and nitrous oxide.

Non-attainment Area

Geographic area in which air pollution levels exceed the NAAQS. (See above.)

PCI

Pavement Condition Index (PCI) provides a snapshot of the pavement health of a road. It is measured on a scale of 0 to 100 (where 100 means a newly paved road).

Peak Hour

A period of 60 consecutive minutes during which an intersection or roadway system experiences the greatest amount of traffic volume

PE

Preliminary Engineering

P.M. Peak Hour

A one-hour period in the afternoon or evening when traffic flow increases. The P.M. peak hour typically occurs between 4 and 6 p.m. Traffic volumes occurring during the P.M. peak hour are used to calculate the overall operation of a roadway or intersection.

PSE

Plans, Specifications and Estimates

PSMP

Pedestrian Safety and Mobility Program

PWB

Public Works Board. The Public Works Board was created by the 1985 State Legislature. The Board is composed of local government officials, special purpose district representatives and private sector members. The mission of the Washington State Public Works Board is “to assist Washington’s local governments and private water systems in meeting their public works needs to sustain livable communities.” The Board is authorized to loan money to counties, cities, and special purpose districts to repair, replace, or create

domestic water systems, sanitary sewer systems, storm water systems, roads, streets, solid waste and recycling facilities and bridges.

PWTF

Public Works Trust Fund. This trust fund is administered by the Public Works Board. The PWTF Construction and Pre-construction Loan Programs provide funds to design, repair, replace or create a facility. These loans have a 5- to 20-year term with an interest rate of one-half percent. Maximum for any agency is \$10 million per biennium.

RCW

Revised Code of Washington. Contains all laws of the state of general and permanent nature.

REET

Real-estate Excise Tax

RRFB

Rectangular Rapid Flashing Beacons

RTC

Southwest Washington Regional Transportation Council. RTC is the regional transportation planning agency for Clark, Klickitat and Skamania counties.

Right-of-Way/ROW

Right-of-way is property held by the City for existing or future public roads or other public improvements.

Roadway

A roadway is the improved portion of an easement or right-of-way, excluding curbs, sidewalks and ditches. Road, roadway and street are used as interchangeable terms.

Roadway Conditions

The geometric characteristics of the street or highway, including the type of facility and its development environment, the number of lanes (by direction), lane and shoulder widths, lateral clearances, design speed, and horizontal and vertical alignments.

Roadway Section

A roadway section is a cross-section of a roadway which displays, travel lanes, turning lanes, bike lanes, sidewalks and medians with their respective dimensions. Each classification of roadway has a corresponding roadway section.

SAFETEA-LU

Safe, Accountable, Flexible, Efficient Transportation Equity Act - A Legacy for Users (SAFETEA-LU. The Act was signed into law by the President on August 10, 2005.). With guaranteed funding for highways, highway safety and public transportation totaling

\$244.1 billion, SAFETEA-LU represents the largest surface transportation investment in our nation's history. The two landmark bills – the Intermodal Surface Transportation Efficiency Act of 1991 (ISTEA) and the Transportation Equity Act for the 21st Century (TEA-21) – shaped the highway program to meet the nation's changing transportation needs. SAFETEA-LU builds on this firm foundation, supplying the funds and refining the programmatic framework for investments needed to maintain and grow our vital transportation infrastructure.

SEPA

State Environmental Policy Act. SEPA is a state law requiring agencies to consider the environmental consequences of their decisions. (WAC 197-11-790).

SFS

Street Funding Strategy (SFS) now being referred to as DSF (Dedicated Street Funding). Refers to any revenue sources approved in 2015. Including Utility tax increase of 1.5%, Business License Surcharge increase, Transportation Benefit District (TBD) licensing fee revenues, and/or retired debt service being redirected to transportation improvements.

Signal Warrant

A criterion that must be met before the installation of a traffic signal can be considered.

Significant/Significance

- 1) *Significant* as used in SEPA means a reasonable likelihood of more than a moderate adverse impact on environment quality.
- 2) *Significance* involves context and intensity and does not lend itself to a formula or quantifiable test. Context may vary with the physical setting. Intensity depends on magnitude and duration of an impact. Severity of an impact should be weighed along with the likelihood of its occurrence. An impact may be *significant* if its chance of occurrence is not great, but the resulting environmental impact would be severe if it occurred. (WAC 197-11-794).

STP

Surface Transportation Program (Federal funding source). The objective of the STP is to fund construction, reconstruction, resurfacing, restoration and rehabilitation of roads functionally classified as arterials.

STP-C

Surface Transportation Program – Competitive Grant

STP-E

Surface Transportation Program – Enhancement Grant

STP-TMA

Surface Transportation Program – Transportation Management Area Grant

SWCAA

Southwest Washington Clean Air Agency. A government agency responsible for air pollution control and planning in Clark, Cowlitz, Lewis, Skamania and Wahkiakum Counties.

SYS

Traffic Signal System Improvement

TBD

Transportation Benefit District (TBD). In the state of Washington, a Transportation Benefit District is a quasi-municipal corporation and independent taxing district that can raise revenue for specific transportation projects, usually through vehicle license fees or sales taxes. RCW 36.73 authorizes cities (see also RCW 35.21.225) and counties to form TBDs. In other uses, TBD is a common term meaning “to be determined.”

TDM

Transportation Demand Management. A demand-based technique for reducing traffic congestion, such as ride-sharing programs and flexible work schedules enabling employees to commute to and from work outside of peak hours.

TEA-21

The Transportation Equity Act for the 21st Century was signed on June 9, 1998, superseding the Intermodal Surface Transportation Efficiency Act (ISTEA) of 1991. This bill provides Federal transportation dollars for Federal, State and Local agencies. The majority of benefits associated with ISTEA are continued or expanded upon through TEA-21. Also, see SAFETEA-LU.

TIB

Transportation Improvement Board. A state funding agency that administers several state funding programs. The mission of the TIB is to assist local agencies to preserve and improve transportation systems by providing financial assistance, supporting economic development, promoting multi-jurisdictional and multi-modal coordination and to promote public/private cooperation.

TIF

Transportation Impact Fee. TIF is the traffic impact component of a development impact fee. An impact fee is a fee levied on a developer by the county as compensation for expected effects of the development.

TIMACS

Transportation Information Management and Control System

TIP

Six-Year Transportation Improvement Program

TPP

Transportation Partnership Program (TIB Funding Program)

TS

Traffic Signal Project

TSNS

Traffic Safety Near Schools

TSO

Traffic Signal Optimization

TSP

Transportation System Plan

UAP

Urban Arterial Program (State funding source), formally known as the Arterial Improvement Program. This program was established by the State in 1967 as the Urban Arterial Trust Account (UATA) and designated as the AIP in July 1999. The purpose of this program is to fund city and urban county arterial road and street projects to reduce congestion and improve safety, geometrics and structural concerns.

UCP

Urban Corridor Program (State funding source), formally known as the Transportation Partnership Program. This program was established by the State in 1988 as the Transportation Improvement Account (TIA) and designated as the TPP in July 1999. The purpose of the program is to fund projects on the regional transportation plan that are necessitated by existing or future congestion due to economic growth.

UR-SP

Urban Sidewalk Program (State funding source), formally known as the Pedestrian Safety and Mobility Program. This program was established by the TIB in 1994 as the Pedestrian Facilities Program (TIA-PFP) and designated as the PSMP in July 1999. The program goal is to enhance and promote pedestrian mobility by providing funding for pedestrian projects that provide access and connectivity of pedestrian facilities.

V/C Ratio

Ratio of volume to capacity for a traffic facility

Volume

Number of vehicles passing a point on a lane or roadway during some time interval, often taken to be one hour, but may also be expressed in terms such as sub-hourly, daily or annually.

WAC

Washington Administrative Code. The WAC is laws adopted by state agencies to implement state legislation.

WSDOT

Washington State Department of Transportation. WSDOT is a department of the State of Washington responsible for transportation-related planning, management and coordination.

WW&RP

Washington Wildlife and Recreation Program

Zoning

A map and ordinance text which divides a city or county into land use “zones” and specifies the types of land uses, setbacks, lot size, and size restrictions for buildings within each zone.

DRAFT

Supplementary Document Section

This section is intended for those using screen readers and complements the 6-Year Project Lists Section and Project Details Section of the Transportation Improvement Plan.

Project ID	Workday ID	Project Name	Project Extent - Start	Project Extent - End	Project Type	Project Status	Funding Status	Project Description	Project Justification	Priority Score	Grant Fund?	Grant Amount	Estimated Total Cost	Traffic Impact Fees Area	Estimated Start of Construction
TRANS-0237	PRJ072330	Traffic Signal and Lighting Sustainability	Citywide		Program	Active	Funded	Ongoing program to update traffic signals at locations throughout the City. Updates may include but are not limited to adding left-turn phasing, signal heads, pedestrian push-button and detectors, as well as removing a type of operation, changing detector setup or making other improvements. Dedicated Street Funding contribute \$200K/yr, with annual program budget totaling \$415,000/yr.	Traffic signals need to be upgraded or replaced as they reach the end of their useful lives. This program reflects the implementation of that philosophy.	Funded, unfunded projects outside the 6-year horizon, and programs were not scored.	No			N/A	Ongoing
TRANS-0240	PRG0102	Neighborhood Traffic Calming Program	Citywide		Program	Active	Funded	Projects implemented as part of the ongoing Neighborhood Traffic Calming Program are intended to help slow traffic and enhance neighborhood livability. These projects may include education or infrastructure to reduce driver speeds; new or improved facilities for people walking, biking, and using mobility devices; and other strategies to increase safety and mobility in Vancouver neighborhoods. Dedicated Street Funding contribute \$130K/yr, with annual program budget totalling \$300,000/yr.	The Neighborhood Traffic Management Program is important to reaching our Community Vision of "... Safe neighborhoods with a distinct quality and proud identities linked by parks and greenspace as well as a transportation system that provides mobility option".	Funded, unfunded projects outside the 6-year horizon, and programs were not scored.	No			N/A	Ongoing
TRANS-0241	TBD	Pavement Preservation Program	Citywide		Program	Active	Funded	This ongoing program improve and maintain pavement surfaces through surface overlay, micro surfacing and slurry treatments at multiple locations citywide. Upgrades may include new ADA ramps, traffic striping and markings. 2026 projects will preserve about 70 lane miles and pave about 15 lane miles. 2026 corridors: McGillivray from Chklov to SE 20th, NE 112th Ave from Mill Plain to 28th St, Mill Plain from I-205 to SE 164th Ave, and SE 164th Ave from SE 34th St to Mill Plain. Annual budget of approximately \$12 Million in existing money + approximately \$600,000 in Dedicated Street Funding \$ for a total annual budget of approximately \$12.6 million.	To improve and maintain pavement surfaces citywide. Program identified in the Vancouver Comprehensive Plan (2011-2030).	Funded, unfunded projects outside the 6-year horizon, and programs were not scored.	No			N/A	Ongoing
TRANS-0245	PRG0256	Bridge Inspection Program	Citywide		Program	Active	Funded	Ongoing citywide inspection and maintenance of our bridges, as required to meet state and federal regulations. This program, formerly contracted with Clark County, is being dropped by the county and now requires hiring professional services to complete federally mandated bridge inspections and load ratings. Program budgeted at \$50,000/yr.	Maintain safe bridges in compliance with state and federal regulations. Program identified in the Vancouver Comprehensive Plan (2011-2030).	Funded, unfunded projects outside the 6-year horizon, and programs were not scored.	No			N/A	Ongoing
TRANS-0274	TBD	NE 28th St. - NE 142nd Ave. to NE 162nd Ave.	NE 142nd Ave.	NE 162nd Ave.	Arterial Improvements	Future	Partially Funded	Upgrade of existing 2-lane former rural road to urban 3-lane minor arterial (1 lane each direction plus center turn lane) with sidewalks, mobility lanes, streetlights, signals, school crossings, stormwater and sound walls where required. Project address capacity and improves pavement and safety conditions.	Upgrade of substandard urban arterial with level of service, poor pavement and safety deficiencies. Project identified in Vancouver Comprehensive Plan (2011-2030). Based on 2012 safety report this project has potentially high safety benefits.	Near-term	Yes	\$ 5,750,000	\$ 14,494,000	Pacific	Unknown
TRANS-0279	TBD	NE 49th St. - NE 122nd Ave. to NE 137th Ave.	NE 122nd Ave.	NE 137th Ave.	Arterial Improvements	Future	Partially Funded	Upgrade of existing 2-lane street to 3-lane urban minor arterial (1 lane each direction and turn lane) with sidewalks, ADA Ramps, mobility lanes, and streetlights. Project helps improve capacity and safety. (Outside 6-year horizon)	Upgrade of substandard urban arterial with level of service and safety deficiencies. Project identified in Vancouver Comprehensive Plan (2011-2030).	Near-term	Yes	\$ 562,500	\$ 11,000,000	Pacific	Unknown
TRANS-0281	TBD	NE 18th St. - NE 87th Ave. to NE 97th Ave.	NE 87th Ave.	NE 97th Ave.	Arterial Improvements	Future	Unfunded	Long-planned construction of new minor arterial street (1 lane each direction plus turn lane) with mobility lanes, streetlights, sound walls (where required), a sidewalk on north side and shared use pathway on south side of street. Project provides planned east-west circulation. This is one of 5 phases to improve 18th St. from 87th Ave to 192nd Ave. (Outside 6-year horizon)	New roadway segment which provides planned east/west circulation. Project identified in Vancouver Comprehensive Plan (2011-2030). Environmental Assessment and alignment study completed and approved in 2004.	Funded, unfunded projects outside the 6-year horizon, and programs were not scored.	No		\$ 16,000,000	Columbia & Cascade	Unknown
TRANS-0349	TBD	NE 18th St. - NE 164th Ave. to NE 192nd Ave.	NE 164th Ave.	NE 192nd Ave.	Arterial Improvements	Future	Unfunded	Long-planned upgrade of 2-lane principal arterial, originally at rural standards, to increase safety and improve service levels. Improvements include additional travel lanes, mobility lanes, streetlights, sound walls, sidewalk on north side and shared use pathway on south side of street. This is one of 5 phases to improve 18th St. from 87th Ave to 192nd Ave. (Outside 6-year horizon)	Substandard urban arterial with level of service and safety deficiencies. Project identified in the Vancouver Comprehensive Plan (2011-2030). Environmental Assessment alignment study completed and approved in 2004.	Funded, unfunded projects outside the 6-year horizon, and programs were not scored.	No		\$ 20,000,000	Columbia & Cascade	Unknown
TRANS-0444	PRJ100788	NE 18th St. - NE 141st Ave. to NE 162nd Ave.	NE 141st Ave.	NE 162nd Ave.	Arterial Improvements	Future	Partially Funded	Long-planned urban upgrade of 2-lane road to principal arterial standards. Originally built at rural standards to improve service and safety. Improvements include 5-lane principal arterial (2 lanes each direction plus turn lane) with separated and protected mobility lanes, streetlights, sound walls (where required), sidewalk and ADA ramps, and shared use pathway on south side of street. This is one of 5 phases to improve 18th St. from 87th Ave to 192nd Ave.	Substandard urban arterial with level of service and safety deficiencies. Environmental Assessment alignment study completed and approved in 2004. Project identified in the Vancouver Comprehensive Plan (2011-2030).	Medium-term	Yes	\$ 7,500,000	\$ 18,350,000	Pacific & Cascade	Unknown
TRANS-0495	PRJ100358	Main Street Promise	5th St.	15th St.	Arterial Improvements	Active	Funded	Improve the safety of pedestrians, cyclists and motorists with a complete reconstruction of the existing street pavement and sidewalks. Project also includes upgrades to existing streetlights, traffic signals and pedestrian crossings. This is a project that has been under consideration for many years with conceptual design work having occurred in 2009, 2014 and 2019. A 2022 American Rescue Plan Act grant awarded to the project along with allocation of other local revenues is allowing this project to finally move to completion.	Originated from the Vancouver City Center Vision Plan (2007). Identified by regional arterial improvement plan.	Funded, unfunded projects outside the 6-year horizon, and programs were not scored.	Yes	\$ 6,000,000	\$ 25,000,000	Columbia	2024
TRANS-0527	PRJ071616	NE 18th St. - NE 97th Ave. to NE 107th Ave.	NE 97th Ave.	NE 107th Ave.	Arterial Improvements	Active	Funded	Long-planned new urban arterial and upgrade of existing segments to current arterial standards. The improvement will be a multimodal facility including travel lanes, evaluation of roundabouts at intersections, mobility lanes, streetlights, ADA accessible pedestrian ramps, sound walls (where required), sidewalk, and a multi-use pathway. The east end of the project will connect to the recently constructed WSDOT/I-205 on ramp and roundabout. Design/ROW phases are continuing. This is one of 5 phases to improve 18th St. from 87th Ave to 192nd Ave. Identified by regional arterial improvement plan. Construction is planned for 2025.	Identified by regional arterial improvement plan.	Funded, unfunded projects outside the 6-year horizon, and programs were not scored.	Yes	\$ 10,000,000	\$ 25,000,000	Pacific & Cascade	2025
TRANS-0603	TBD	MacArthur Blvd., S. Lieser Rd. and St. Helens Ave. Intersection			Arterial Improvements	Future	Partially Funded	Intersection project to modify an existing 4-way-stop intersection that is operating at near maximum capacity. Improvements include new traffic signal or roundabout, upgraded sidewalks, ADA ramps and streetlights to improve traffic system, safety, mobility, and accessibility.	Identified through community feedback, roadway operational analysis, and also identified through the Heights District Plan (2020).	Near-term	No		\$ 4,729,400	Cascade	Unknown
TRANS-0607	PRJ100868	NE 192nd Ave. - SE 1st St. to NE 18th St.	SE 1st St.	NE 18th St.	Arterial Improvements	Future	Partially Funded	Urban upgrade of existing 2-lane street. Improvements include additional travel lanes, sidewalks, mobility lanes, ADA ramps and streetlights to improve system, safety, mobility, and accessibility. Received a federal grant to begin the design phase and RTC grant for ROW.	This project originated from Section 30 Subarea Plan (2009).	Near-term	Yes	\$ 7,250,000	\$ 21,242,000	Cascade	Unknown
TRANS-0680	TBD	Columbia Shores Blvd. at Columbia Way - BNSF Undercrossing Widening			Arterial Improvements	Future	Unfunded	Project to widen existing railroad undercrossing portal and improve Columbia Shores/Columbia Way intersection to address service levels and increase pedestrian and mobility access. Total scope of project is undefined. (Outside 6-year horizon)	Level of service deficiency and sub-standard pedestrian and bicycle access conditions. Identified by staff and through the development review process.	Funded, unfunded projects outside the 6-year horizon, and programs were not scored.	No		\$ 30,000,000	Columbia	Unknown
TRANS-0712	TBD	NE 59th St. - NE 147th Ave. to NE 162nd Ave.	NE 147th Ave.	NE 162nd Ave.	Arterial Improvements	Future	Unfunded	New minor arterial street (1 lane each direction plus turn lane) with sidewalks, ADA ramps, mobility lanes, streetlights and surface water treatment. Project will address circulation needs, improve safety, mobility, accessibility and stormwater management. (Outside 6-year horizon)	New roadway segment needed to address circulation needs within sub district. Project identified as part of the Bircher area redevelopment.	Funded, unfunded projects outside the 6-year horizon, and programs were not scored.	No		\$ 9,000,000	Pacific	Unknown
TRANS-0716	TBD	NE 9th St. - NE 172nd Ave. to NE 192nd Ave.	NE 172nd Ave.	NE 192nd Ave.	Arterial Improvements	Future	Unfunded	New urban collector street (1 lane each direction plus turn lane), including sidewalks, ADA ramps, mobility lanes, and streetlights.	This priority east-west circulation route is part of Section 30 Subarea Plan (2009) and also where this project originated.	Medium-term	No		\$ 12,000,000	Cascade	Unknown
TRANS-0717	TBD	NE 184th Ave. - NE 4th St. to NE 18th St.	NE 4th St.	NE 18th St.	Arterial Improvements	Future	Unfunded	New urban collector street (1 lane each direction plus turn lane), including sidewalks, ADA ramps, mobility lanes and streetlights. Developer will construct the section from SE 1st St. to 4th St. (Outside 6-year horizon)	This priority north to south circulation route is part of Section 30 Subarea Plan (2009) and also where this project originated.	Funded, unfunded projects outside the 6-year horizon, and programs were not scored.	No		\$ 14,000,000	Cascade	Unknown
TRANS-0718	TBD	NE 162nd Ave. - SE 1st St. to NE 9th St.	SE 1st St.	NE 9th St.	Arterial Improvements	Future	Unfunded	Upgrade of 5-lane road to 7-lane principal arterial street (3 lanes each direction plus turn lane), including sidewalks, ADA ramps, mobility lanes and streetlights. Roadway cross section will match NE 162nd Avenue to the north and south. (Outside 6-year horizon)	Improvement listed in Vancouver Comprehensive Plan (2011-2030).	Funded, unfunded projects outside the 6-year horizon, and programs were not scored.	No		\$ 13,000,000	Cascade	Unknown
TRANS-0719	TBD	NE 112th Ave. - E Mill Plain Blvd. to NE 28th St.	E Mill Plain Blvd.	NE 28th St.	Arterial Improvements	Future	Unfunded	Corridor improvements to bring NE 112th Ave. up to urban arterial standards, and address safety and accessibility issues for all modes of travel. (Outside 6-year horizon)	Originated from 112th Corridor Subarea Plan (2011) and the NE 112th Safety and Mobility Project (2024).	Funded, unfunded projects outside the 6-year horizon, and programs were not scored.	No		\$ 3,000,000	Columbia & Cascade	Unknown
TRANS-0722	TBD	NE St. Johns Blvd. and NE 68th St.			Signal & Transportation Improvements	Future	Unfunded	Modify existing intersection to improve traffic safety and level of service. (Outside 6-year horizon)	Level of service deficiency. Identified through the development review process and included in the St. Johns - St. James Safety and Mobility Project for active transportation improvements.	Funded, unfunded projects outside the 6-year horizon, and programs were not scored.	No		\$ 1,000,000	Columbia	Unknown

TRANS-0723	TBD	SE 20th St. and SE 176th Ave.			Arterial Improvements	Future	Unfunded	Modify existing intersection to improve traffic safety, operations and level of service.	Level of service deficiency. Identified through the development review process.	Near-term	No		\$ 500,000	Cascade	Unknown
TRANS-0740	PRJ071455	Evergreen Hwy. Pathway - SE Chelsea Ave. to SE Image Rd.	SE Chelsea Ave.	SE Image Rd.	Active Transportation	Active	Funded	Upgrade roadway with 6 to 10 foot pedestrian pathway on south side, a priority east-west pedestrian and mobility lane corridor. Construction to begin in 2025.	Substandard roadway and shoulder conditions, priority east/west pedestrian and bicycle corridor. Originated from Clark County Parks and Recreation Scenic Evergreen Trail Plan (1994), Evergreen Highway Trail Project Scoping Report (2009), and Evergreen Corridor Management Strategy (2016).	Funded, unfunded projects outside the 6-year horizon, and programs were not scored.	Yes	\$ 2,500,000	\$ 4,000,000	Cascade	2025
TRANS-0741	TBD	Evergreen Hwy. Pathway - Columbia Springs to SE 164th Ave.	SE Silver Springs Dr.	SE 164th Ave.	Active Transportation	Active	Unfunded	Upgrade roadway with 6 to 10 foot pedestrian pathway, a priority east-west pedestrian and mobility lane corridor. (Outside 6-year horizon)	Substandard Roadway and shoulder conditions, priority east/west pedestrian and bicycle corridor. Originated from Clark County Parks and Recreation Scenic Evergreen Trail Plan (1994), Evergreen Highway Trail Project Scoping Report (2009), and Evergreen Corridor Management Strategy (2016).	Funded, unfunded projects outside the 6-year horizon, and programs were not scored.	No		\$ 7,000,000	Cascade	Unknown
TRANS-0742	TBD	Evergreen Hwy. Pathway - SE 164th Ave. to east City Limits	SE 164th Ave.	East City Limits	Active Transportation	Future	Unfunded	Upgrade roadway with 6 to 10 foot pedestrian pathway on south side, a priority east-west pedestrian and mobility lane corridor. (Outside 6-year horizon)	Substandard Rdway and shoulder conditions, priority east/west pedestrian and bicycle corridor. Originated from Clark County Parks and Recreation Scenic Evergreen Trail Plan (1994), Evergreen Highway Trail Project Scoping Report (2009), and Evergreen Corridor Management Strategy (2016).	Funded, unfunded projects outside the 6-year horizon, and programs were not scored.	No		\$ 7,000,000	Cascade	Unknown
TRANS-0746	PRJ071251	SE McGillivray Blvd. and SE 166th Ave.			Signal & Transportation Improvements	Future	Unfunded	Improve intersection with urban roundabout, including upgrades to ADA ramps and streetlights. (Outside 6-year horizon)	Level of service deficiency. Identified through the development review process.	Funded, unfunded projects outside the 6-year horizon, and programs were not scored.	No		\$ 100,000	Cascade	Unknown
TRANS-0818	TBD	NE Burton/28th Street - NE Andresen Rd. to NE 138th Ave.	NE Andresen Rd.	NE 138th Ave.	Signal & Transportation Improvements	Future	Unfunded	Installation of fiber and connections between fiber optic cables to traffic signal controllers to improve signal operations along the corridor. (Outside 6-year horizon)	Identified by regional arterial improvement plan.	Funded, unfunded projects outside the 6-year horizon, and programs were not scored.	No		\$ 2,000,000	Pacific	Unknown
TRANS-0819	TBD	NW Fruit Valley Rd. at La Frambois Rd.			Signal & Transportation Improvements	Future	Unfunded	Upgrade existing signal to current standards. (Outside 6-year horizon)	Identified by staff and through the development review process.	Funded, unfunded projects outside the 6-year horizon, and programs were not scored.	No		\$ 1,000,000	Columbia	Unknown
TRANS-0825	TBD	NE 54th Street - NE 15th Ave. to NE Saint James Rd.	NE 15th Ave.	NE Saint James Rd.	Arterial Improvements	Future	Unfunded	Upgrade of existing 2-lane road to an urban arterial (1 lane each direction plus turn lane), including sidewalks, ADA ramps, mobility lanes and streetlights to improve safety, mobility, accessibility, and level of service. New signal to be added at NE 54th St. and St John's Blvd. (Outside 6-year horizon)	Upgrade of substandard urban arterial with level of service and safety deficiencies. Identified through the development review process.	Funded, unfunded projects outside the 6-year horizon, and programs were not scored.	No		\$ 14,000,000	Columbia	Unknown
TRANS-0826	TBD	NE 104th Avenue - SE Mill Plain Blvd to NE 14th Street	SE Mill Plain Blvd.	NE 14th St.	Arterial Improvements	Future	Unfunded	Upgrade of existing 2-lane road to an urban arterial (1 lane each direction plus turn lane), including sidewalks, ADA ramps, mobility lanes and streetlights. (Outside 6-year horizon)	Upgrade of substandard urban arterial with level of service and safety deficiencies. Identified through the development review process.	Funded, unfunded projects outside the 6-year horizon, and programs were not scored.	No		\$ 12,000,000	Cascade	Unknown
TRANS-0827	TBD	NE 104th Avenue - NE 14th Street to NE 18th Street	NE 14th St.	NE 18th St.	Arterial Improvements	Future	Unfunded	New arterial street (1 lane each direction plus turn lane), with sidewalks, ADA ramps, mobility lanes and streetlights, to increase safety, mobility, accessibility and level of service. (Outside 6-year horizon)	New urban arterial will address level of service and accessibility issues. Identified through the development review process.	Funded, unfunded projects outside the 6-year horizon, and programs were not scored.	No		\$ 12,000,000	Cascade	Unknown
TRANS-0836	TBD	E. Evergreen Blvd. Bridge over S. Blandford Dr.			Arterial Improvements	Future	Unfunded	Replace existing bridge along Evergreen Blvd. at Blandford with new structure. Project will address safety and accessibility for all modes of travel. (Outside 6-year horizon)	Existing bridge is nearing the end of its useful life and bridge inspection reports indicate that the bridge should be planned for replacement in the near future. Identified through our Bridge Inspection Program.	Funded, unfunded projects outside the 6-year horizon, and programs were not scored.	No		\$ 15,000,000	Columbia	Unknown
TRANS-0839	PRJ100351	NE 152nd Ave. and NE Fourth Plain Blvd. Signal			Signal & Transportation Improvements	Future	Partially Funded	Install new signal to accommodate future growth.	Intersection is anticipated to have a below standard LOS in the near future due to growth. Originated with Bircher area redevelopment.	Near-term	No		\$ 1,200,000	Pacific	Unknown
TRANS-0843	PRJ071448	SE Evergreen Hwy Pathway - Weber Arboretum to SE 100th Ct.	Weber Arboretum	SE 100th Ct.	Active Transportation	Active	Unfunded	Upgrade street with 6 to 10 foot pedestrian pathway on south side of roadway, a priority east/west pedestrian and mobility lane corridor. Design and ROW funded. No funding for construction.	Substandard roadway and shoulder conditions, priority east/west pedestrian and bicycle corridor. Originated from Clark County Parks and Recreation Scenic Evergreen Trail Plan (1994), Evergreen Highway Trail Project Scoping Report (2009), and Evergreen Corridor Management Strategy (2016).	Near-term	No		\$ 1,000,000	Cascade	Unknown
TRANS-0844	PRJ072459	Complete Streets/Multimodal Safety and Accessibility	Citywide		Program	Active	Funded	Ongoing program budgeted at \$1.5M/yr., to address safety and accessibility for people walking, biking, and rolling. Projects include: TRANS-740 - Evergreen Hwy Pathway, TRANS-889 - 18th and Devine ADA Improvements, TRANS-899 - 4th Plain Blvd. Pedestrian Crossing, TRANS-910 - Hazel Dell/BBC Crossing, TRANS-920 - McGillivray Complete Street, TRANS-921 - 112th Ave Complete Street, and TRANS-943 - Garrison Sidewalk Improvements and many more. See project list for complete list.	Program will be used to address safety and accessibility deficiencies throughout the City including, but not limited to, pedestrian, bicycles, Americans with Disability Act, etc.	Funded, unfunded projects outside the 6-year horizon, and programs were not scored.	No			N/A	Ongoing
TRANS-0848	TBD	SE 164th Avenue and SE 12th Street Intersection Improvements			Signal & Transportation Improvements	Future	Unfunded	Increase left-turn movement capacity at intersection of SE 164th Ave. and SE 12th St. to improve overall level of service. (Outside 6-year horizon)	Left turn demand exceeds left turn capacity on certain legs of the intersection. Identified by staff.	Funded, unfunded projects outside the 6-year horizon, and programs were not scored.	No		\$ 1,000,000	Cascade	Unknown
TRANS-0856	TBD	NE 18th St. and NE 172nd Ave. Intersection Improvements			Arterial Improvements	Future	Unfunded	Install additional turn lanes and other signal improvements at the intersection of NE 18th Street and NE 172nd Avenue. (Outside 6-year horizon)	Currently the intersection of NE 18th Street and NE 172nd Avenue is signalized, but the intersection needs additional turn lanes and signal improvements. Identified through the development review process.	Funded, unfunded projects outside the 6-year horizon, and programs were not scored.	No		\$ 500,000	Cascade	Unknown
TRANS-0857	TBD	SE 10th Street Sidewalks - SE 98th Avenue to SE Ellsworth Rd.	SE 98th Ave.	SE Ellsworth Rd.	Active Transportation	Future	Unfunded	Install sidewalks and ADA ramps along SE 10th Street from SE 98th Avenue to Ellsworth Road, including on the north side between Ellsworth Rd. and I-205. (Outside 6-year horizon)	Sidewalks along 10th Street would improve pedestrian safety, currently there are no sidewalks. Identified by staff and public. Remaining connection on the City's major east/west active transportation network corridor with McLoughlin, MacArthur, McGillivray and SE 34th St.	Funded, unfunded projects outside the 6-year horizon, and programs were not scored.	No		\$ 2,000,000	Cascade	Unknown
TRANS-0859	PRG0138	Sidewalk Management Program	Citywide		Program	Active	Funded	Program manages all sidewalks/ADA curb ramps within the City limits. Includes notification and assistance to land owners to correct sidewalk/ADA curb ramp deficiencies along their property frontage. Program is budgeted for \$500,000/yr.	To improve how we provide safe sidewalks and manage our sidewalk inventory.	Funded, unfunded projects outside the 6-year horizon, and programs were not scored.	No			N/A	Ongoing
TRANS-0861	TBD	Westside Bike Mobility			Active Transportation	Future	Unfunded	First phase of implementation was focused on the Columbia corridor, completed in 2022. Project included traffic calming, mobility lanes and pedestrian improvements throughout the westside of downtown Vancouver. Implementation of other routes will occur later. (Outside 6-year horizon)	The Westside Bike Mobility study recommended multiple bicycle enhancements in the downtown area.	Funded, unfunded projects outside the 6-year horizon, and programs were not scored.	No		\$ 800,000	Columbia	Unknown
TRANS-0868	TBD	St. Johns Blvd. and Fort Vancouver Way Intersection Improvements			Signal & Transportation Improvements	Future	Unfunded	Install enhanced stop control at St. Johns Boulevard and Fort Vancouver Way as well as associated civil roadway improvements. (Outside 6-year horizon)	Intersection needs modifications in order to accommodate current and future traffic volumes and improve safety for all modes. Identified through the development review process with concept designs recommended and developed in the St. Johns-St. James Safety and Mobility Project.	Funded, unfunded projects outside the 6-year horizon, and programs were not scored.	No		\$ 2,000,000	Columbia	Unknown
TRANS-0869	PRJ100786	Arterial Street Light Program	Citywide		Program	Future	Funded	Program to install new street lights, including all fixtures and power, and replace old street lights citywide. This program is different than TRANS-853 which is intended to upgrade bulbs only.	Needed program to install new street lights and replace old street lights citywide.	Funded, unfunded projects outside the 6-year horizon, and programs were not scored.	No			N/A	Ongoing
TRANS-0873	TBD	Upper Main St. Complete Street and Paving Project - Fourth Plain Blvd. to E 37th St.	Fourth Plain Blvd.	E 37th St.	Active Transportation	Future	Unfunded	The Upper Main St. Complete Street Project between Fourth Plain Blvd. to 37th St. will stripe to improve traffic flow. Strategic improvements are incorporated throughout the length of the project and they include: new marked crossings with median islands at 31st and 35th Streets, removal of a northbound travel lane, wayfinding signage and speed limit reduction from 30 to 25 mph. Improvements to be coordinated with C-TRAN HWY 99 BRT project.	Improving safety, mobility, and providing additional modal choices for road users. Identified by staff and recommended by the Transportation and Mobility Commission.	Near-term	No		\$ 1,000,000	Columbia	Unknown
TRANS-0879	PRJ100352	Columbia House Blvd. and Grove St. Signal Upgrade			Signal & Transportation Improvements	Future	Partially Funded	This project will add a dedicated northbound right-turn lane on the westbound off-ramp; and add a second westbound through lane. Reconstruct ADA ramps and move signal poles as necessary. Striping and signalization changes as necessary. Funded by proportionate share program.	Improvements are necessary to mitigate future localized development impact identified by developer's traffic study. Identified through the development review process.	Near-term	No		\$ 658,000	Columbia	Unknown
TRANS-0880	TBD	McGillivray and Village Loop Drive Intersection Improvements			Arterial Improvements	Future	Unfunded	New stop controlled device at intersection. Conduct signal warrant and analysis to determine stop control device (roundabout or signal).	The all-way stop controlled intersection is experiencing long vehicle delays during the peak hours and needs safety improvements for active transportation users. Identified through the development review process and recommended as part of the McGillivray Blvd. Safety and Mobility Project (2024).	Near-term	No		\$ 500,000	Cascade	Unknown
TRANS-0883	TBD	NW 32nd Ave./Lower River Rd. Roundabout			Arterial Improvements	Future	Unfunded	Phase 2 of the NW 32nd Ave. Freight Access project proposes a roundabout at the intersection of SR 501 and NW 32nd Ave. to improve traffic operations. (Outside 6-year horizon)	Substandard roadway conditions and reported safety concerns. Originated from Westside Mobility Strategy (2016).	Funded, unfunded projects outside the 6-year horizon, and programs were not scored.	No		\$ 2,000,000	Columbia	Unknown
TRANS-0884	PRJ100717	NW 32nd Ave. Freight and Mobility - Lower River Rd. to NW 61st St.	SR 501	NW 61st St.	Arterial Improvements	Future	Unfunded	Phase 5 of the NW 32nd Ave. Freight Access project proposes a new segment that will consist of three travel lanes, mobility lanes, planter strips and ADA accessible sidewalks. The sidewalk along the west side of the roadway is 10 feet wide to accommodate a multi-use path facility. (Outside 6-year horizon)	Substandard Roadway conditions and reported safety concerns. Originated from Westside Mobility Strategy (2016).	Funded, unfunded projects outside the 6-year horizon, and programs were not scored.	No		\$ 64,000,000	Columbia	Unknown

TRANS-0885	TBD	NW 32nd Ave. Freight and Mobility - NW 61st St. to Burnt Bridge Creek	NW 61st St.	Burnt Bridge Creek	Arterial Improvements	Future	Unfunded	Phase 4 of the NW 32nd Ave. Freight Access project proposes rebuilding Lakeshore Ave./Fruit Valley Rd. and the existing bridge over the BNSF right-of-way. The cross section will consist of three travel lanes, mobility lanes, planter strips and ADA accessible sidewalks. The sidewalk along the west side of the roadway is 10 feet wide to accommodate a multi-use path facility. (Outside 6-year horizon)	Substandard roadway conditions and reported safety concerns. Originated from Westside Mobility Strategy (2016).	Funded, unfunded projects outside the 6-year horizon, and programs were not scored.	No		\$ 49,000,000	Columbia	Unknown
TRANS-0886	TBD	NW 32nd Ave. Freight and Mobility - Burnt Bridge Creek to NW 78th St.	Burnt Bridge Creek	NW 78th St.	Arterial Improvements	Future	Unfunded	Phase 3 of the NW 32nd Ave. Freight Access project proposes rebuilding Lakeshore Ave./Fruit Valley Rd. to a cross section consisting of three travel lanes, mobility lanes, planter strips and ADA accessible sidewalks. The sidewalk along the west side of the roadway is 10 feet wide to accommodate a multi-use path facility. (Outside 6-year horizon)	Substandard Roadway conditions and reported safety concerns. Originated from Westside Mobility Strategy (2016).	Funded, unfunded projects outside the 6-year horizon, and programs were not scored.	No		\$ 10,000,000	Columbia	Unknown
TRANS-0887	TBD	NW 78th St./Fruit Valley Rd./NW Lakeshore Ave. Roundabout			Arterial Improvements	Future	Partially Funded	Phase 1 of the NW 32nd Ave. Freight Access project proposes a new roundabout to improve traffic operations at the intersection of NW Lakeshore Ave., NW 78th St., and Fruit Valley Rd.	Substandard Roadway conditions and reported safety concerns. Originated from Westside Mobility Strategy (2016).	Medium-term	No		\$ 4,665,900	Columbia	Unknown
TRANS-0888	PRJ100443	SE 192nd Ave. and SR 14 Interchange Improvements	<Null>		Signal & Transportation Improvements	Future	Partially Funded	Install a new traffic signal on the westbound on-ramp from SE 192nd Avenue to SR 14. Partially funded by Proportionate Share money.	This signal is needed to improve safety and Level of Service. Improvements triggered by proposed development in the area including the Columbia Palisades development.	Near-term	No		\$ 2,016,000	Cascade	Unknown
TRANS-0889	PRJ100592	NE 18th St. and N. Devine Rd. ADA Improvements (SS4A)	<Null>		Active Transportation	Active	Funded	Project improvements for improved ADA access at the intersection of NE 18th St and Devine. Funded through TRANS-844 - Multimodal Safety and Accessibility.	Originated from Fourth Plain Corridor Subarea Plan (2007) and included in the City's USDOT Safe Streets and Roads for All grant package.	Funded, unfunded projects outside the 6-year horizon, and programs were not scored.	No		\$ 1,000,000	Columbia	2026
TRANS-0890	TBD	NE Fourth Plain Blvd. and Grand Blvd. - Pedestrian Improvement SW Corner			Active Transportation	Future	Unfunded	Increase radius of southwest corner to improve pedestrian safety and ADA access, and accommodate truck turns. Project requested by City of Vancouver Traffic Engineering. (Outside 6-year horizon)	To improve pedestrian safety at this corner, for pedestrian movement and sight distance for safe crossing both eastward and northward. Originated from Fourth Plain Corridor Subarea Plan (2007) and Fourth Plain Forward Action Plan (2015).	Funded, unfunded projects outside the 6-year horizon, and programs were not scored.	No		\$ 700,000	Columbia	Unknown
TRANS-0891	TBD	E. Mill Plain Boulevard - Boise Ave. to N. Andresen Rd.	Boise Ave.	N. Andresen Rd.	Arterial Improvements	Future	Unfunded	Heights District Plan recommended roadway changes to improve safety, support multimodal mobility and accommodate future Bus Rapid Transit line. Includes reducing lane widths, adding protected mobility lanes, improving sidewalks, adding planter strips, and adding and/or improving ADA access and pedestrian crossings at Ogden, Missoula and Helena.	Heights District Plan recommendations for redevelopment. Roadway changes to improve safety and support multi-modal mobility. Originated from Heights District Plan (2020).	Near-term	No		\$ 10,000,000	Columbia	Unknown
TRANS-0892	TBD	MacArthur Blvd. - Blandford Dr. to Lieser Rd.	Blandford Dr.	Lieser Rd.	Arterial Improvements	Future	Unfunded	Heights District Plan recommended roadway changes to improve safety, support multi-modal mobility, and add a linear greenbelt. Includes moving vehicle travel to the east side of the median and converting the west side to separated mobility lanes and pedestrian facilities, and open space. Will include improved ADA access and pedestrian crossings at Blandford, Phoenix, Texas and Burdick. (Outside 6-year horizon)	Heights District Plan recommendations for redevelopment. Roadway changes to improve safety and support multi-modal mobility. Originated from Heights District Plan (2020).	Funded, unfunded projects outside the 6-year horizon, and programs were not scored.	No		\$ 15,000,000	Columbia & Cascade	Unknown
TRANS-0893	TBD	N. Devine Rd. - E. Mill Plain Blvd. to MacArthur Blvd.	E. Mill Plain Blvd.	MacArthur Blvd.	Arterial Improvements	Future	Unfunded	Heights District Plan recommended roadway changes to improve safety and support multi-modal mobility, including a two-way protected mobility lane on the west side of the street, improved ADA access and sidewalks, larger planter strips, and enhanced crossings. Sidewalk improvements along Devine being constructed as part of TRANS-871. (Outside 6-year horizon)	Heights District Plan recommendations for redevelopment. Roadway changes to improve safety and support multi-modal mobility. Originated from Heights District Plan (2020).	Funded, unfunded projects outside the 6-year horizon, and programs were not scored.	No		\$ 4,000,000	Columbia	Unknown
TRANS-0894	TBD	Andresen Rd. - E. Mill Plain Blvd. to Highland Dr.	E. Mill Plain Blvd	Highland Dr.	Arterial Improvements	Future	Unfunded	Roadway changes to improve safety and support multi-modal mobility. Includes reducing the travel lanes from four to two just south of Mill Plain, adding protected mobility lanes, widening sidewalks and adding planter strips, improving ADA access pedestrian crossings at Wichita, Missouri and Louisiana. (Outside 6-year horizon)	Heights District Plan recommendations for redevelopment. Roadway changes to improve safety and support multi-modal mobility. Originated from Heights District Plan (2020).	Funded, unfunded projects outside the 6-year horizon, and programs were not scored.	No		\$ 10,000,000	Columbia & Cascade	Unknown
TRANS-0895	TBD	MacArthur Blvd. at N. Devine Rd. Roundabout			Arterial Improvements	Future	Unfunded	Heights District Plan recommended roadway changes - Construct roundabout to optimize multimodal traffic safety and operations with additional trips generated by redevelopment in the Heights District. (Outside 6-year horizon)	Heights District Plan recommendations for redevelopment. Roadway changes to improve safety and support multi-modal mobility. Originated from Heights District Plan (2020).	Funded, unfunded projects outside the 6-year horizon, and programs were not scored.	No		\$ 1,500,000	Columbia	Unknown
TRANS-0896	TBD	MacArthur Blvd. at N. Andresen Rd. Roundabout			Arterial Improvements	Future	Unfunded	Heights District Plan recommended roadway changes -Construct roundabout to optimize multimodal traffic safety and operations with additional trips generated by redevelopment in the Heights District. (Outside 6-year horizon)	Heights District Plan recommendations for redevelopment. Roadway changes to improve safety and support multi-modal mobility. Originated from Heights District Plan (2020).	Funded, unfunded projects outside the 6-year horizon, and programs were not scored.	No		\$ 1,500,000	Columbia & Cascade	Unknown
TRANS-0898	PRJ100386	NE 115th Ave. - NE 16th St. to NE 18th St.	NE 16th St.	NE 18th St.	Arterial Improvements	Active	Partially Funded	This project proposes a new road connecting NE 16th Street and NE 18th Street in the vicinity of Four Seasons Lane and Joe's Place farm. This is partially funded through \$250K developer contribution and will require ROW from Joe's Place Farms and Bonneville Power Administration.	Complete street network connection and loop two dead end streets. Identified through the development review process.	Near-term	No		\$ 970,500	Cascade	Unknown
TRANS-0899	PRJ100672	NE Fourth Plain Blvd - Enhanced Pedestrian Crossings (SS4A)			Active Transportation	Active	Funded	Pedestrian and ADA accessible improvements on E Fourth Plain Blvd. east of Fort Vancouver Way. Improvements include a HAWK beacon and pedestrian refuges on Fourth Plain Blvd. at Neals Lane and at Todd Rd./Rossiter Ln. Funded through TRANS-844 - Multimodal Safety and Accessibility.	NE Fourth Plain enhanced pedestrian crossings to improve pedestrian safety and transit access. Originated from Fourth Plain Corridor Subarea Plan (2007), Fourth Plain Forward Action Plan (2015), Fourth Plain Pedestrian Safety and Access Implementation Strategy (2017).	Funded, unfunded projects outside the 6-year horizon, and programs were not scored.	No		\$ 750,000	Columbia	2025
TRANS-0903	TBD	NE 9th St. Infill Sidewalk - NE 112th Ave. to NE 136th Ave.	NE 112th Ave.	NE 136th Ave.	Active Transportation	Future	Unfunded	This project will add new sections of sidewalk infill along NE 9th St., between NE 112th Ave. and NE 136th Ave. (Outside 6-year horizon)	Identified through our Sidewalk Management Program.	Funded, unfunded projects outside the 6-year horizon, and programs were not scored.	No		\$ 500,000	Cascade	Unknown
TRANS-0905	TBD	Amtrak Multimodal Access - W 11th St	Hill St. (Amtrak Station)	King St.	Active Transportation	Future	Unfunded	Multimodal mobility lanes and pedestrian access on W. 11th St., from King St. to the Amtrak Station. (Outside 6-year horizon)	Provides multi-modal access to the Amtrak Station. Originated from Vancouver City Center Vision Plan (2007).	Funded, unfunded projects outside the 6-year horizon, and programs were not scored.	No		\$ 10,000,000	Columbia	Unknown
TRANS-0907	TBD	NE 124th Ave. - NE 28th St. to NE 39th St.	NE 28th St.	NE 39th St.	Arterial Improvements	Future	Unfunded	Reconstruction/Upgrade existing two lane Collector Arterial to current standards, to include sidewalks, ADA ramps, mobility lanes and streetlights.	Upgrade existing two lane Collector Arterial to increase safety, mobility, accessibility and level of service. Identified through the development review process.	Near-term	No		\$ 10,000,000	Pacific	Unknown
TRANS-0909	TBD	SE 29th St. - SE 176th Ave. to SE 192nd Ave.			Arterial Improvements	Future	Unfunded	New 3-lane road built to principal arterial standards, to improve capacity, service and safety. Improvements include 3-lane principal arterial (1 lane each direction plus turn lane) with mobility lanes, streetlights, sound walls (where required), sidewalk and ADA ramps, and shared use pathway on south side of street. Developer built through developer contributions for the Vancouver Innovation Center project. (Outside 6-year horizon)	Long planned new east-west arterial for capacity, demand management and bike/pedestrian access inside the Vancouver Innovation Center project area.	Funded, unfunded projects outside the 6-year horizon, and programs were not scored.	No		\$ 10,000,000	Cascade	Unknown
TRANS-0910	PRJ100914	NE Hazel Dell Ave./BBC Trail Crossing			Active Transportation	Active	Funded	The Burnt Bridge Creek Trail Crossing at Hazel Dell Ave does not have mobility crossings between the BBC trail in the City on the east side of Hazel Dell Ave and the BBC trail in the County on the west side of Hazel Dell Ave. Safety is a major concern for users of the facility as there are not designated crossings and the curvature of the road at this location and operating speed of vehicles is dangerous for non-driving, vulnerable road users.	The Project would increase safety for current and future users to access trails and recreation opportunities and increase connections between City and County resources for all users across the facility. Identified by staff and the public.	Funded, unfunded projects outside the 6-year horizon, and programs were not scored.	Yes	\$ 700,000	\$ 1,000,000	Columbia	2025
TRANS-0911	TBD	NE Padden Expressway and NE Andresen Rd. Intersection Improvements			Active Transportation	Future	Unfunded	Intersection improvements for capacity, pedestrian safety and traffic standards. Initial planning phase to include congestion and collision study, to propose traffic improvements and alternatives to improve safety and reduce collisions. (Outside 6-year horizon)	Southbound Andresen to eastbound Padden turn volumes currently exceed the intersection capacity. Identified by staff.	Funded, unfunded projects outside the 6-year horizon, and programs were not scored.	No		\$ 10,000,000	Pacific	Unknown
TRANS-0913	TBD	MacArthur Blvd. and S. Blandford Dr. Pedestrian Crossing			Active Transportation	Future	Unfunded	Install enhanced pedestrian crossing to improve pedestrian safety and accessibility in the area. Originated from Heights District Plan (2020). (Outside 6-year horizon)	Heights District Plan recommendations for redevelopment. Roadway changes to improve safety and support multi-modal mobility. Originated from Heights District Plan (2020).	Funded, unfunded projects outside the 6-year horizon, and programs were not scored.	No		\$ 1,000,000	Columbia	Unknown
TRANS-0914	PRJ101245	39th St and Daniels St. Pedestrian Crossing (Lincoln Elementary) (SRTS)			Active Transportation	Future	Funded	Install high-visibility crosswalk, stop line at uncontrolled crosswalks, rectangular rapid flashing beacon, "Stop for Pedestrian" signs, ADA curb ramps, accessible pedestrian signals near Lincoln Elementary School at W 39th and Daniels Street.	Improve safety and accessibility. Identified by staff and the public.	Funded, unfunded projects outside the 6-year horizon, and programs were not scored.	Yes	\$ 300,000	\$ 300,000	Columbia	2023
TRANS-0915	TBD	Fruit Valley Rd. and Firestone Lane Pedestrian Crossing			Active Transportation	Future	Unfunded	Install enhanced pedestrian crossing to improve pedestrian safety and accessibility in the area. (Outside 6-year horizon)	Originated from Fruit Valley Subarea Plan (2010).	Funded, unfunded projects outside the 6-year horizon, and programs were not scored.	No		\$ 1,000,000	Columbia	Unknown
TRANS-0916	TBD	W. 16th St. at NW Packing Pedestrian Crossing			Active Transportation	Future	Unfunded	Install enhanced pedestrian crossing to improve pedestrian safety and accessibility in the area. (Outside 6-year horizon)	Originated from Fruit Valley Subarea Plan (2010).	Funded, unfunded projects outside the 6-year horizon, and programs were not scored.	No		\$ 1,000,000	Columbia	2023

TRANS-0920	PRJ100802	McGillivray Complete Street and Paving Project - Chkalov Dr. to Village Loop	Chkalov Dr.	Village Loop	Active Transportation	Active	Funded	The McGillivray Boulevard Complete Street Project explored opportunities to make McGillivray Boulevard safer and more comfortable for everyone to travel between SE Chkalov Drive and SE 164th Avenue. The Project evaluated how McGillivray Boulevard can better meet the needs of people walking, biking, using a mobility device, and driving. The Project explored opportunities and examine tradeoffs to improve safety on the corridor ahead of the pavement project planned to occur in 2026.	Improving safety, mobility, and providing additional modal choices for road users. Identified by project team and recommended by the Transportation and Mobility Commission.	Funded, unfunded projects outside the 6-year horizon, and programs were not scored.	No		\$ 5,500,000	Cascade	2025
TRANS-0921	PRJ100923	NE 112th Ave. Complete Street and Paving Project - Mill Plain Blvd. to NE 28th St.	Mill Plain Blvd.	NE 28th St.	Active Transportation	Active	Funded	The NE 112th Avenue Complete Street Project between Mill Plain Blvd. and 28th St. will repave and restripe to one general purpose lane, center turn lane, widen travel lanes and add buffered/protected mobility lane between Mill Plain Blvd and 18th Street. At Evergreen Memorial Gardens north of 9th St., include a wide northbound lane shared between pedestrians, bicyclists, and small mobility users, with standard bicycle and small mobility lane southbound. Repave road and match existing configuration between 18th and 28th Streets. Long term - add two-way 12-ft shared use path one east side between 18th and 51st Streets.	The NE 112th Avenue Complete Street Project explore the major street retrofit on 112th Ave between Mill Plain Blvd and 28th St., a street with well documented safety issues and vulnerable street users. Identified by 112nd Avenue Subarea Plan.	Funded, unfunded projects outside the 6-year horizon, and programs were not scored.	Yes	\$ 4,000,000	\$ 3,500,000	Pacific & Cascade	2026
TRANS-0924	PRJ100805	St. Johns/St. James Complete Street and Paving Project - Fourth Plain Blvd. to City Limits	Fourth Plain Blvd.	City Limits	Active Transportation	Future	Unfunded	The St. Johns/St. James Complete Street and Paving Project includes design concept options to create and implement safety and mobility improvements. The project limits include St Johns Blvd. from Fourth Plain Blvd. to SR 500, St. James Rd. from SR 500 to City Limits, and Fort Vancouver Way from Fourth Plain Blvd. to St. Johns Blvd.	These streets have documented safety issues and vulnerable street users. This project was identified by City Council as a priority corridor in the Complete Streets Policy and as a commercial corridor in the Comprehensive Plan. Concept Design Options Corridor Plan outlines improvements over time and was recommended by the TMC.	Near-term	No		\$ 8,000,000	Columbia	Unknown
TRANS-0926	TBD	SE 164th Ave. Safety/Mobility Improvements - Tech Center Dr. to SE 1st St.	Tech Center Dr.	1st St.	Active Transportation	Future	Unfunded	SE 164th Avenue is the site of two top priority crash locations, the segment between SE 1st Street and Mill Plain Boulevard and the intersection with SE Tech Center Drive/12th Street. There have been three fatalities and two severe injuries on the segment and at the intersection, and four additional pedestrian injuries at the intersection. The project will include elements to address crash factors, such as treatments related to signal phases, intersection configurations, pavement markings, installation of refuge islands or raised crossings, and other measures. (Outside 6-year horizon)	Improving safety and mobility. Identified from the Transportation System Safety Analysis (2018) and Local Road Safety Plan (2022).	Funded, unfunded projects outside the 6-year horizon, and programs were not scored.	No		\$ 2,000,000	Cascade	Unknown
TRANS-0927	TBD	NE 187th Ave. - SE 1st St. to NE 18th St.	SE 1st St.	NE 18th St.	Arterial Improvements	Future	Unfunded	New 3-lane collector/minor arterial (1 lane each direction plus center turn lane) with sidewalks, mobility lanes, streetlights, signals, school crossings, stormwater and sound walls where required.	Project addresses capacity, safety conditions and providing multimodal access. Identified by Section 30 Subarea Plan.	Medium-term	No		\$ 13,000,000	Cascade	Unknown
TRANS-0928	TBD	NE 13th St. - NE 172nd Ave. to NE 187th Ave.	NE 172nd Ave.	NE 187th Ave.	Arterial Improvements	Future	Unfunded	New 3-lane collector/minor arterial (1 lane each direction plus center turn lane) with sidewalks, mobility lanes, streetlights, signals, school crossings, stormwater and sound walls where required.	Project addresses capacity, safety conditions and providing multimodal access. Identified by Section 30 Subarea Plan.	Long-term	No		\$ 18,000,000	Cascade	Unknown
TRANS-0931	TBD	NE 162nd Avenue and NE 9th Street Intersection Improvements			Signal & Transportation Improvements	Future	Unfunded	The NE 162nd Avenue and NE 9th Street Intersection Improvements will include a signalized intersection and the east leg of the intersection will be striped to provide a westbound left-turn lane. (Outside 6-year horizon)	Improving safety and mobility. This project is taking on the recommendations from the Section 30 Traffic Study.	Funded, unfunded projects outside the 6-year horizon, and programs were not scored.	No		\$ 500,000	Cascade	Unknown
TRANS-0932	TBD	NE 172nd Avenue and NE 9th Street Intersection Improvements			Signal & Transportation Improvements	Future	Unfunded	The NE 172nd Avenue and NE 9th Street Intersection Improvements will include a signalized intersection or a single lane roundabout. (Outside 6-year horizon)	Improving safety and mobility. This project is taking on the recommendations from the Section 30 Traffic Study.	Funded, unfunded projects outside the 6-year horizon, and programs were not scored.	No		\$ 500,000	Cascade	Unknown
TRANS-0936	TBD	Mill Plain Blvd. and Hearthwood Blvd. Intersection Improvements			Signal & Transportation Improvements	Future	Unfunded	Mill Plain Boulevard and Hearthwood Boulevard are each wide arterials whose intersection had seen crashes that resulted in severe and fatal injuries. The confluence of transit, heavy vehicle traffic on Mill Plain Boulevard, and permissive left turns across the path of pedestrians and mobility users have led to crashes that resulted in severe and fatal injuries. The project will include elements to address crash factors, such as treatments related to signal phases, intersection configurations, pavement markings, and other measures.	Improving safety, mobility, and providing additional modal choices for road users. Identified from the Transportation System Safety Analysis (2018) and Local Road Safety Plan (2022).	Near-term	No		\$ 1,500,000	Cascade	Unknown
TRANS-0937	TBD	SE Westridge Blvd. and SE 1st Street Intersection Improvements			Signal & Transportation Improvements	Future	Unfunded	The SE Westridge Blvd. and SE 1st Street intersection improvements will include a signalized intersection.	Improving safety and mobility. Identified through the development review process.	Medium-term	No		\$ 1,500,000	Cascade	Unknown
TRANS-0938	PRJ101031	MacArthur Blvd. - Mill Plain to Blandford Dr.	E Mill Plain Blvd.	Blandford Dr.	Arterial Improvements	Active	Funded	Heights District Plan recommended roadway changes to improve safety, support multi-modal mobility, and add a linear greenbelt. Includes moving vehicle travel to the east side of the median and converting the west side to separated mobility lanes and pedestrian facilities, and open space. Will include improved ADA access and pedestrian crossings at Blandford, Phoenix, Texas and Burdick.	Provide economic development and improve access and mobility. Originated from Heights District Plan (2020).	Funded, unfunded projects outside the 6-year horizon, and programs were not scored.	Yes	\$ 4,100,000	\$ 10,000,000	Columbia	2023
TRANS-0941	TBD	Fourth Plain Boulevard Safety and Mobility - 121st Ave. to 127th Ave.	121st Ave	127th Ave	Active Transportation	Future	Unfunded	Fourth Plain Blvd. is one of the most dangerous roadways in the City, with high frequency and severity of crashes at several segments and intersections. The multimodal roadway sees people traveling in all modes, including vis bus rapid transit service. While the Fourth Plain Safety and Mobility Project will address several dangerous segments and intersections, the remaining intersection and segment are identified for safety improvements that could include roadway reconfigurations, changing signal phasing, installing lighting, and reducing crash exposure for vulnerable users. (Outside 6-year horizon)	Improving safety, mobility, and providing multimodal choices for road users. This project was identified in the Local Roads Safety Plan (2022) and Transportation System Safety Analysis (2018).	Funded, unfunded projects outside the 6-year horizon, and programs were not scored.	No		\$ 1,000,000	Pacific	Unknown
TRANS-0942	TBD	SE 192nd Ave and Mill Plain Blvd. Intersection Improvements			Signal & Transportation Improvements	Future	Unfunded	Project elements will look at crash countermeasures related to high traffic volumes, number of commercial driveways, roadway configurations and insufficient infrastructure for pedestrians or mobility users. (Outside 6-year horizon)	Improve safety, mobility and provide multimodal access. Originated from Transportation System Safety Analysis (2018) and Local Road Safety Plan (2022).	Funded, unfunded projects outside the 6-year horizon, and programs were not scored.	No		\$ 500,000	Cascade	Unknown
TRANS-0943	PRJ100922	Garrison Rd. Sidewalk Improvements - Mill Plain Blvd. to David Douglas Park	Mill Plain Blvd.	David Douglas Park	Active Transportation	Active	Funded	Install sidewalks and ADA ramps along Garrison Rd. from Mill Plain to David Douglas Park.	Improve safety and mobility. Identified by staff and public with support from WSDOT.	Funded, unfunded projects outside the 6-year horizon, and programs were not scored.	Yes	\$ 1,000,000	\$ 1,600,000	Cascade	2025
TRANS-0944	PRJ101098	Heights Grand Loop - Devine Rd. to MacArthur Blvd.	Devine Rd.	MacArthur Blvd.	Arterial Improvements	Active	Funded	Pursuant to the Heights District Master Plan, construct a network of street, pedestrian and mobility improvements that form a loop around the central core of the Tower Mall Redevelopment Area, providing connections between MacArthur Blvd, Devine Road and Mill Plain Blvd.	Improve safety, mobility and provide multimodal access. Project originated from the Heights District Master Plan (2020).	Funded, unfunded projects outside the 6-year horizon, and programs were not scored.	No		\$ 20,000,000	Columbia	2026
TRANS-0945	TBD	E 18th Street Mobility Lane Improvements and Traffic Calming - Grand Blvd. to NE Burton Rd.	Grand Blvd.	NE Burton Rd.	Active Transportation	Future	Unfunded	Improve safety and comfort of mobility lanes on E 18th Street between Grand Blvd. and NE Burton Rd. through the addition of a buffer zone and vertical elements where feasible. Explore narrowing existing travel lanes to slow vehicle traffic and create space for buffer, as well as other traffic calming treatments such as lowering the posted speeds. (Outside 6-year horizon)	Improve safety and mobility. This project originated in the Fourth Plain and Fort Vancouver Way Safety and Mobility Project (2023).	Funded, unfunded projects outside the 6-year horizon, and programs were not scored.	No		\$ 2,000,000	Columbia & Cascade	Unknown
TRANS-0946	PRJ100959	Fourth Plain Blvd. Multiuse Path - E 62nd Ave. to Andresen Rd.	E 62nd Ave	Andresen Rd.	Active Transportation	Future	Partially Funded	Build an off-street multiuse facility between NE 62nd Avenue and NE Andresen Road to serve mobility users traveling along the corridor. Expand existing sidewalk on either north or south side of the road at the back of sidewalk to create additional space to be shared with other mobility users. Use emblems or materials to differentiate between pedestrian and mobility user zones.	Improve safety, mobility and provide multimodal access. This project originated in the Fourth Plain and Fort Vancouver Way Safety and Mobility Project (2023).	Near-term	No		\$ 1,910,000	Columbia	Unknown
TRANS-1115	PRJ101246	NE 52nd St. and NE 135th Ave Pedestrian Crossing (Image Elementary) (SRTS)			Signal & Transportation Improvements	Future	Funded	Install high-visibility crosswalk, stop line at uncontrolled crosswalks, "Stop for Pedestrian" signs, rectangular rapid flashing beacon, pedestrian and bicyclist crossing illumination, pedestrian and bicyclist segment illumination, and curb extension at Image Elementary School - NE 52nd Street and NE 135th Avenue.	To improve pedestrian safety and access. Identified by staff and the public.	Funded, unfunded projects outside the 6-year horizon, and programs were not scored.	Yes	\$ 300,000	\$ 100,000	Pacific	Unknown
TRANS-1117	TBD	Fourth Plain Blvd. and Laurel PL Pedestrian Crossing (SS4A)			Signal & Transportation Improvements	Active	Funded	Install enhanced pedestrian crossing to improve pedestrian safety and accessibility.	To improve pedestrian safety and access. Identified in the Fourth Plain Forward Pedestrian Safety and Access Implementation Strategy and funding in the City's USDOT Safe Streets and Roads for All package.	Funded, unfunded projects outside the 6-year horizon, and programs were not scored.	Yes	\$ 400,000	\$ 500,000	Columbia	2026

Traffic Calming - Fourth Plain Blvd. to E 18th St.	Fourth Plain Blvd.	E 18th St.	Active Transportation	Future	Unfunded	Install traffic calming treatments on Brandt Rd. to improve safety for users. Improve safety and visibility of mobility lanes by restriping where needed and refreshing bicycle road markings. (Outside 6-year horizon)	To improve safety and mobility access. Originated from the Fourth Plain and Ft. Vancouver Way Safety and Mobility Project (2023).	Funded, unfunded projects outside the 6-year horizon, and programs were not scored.	No	\$ 100,000	\$ 100,000	Columbia	Unknown
TRANS-1129	TBD	N Grand Blvd. Traffic Calming - Fourth Plain Blvd. to E 18th St.	Fourth Plain Blvd.	E 18th St.	Active Transportation	Future	Unfunded	Install traffic calming treatments on Grand Blvd. to improve safety for users. (Outside 6-year horizon)	To improve safety and mobility access. Originated from the Fourth Plain and Ft. Vancouver Way Safety and Mobility Project (2023).	Funded, unfunded projects outside the 6-year horizon, and programs were not scored.	No	\$ 100,000	\$ 100,000	Columbia	Unknown
TRANS-1130	TBD	Fourth Plain Blvd. and BBC Trail Crossing Intersection Mural			Active Transportation	Future	Unfunded	Install a community-led mural at the intersection of Fourth Plain Blvd. and Falk Rd. where the BBC Trail crosses the roadway. (Outside 6-year horizon)	The mural is intended to celebrate the Fourth Plain International District through placemaking, while also acting as a traffic calming measure. Originated from the Fourth Plain and Ft. Vancouver Way Safety and Mobility Project (2023).	Funded, unfunded projects outside the 6-year horizon, and programs were not scored.	No	\$ 100,000	\$ 100,000	Columbia	Unknown
TRANS-1131	TBD	Safe Routes to Schools Program/Pedestrian Program	Citywide		Program	Future	Unfunded	New program to be implemented Citywide in 2025. Work with schools to analyze school walking routes, gaps and safety issues to develop safe route projects. Program budget \$200,000 per year.	Develop safety and education programs in partnership with schools, neighbors, community organizations and agencies to increase safety and improve health for students and their families.	Funded, unfunded projects outside the 6-year horizon, and programs were not scored.	No			N/A	Ongoing
TRANS-1132	TBD	City Safety Program	Citywide		Program	Future	Unfunded	New program to be implemented Citywide. Provide resources to develop a comprehensive City safety program, which would include: management of the citywide collision dashboard, regular review of safety data and design of rapid response projects, response to collision hotspots identified through the Local Road Safety Plan, and high collision corridor. Program budget to be determined.	To improve overall traffic safety by identifying patterns and high collisions areas, then ultimately resulting in future TIP projects to resolve these issues.	Funded, unfunded projects outside the 6-year horizon, and programs were not scored.	No			N/A	Unknown
TRANS-1133	TBD	Lighting for Pedestrian Safety Program	Citywide		Program	Future	Unfunded	New program to be implemented Citywide. Create GIS inventory of high-need locations based on pedestrian activity, locations of mid-block enhanced pedestrian crossings, locations that need additional crossings/lighting, high ridership bus stops, roadway characteristics, and crash data. Develop policy to prioritize installation and incorporate into development review. Program budget to be determined.	To improve pedestrian safety by identifying patterns and high need areas, then ultimately resulting in future TIP projects to resolve these issues.	Funded, unfunded projects outside the 6-year horizon, and programs were not scored.	No			N/A	Unknown
TRANS-1134	TBD	Automated Enforcement Program	Citywide		Program	Future	Unfunded	New program to be implemented Citywide. Develop program, community outreach, pilot testing, coordinate with Vancouver Police Department, and address equity considerations. Program budget to be determined.	Included in TSP and now enabled for expanded use at state level.	Funded, unfunded projects outside the 6-year horizon, and programs were not scored.	No			N/A	Unknown
TRANS-1135	TBD	Ped/Bike/Small Mobility Wayfinding Program	Citywide		Program	Future	Unfunded	New program to be implemented Citywide. This program will help build out more trails/networks as a supplement to the initial TSP project. Program budget to be determined.	To improve pedestrian safety and mobility access.	Funded, unfunded projects outside the 6-year horizon, and programs were not scored.	No			N/A	Unknown
TRANS-1143	TBD	NE Andresen Rd. Sidewalk - NE 78th St. to NE 84th St.	NE 78th St.	NE 84th St.	Active Transportation	Future	Unfunded	This project includes new sidewalk and mobility improvements along NE Andresen Rd from NE 78th St. to NE 84th St. (Outside 6-year horizon). Identified by staff and public.	To improve pedestrian safety and mobility access.	Funded, unfunded projects outside the 6-year horizon, and programs were not scored.	No	\$ 1,000,000	\$ 1,000,000	Pacific	Unknown
TRANS-1350	TBD	NE 112th Ave./SE Chkalov Dr. Complete Street and Paving Project - NE 28th St. to NE 51st St.	NE 28th St.	NE 51st St.	Active Transportation	Future	Partially Funded	The NE 112th Avenue Complete Street Project between 28th St. and 51st St. will repave and restripe to add standard bicycle and small mobility lane. Configure alternate route Neighborhood Greenway with traffic calming treatments, and wayfinding signage. Shared lane markings between: 106th and 110th Ave, Morrow Road, Four Seasons Lane, and two way 12-ft shared use path one east side between 18th and 51st Streets (long term).	The NE 112th Avenue Complete Street Project will explore a major street retrofit on 112th Ave between 28th St. and 51st St., a street with well documented safety issues and vulnerable street users. Identified by 112nd Avenue Subarea Plan.	Near-term	No	\$ 2,750,000	\$ 2,750,000	Pacific	2028
TRANS-1351	TBD	NE 112th Ave./SE Chkalov Dr. Complete Street Project - Mill Plain Blvd. to SE McGillivray Blvd.	Mill Plain Blvd.	SE McGillivray Blvd.	Active Transportation	Future	Unfunded	The NE 112th Avenue Complete Street Project between Mill Plain Blvd. and McGillivray Blvd. will repave and restripe. The project will add two 11-ft travel lanes, a 14-ft center turn lane, two 6-ft bicycle and small mobility lanes with 6-ft buffers and vertical posts, and dedicated turn lanes at Mill Plain Blvd intersection north and southbound approaches.	The NE 112th Avenue Complete Street Project will explore a major street retrofit on 112th Ave between Mill Plain Blvd. and McGillivray Blvd., a street with well documented safety issues and vulnerable street users. Identified by 112nd Avenue Subarea Plan.	Near-term	No	\$ 750,000	\$ 750,000	Cascade	2027
TRANS-1352	PRJ101097	Upper Main St. Complete Street and Paving Project - E 39th to NE 45th St./Hazel Dell	E 39th St.	NE 45th St./Hazel Dell	Active Transportation	Future	Funded	The Upper Main St. Complete Street Project between 37th St. to City Limits will repave and restripe. Strategic improvements are incorporated throughout the length of the project and they include: curb ramp upgrades, a southbound mobility lane between 39th and 40th Streets, a two way bikeway between 40th and the Covington House driveway exit, a multiuse path between the Covington House driveway and 45th Street, new marked crossings, a RRFB and median island at 39th and F Street, shared lane markings along F Street between 39th and 40th Street, new marked crossings at 40th and F Street and removal of a northbound travel lane and widen other travel lanes to accommodate buses. Improvements to be coordinated with C-TRAN HWY 99 BRT project.	Improving safety, mobility, and providing additional modal choices for road users. Identified by staff.	Funded, unfunded projects outside the 6-year horizon, and programs were not scored.	Yes	\$ 1,500,000	\$ 4,000,000	Columbia	2026
TRANS-1353	TBD	E 33rd St. Complete Street and Paving Project - I-5 Overpass to NW Kauffman Ave. and St. Johns Blvd. to Grand Blvd.			Active Transportation	Future	Unfunded	The E 33rd St. Complete Street Project is between I-5 overpass to Kauffman Ave and St. Johns Blvd. to Grand Blvd. will repave and restripe. Improvements will include: lower the speed limit to 25mph east of Main Street and 20mph west of Main Street, remove on street parking east of Main Street except for the north side of 33rd Street between Main and F Street and add buffered mobility lanes, remove median island at F Street and add RRFB with a raised crossing or speed cushions approaching the crossing, intersection improvements at 33rd and Grand, and add speed humps and shared lane markings between Kauffman and Main Street. Consider removing on street parking and adding buffered mobility lanes between Main and Columbia based on traffic volumes and speeds.	This project will explore major mobility improvements and complete streets retrofits as there are well documented safety issues and vulnerable street users. This will be a combined efforts with E 29th Street Complete Street Project. Identified by staff and recommended by the Transportation and Mobility Commission.	Near-term	No	\$ 700,000	\$ 700,000	Columbia	Unknown
TRANS-1354	TBD	E 29th St. Complete Street and Paving Project - I-5 Overpass to NW Kauffman Ave. and St. Johns Blvd. to Neals Ln.			Active Transportation	Future	Unfunded	The E 29th St. Complete Street and Paving Project between I-5 overpass to Kauffman and St. Johns Blvd. to Neals Ln will lower speed limit to 20 MPH. Add speed cushions and shared lane markings. Improve crossing at Grand Blvd. with pedestrian island and bicycle crossing. Install traffic circles at Franklin, F and Z Streets and Watson Ave. Fill sidewalk gaps east of X Street. Remove on street parking at intersection corners of Columbia and Kauffman. Add wayfinding signage for people walking, rolling and biking.	This project will explore major mobility improvements and complete streets retrofits as there are well documented safety issues and vulnerable street users. This will be a combined efforts with E 33rd Street Complete Street Project. Identified by staff and recommended by the Transportation and Mobility Commission.	Near-term	No	\$ 700,000	\$ 700,000	Columbia	Unknown
